The Making of the Twentieth-Century Novel John Orr,1987-01-01 Good Form Jesse Rosenthal,2017 What do we mean when we say that a novel s conclusion feels right How did feeling form and the sense of right and wrong get mixed up during the nineteenth century in the experience of reading a novel Good Form argues that Victorian readers associated the feeling of narrative form of being pulled forward to a satisfying conclusion with inner moral experience Reclaiming the work of a generation of Victorian intuitionist philosophers who insisted that true morality consisted in being able to feel or intuit the morally good Jesse Rosenthal shows that when Victorians discussed the moral dimensions of reading novels they were also subtly discussing the genre s formal properties For most Victorian moralizing is one of the period s least attractive and interesting qualities But Good Form argues that the moral interpretation of novel experience was essential in the development of the novel form and that this moral approach is still a fundamental if unrecognized part of how we understand novels Bringing together ideas from philosophy literary history and narrative theory Rosenthal shows that we cannot understand the formal principles of the novel that we have inherited from the nineteenth century without also understanding the moral principles that have come with them Good Form helps us to understand the way Victorians read but it also helps us to understand the way we read now

models of literacy in *Our Mutual Friend* the implications of reading marks in Victorian texts how computer technology has assisted the study of nineteenth century reading practices how Gladstone read his personal library and what contemporary non academic readers might owe to Victorian ideals of reading and community Reading forms a genuine meeting place for historians literary scholars theorists librarians and historians of the book and this diverse collection examines nineteenth century reading in all its personal historical literary and material contexts while also asking fundamental questions about how we read the Victorians reading in the present day

Vicarious Narratives Jeanne M. Britton, 2019 Studies the experiences of sympathy that literary characters share with each other and argues that between 1750 and 1850 key works of British and French fiction generated a specific version of sympathy by manipulating traditional narrative forms and new publication practices in response to the Enlightenment
