The Dark Years? Jacob L. Goodson, 2020-08-04 In 1997 and 1998 the American secular philosopher Richard Rorty published a set of predictions about the twenty first century ranging from the years 2014-95 He predicted for instance the election of a strong man in the 2016 presidential race and the proliferation of gun violence starting in 2014 He labels the years from 2014-44 the darkest years of American history politics and society From 2045-95 Rorty thinks his own vision for social hope will be implemented within American society a vision that includes charity in the Pauline sense solidarity and sympathy Rorty considers himself a leftist liberal and a philosopher of hope So why would a philosopher of hope predict such darkness and despair In The Dark Years Philosophy Politics and the Problem of Predictions philosopher and political theorist Jacob L Goodson explains the fullness of Rorty's predictions the problem of making predictions within the social sciences and the reasons why even Rorty's vision for life after the dark years fails us on the standards of hope Goodson argues that we ought to challenge the monopoly that American politics has as our object of hope Goodson makes the case for a melancholic yet redemptive hope

presents a vision of an impending eschatological war Although originally interpreted as being the product of a single author from the Qumran Sect the composition s inconsistencies quickly led to the view that it is in fact an eclectic document with an elaborate compositional history Yet all such theories were formulated prior to the publication of War Scroll like texts from Caves 4 and 11 A careful re examination of the War Scroll suggests instead that what began as a primitive and cohesive composition from the Hellenistic period about a two stage conquest of the world was eventually updated in order to fit the new historical realities faced by the sectarians under Roman rule
