Foucault Marxism And History Mode Of Production Versus Mode Of Information:

Foucault, Marxism and History Mark Poster,1990 *Foucault, marxism and history* Mark Poster,1981 **An Analysis of Michel Foucault's The History of Sexuality** Rachele Dini,Chiara Briganti,2017-07-12 Michel Foucault is famous as one of the 20th century s most innovative and wide ranging thinkers The qualities that made him one of the most read and influential theorists of the modern age find full expression in History of Sexuality the last project Foucault was able to complete before his death in 1984 Central to Foucault s appeal is the creativity of his thought Creative thinking takes many forms from redefining an issue in a novel way to making unexpected and illuminating connections Foucault s particular talent could perhaps best be described as turning questions inside out In the case of sexuality for instance his interpretation of the historical evidence led him to argue that the sexual categories that we are used to homosexual lesbian straight and so on are not natural but constructs that are products of the ways in which power and knowledge interact in society Such categories Foucault continues actually serve to produce the desires they seek to name And their creation in turn is closely linked to the power that society exerts on those who belong to different sexual groups Foucault s ideas familiar now were so novel in their time that they proved highly challenging But to see the world through Foucault s thought is to see it in a profoundly different and illuminating way an example of creative thinking at its best **Hacking Capitalism** Johan Söderberg,2015-12-22 Hacking Capitalism examines the Free and Open Source Software FOSS movement giving exceptional insight into the struggle by hackers over technological development and legislation **Deconstructing Postmodernist Nietzscheanism: Deleuze and Foucault** Jan Rehmann,2022-04-11 It is often asserted that postmodernism emerged from leftist Nietzsche interpretations but it is rarely explored This book investigates how Deleuze and Foucault read Nietzsche and apply a hermeneutics of innocence to his philosophy that erases the elitist anti democratic and anti socialist dimensions This misreading also affects their own theory and impairs the claim to develop a radical critique The late Foucault s turn to self care techniques merges a neo Nietzschean approach with the ideologies of neoliberalism Rehmann s critique is not directed against the endeavor to take suggestions from some of Nietzsche s astute intuitions but rather against the conformism to use him as a symbolic capital without revealing his hierarchical obsession This book is an updated and extended version of Postmoderner Links Nietzscheanismus Deleuze Foucault Eine Dekonstruktion originally published in German by Argument Verlag GmbH 2004 978 3 88619 298 4 Modern Condtns Post Mod Contry Barry Smart,2006-04-14 First Published in 1991 Routledge is an imprint of Taylor Francis an informa company *Social Theory in the Twentieth Century and Beyond* Patrick Baert,Filipe Carreira da Silva,2010-01-11 This second edition of Patrick Baert s widely acclaimed Social Theory in the Twentieth Century has been brought right up to date to offer an easy to read but provocative account of the key figures and classic schools central to the development of social theory up to the cutting edge developments in social theory today The Houses of History Anna Green,Kathleen Troup,1999-03 Provides a comprehensive introduction to the twelve schools of

thought which have had the greatest influence on the study of history in the twentieth century Ranging from Empiricism to Postcolonialism Marxism to the Ethnohistorians each chapter begins with an introduction to the particular school the main protagonists the critics and is followed by a useful section of further readings From the classic such as G R Elton s *England Under the Tudors* and E P Thompson s *The Making of the English Working Class* to the recent such as Henrietta Whiteman s *White Buffalo Woman* and Judith Walkowitz s *City of Dreadful Delight* the diverse selections collected here bring together the leading historians and theorists of the century

What Happened to History? Willie Thompson,2000-11-20 This original study explores the development of the postmodern turn in history brought on by the social political and cultural changes of the 1970s and 1980s Challenging notions of certainty and objectivity postmodernism has questioned traditional models and methods in studying history A timely intervention in an increasingly contentious area this book evaluates the strengths and weaknesses of postmodern history Beginning with a brief account of historiography as an academic discipline with its origins in the scientific historiography of the nineteenth century Willie Thompson charts the growth and development of the historical method in the twentieth century He examines the impact of Marxist historiography particularly in Britain and the United States and the emergence of new approaches to history exemplified by the work of E P Thompson and others In addition Thompson assesses the impact of feminist black and minority history

Michel Foucault Mark Olssen,2016-01-08 Olssen brings Foucault to life and sheds new light on understanding his work Educationalists and scholars across the disciplines will welcome this interpretation of Foucault Michael A Peters University of Glasgow Olssen distills in brilliant and succinct language the core of Foucault s most important insights This is a book that every student should read in order to understand how to link theory to practice and educational thought to legacy and work of one of Europe s great thinkers Henry Giroux McMaster University Michel Foucault is arguably one of the most important thinkers of the twentieth century and his works are some of the most difficult to grasp Mark Olssen offers an accessible overview of Foucault s thought putting into context the relevance of Foucault s ideas Olssen adds important new insights to Foucault scholarship by bringing to light the influences of other thinkers such as Marx Nietzsche Gramsci Habermas and others on Foucault s development as a thinker and their influence on the deep historical materialist strand that grounds and uniquely characterizes so much of Foucault s thought

Psychoanalysis, Historiography, and Feminist Theory Katherine Kearns,1997-10-16 In this book Katherine Kearns explores the relationship of history to narrative She combines psychoanalysis with recent feminist theory to reveal the hidden assumptions behind the construction of any historical narrative Her alternative approach one she labels psychohistoriography rejects the notion that certain historical categories are inalienably given By introducing insights derived from psychoanalysis and critical theory Kearns expands our conception of what can legitimately count as historical evidence

From Fidelity to History Anne-Marie Scholz,2013-04-01 Scholarly approaches to the relationship between literature and film ranging from the traditional focus upon fidelity to more recent issues of intertextuality all contain a

significant blind spot a lack of theoretical and methodological attention to adaptation as an historical and transnational phenomenon This book argues for a historically informed approach to American popular culture that reconfigures the classically defined adaptation phenomenon as a form of transnational reception Focusing on several case studies including the films *Sense and Sensibility* 1995 and *The Portrait of a Lady* 1997 and the classics *The Third Man* 1949 and *The Bridge on the River Kwai* 1957 the author demonstrates the ways adapted literary works function as social and cultural events in history and how these become important sites of cultural negotiation and struggle *Post-Marxist Theory* Philip Goldstein, 2012-02-01 Poststructuralist Marxism or post Marxism is a theoretical viewpoint that elaborates and revises the work of Louis Althusser and Michel Foucault Unlike traditional Marxism which emphasizes the priority of class struggle and the common humanity of oppressed groups post Marxism reveals the sexual racial class and ethnic divisions of modern Western society This book surveys the different versions of post Marxist theory the economic theory of Stephen Resnick and Richard Wolff the historical methodology of Michel Foucault the political theory of Ernesto Laclau and Chantal Mouffe the feminism of Judith Butler the materialist philosophy of Pierre Macherey and the cultural studies of Tony Bennett and John Frow Providing a coherent framework for these otherwise quite divergent theorists Philip Goldstein outlines the history of Marxist philosophical or theoretical views and explains how they all count as post Marxist **The International Political Economy of Risk** Robert Deuchars, 2017-11-28 The discipline of international political economy faces a number of critical challenges at present as it seeks to incorporate a number of relatively new issues one of these being risk This captivating and enlightening study redresses the neglect of risk in this field by focusing on objectivist rationalism Highlighting some of the calculative practices rationalism makes possible it demonstrates the deeply political nature of supposedly value neutral technical pursuits such as accounting auditing the practice of statistics sampling and credit rating All these practices are implicated in modernist forms of power and governance The volume draws on work from various disciplines including sociology anthropology political economy and philosophy to explain the apparent unravelling of the rationalist quest for more reliable forms of knowledge It is highly suitable for courses on international relations international political economy A Multi-Paradigmatic Approach to Understanding History Kavous Ardalan, 2022-12-08 This book explores the field of history through a multi paradigmatic approach For this purpose it begins with a discussion of four most diverse worldviews or paradigms namely functionalist interpretive radical humanist and radical structuralist before moving on to consider four aspects of the field of history historiography grand narrative progress and time from the viewpoints of the four most diverse worldviews or paradigms Next the book looks at three historical events the French Revolution the American Civil War and the Iranian Revolution from the viewpoints of the four most diverse worldviews or paradigms It concludes by recommending paradigm diversity as an understanding of different paradigms leads to a more comprehensive and a more balanced understanding of the multi faceted nature of the subject matter *Contemporary Issues in Heterodox Economics* Arturo

Hermann, Simon Mouatt, 2020-10-07 Heterodox economics can provide a more complete and robust explanation of economic realities than orthodox or mainstream economics Contemporary Issues in Heterodox Economics Implications for Theory and Policy Action argues that this greater explanatory power gives heterodox economics the ability to illuminate appropriate policy for the major crises of our time as well as proffer the basis for a more rounded pluralist approach to economic theory The chapters in this wide ranging volume address some of the key issues facing the global economy including the growing disparity of income wealth between persons and economic areas environmental degradation issues associated with employment and the regularity of economic financial crises The authors examine potential policy responses such as modern monetary theory models of public ownership and the need to move beyond standard concepts of growth They also explore the deficiencies of orthodox economics and contend that a more pluralist approach to economics is required in the public sphere in academia and in the classroom in order to help face the challenges of the twenty first century This book is invaluable reading for students and scholars across the social sciences who are interested in alternatives to mainstream economic thinking

Haunting History Ethan Kleinberg, 2017-08-22 This book argues for a deconstructive approach to the practice and writing of history at a moment when available forms for writing and publishing history are undergoing radical transformation To do so it explores the legacy and impact of deconstruction on American historical work the current fetishization of lived experience materialism and the real new trends in philosophy of history and the persistence of ontological realism as the dominant mode of thought for conventional historians Arguing that this ontological realist mode of thinking is reinforced by current analog publishing practices Ethan Kleinberg advocates for a hauntological approach to history that follows the work of Jacques Derrida and embraces a past that is at once present and absent available and restricted rather than a fixed and static snapshot of a moment in time This polysemic understanding of the past as multiple and conflicting he maintains is what makes the deconstructive approach to the past particularly well suited to new digital forms of historical writing and presentation

Biopolitical Disaster Jennifer Lawrence, Sarah Marie Wiebe, 2017-07-14 Biopolitical Disaster employs a grounded analysis of the production and lived experience of biopolitical life in order to illustrate how disaster production and response are intimately interconnected The book is organized into four parts each revealing how socio environmental consequences of instrumentalist environmentalities produce disastrous settings and political experiences that are evident in our contemporary world Beginning with Commodifying crisis the volume focuses on the inherent production of disaster that is bound to the crisis tendency of capitalism The second part Governmentalities of disaster addresses material and discursive questions of governance the role of the state as well as questions of democracy This part explores the linkage between problematic environmental rationalities and policies Third the volume considers how and where the de valuation of life itself takes shape within the theme of Affected bodies and investigates the corporeal impacts of disastrous biopolitics The final part Environmental aesthetics and resistance fuses concepts from affect theory

feminist studies post positivism and contemporary political theory to identify sites and practices of political resistance to biopower Biopolitical Disaster will be of great interest to postgraduates researchers and academic scholars working in Political ecology Geopolitics Feminist critique Intersectionality Environmental politics Science and technology studies Disaster studies Political theory Indigenous studies Aesthetics and Resistance **Mapping the Present** Stuart Elden, 2002-01-01 In a late interview Foucault suggested that Heidegger was for him the essential philosopher Taking this claim seriously Mapping the Present assesses the relationship between these two thinkers particularly on the issue of space and history It suggests that space and history need to be rethought and combined as a spatial history rather than as a history of space In other words space should become not merely an object of analysis but a tool of analysis The first half of the book concentrates on Heidegger from the early occlusion of space through the politically charged readings of Nietzsche and Holderlin to the later work on art technology and the polis which accord equal status to issues of spatiality Foucault's work is then rethought in the light of the analysis of Heidegger and the project of a spatial history established through re readings of his works on madness and discipline **Gender, Theory, and the Canon** James A. Winders, 1991 Winders picks up the gauntlet thrown down by right wing educators demanding a return to teaching the Great Works of literature and shows how recent feminist and deconstructionist critical theories can deal with texts that are fundamentally patriarchal and elitist He also points out where the new weapons need honing before they can bite into such tough venerable material A paper edition unseen is reported available for 12 95 Annotation copyrighted by Book News Inc Portland OR
