Foundational Theology:

Foundational Theology Francis Schüssler Fiorenza, 1984 **Foundational Theology** Neil Ormerod, Christiaan Jacobs-Vandegeer, 2015-12-01 Fundamental theology is traditionally viewed as the starting point for the various disciplines within Catholic theology it is the place where solid foundations are established for the further research and engagement with the vast terrain of historical systematic philosophical and sacramental liturgical theology In *Foundational Theology* a landmark new study Neil Ormerod and Christiaan Jacobs Vandegeer seek to ground foundational theology in the normative drive toward meaning truth goodness and beauty appropriated by the theologian through religious moral intellectual and psychic conversions In doing so the work maps out the implications of those fundamental orientations to the specific questions and topics of the Catholic theological tradition God Trinity revelation and an array of doctrinal points of investigation The authors in this work provide a comprehensive approach to theological foundations for theologians while employing a new groundbreaking approach to the discipline through the application of the insights of Bernard Lonergan one of the foremost Catholic theologians of the modern era **A Taste of God** T. van den Hoogen, 2011 In the course of the 20th century a new worldview has arisen in Western society and culture that is defined in this book as immanent mysticism Several major philosophers are sensitive to such a sense of immanent mysticism The same sensitivity is noticeable in the works of poets painters and other artists It expresses the desire for transforming the way to meaningful living *A Taste of God* shows that theological research programs are innovated by insights from aesthetics and studies of spirituality The book's research indicates that contemporary Western culture requires a reframing of foundational theology Series Nijmegen Studies in Theology Vol 3 *Fundamental Theology* Gerald O'Collins, 2001-06-26 This book is an updated investigation of the central themes of fundamental theology revelation hermeneutics faith and its formulations and the role of authoritative teaching in the Church In a clear and balanced manner Gerald O Collins sums up the best of Roman Catholic teaching since Vatican II Students and others who are reflecting on the nature of their Christian belief will find this book invaluable The unique quality of this work however is its foundation in human experience Before he probes the theological issues O Collins lays down a groundwork for understanding experience It is not an attempt to turn fundamental theology into a subjective science but it is a recognition that the reality of God always intersects with self conscious human beings While it does not touch all of the themes of fundamental theology the book does provide in depth treatment of revelation tradition and inspiration

Fundamental Theology Guy Mansini, 2018-01-12 Fundamental Theology is fundamental because it is about how we see the mysteries of God his Christ the Church and the sacraments of the Church It is about how these things show themselves how God shows them to the eyes of faith If Christ and the Church are things shown fundamental theology is about the very showing itself Talking about the showing poses the risk however of losing sight of the things shown and drifting off into abstractions By continually referring back to the things shown this book will answer many of the questions that arise when we ask about the nature and necessity of Scripture and Tradition Magisterium and Dogma Faith and its praeambula In this second volume of the Sacra Doctrina series Fr Guy Mansini takes the reader on a tour through the essence and meaning of Catholic fundamental theology This title will serve as an excellent textbook for upper level undergraduate graduate and seminary students Book jacket

Reconstructing Theology Terence Bateman, 2014 Francis Schussler Fiorenza is one of the pivotal contemporary Roman Catholics working in the field of systematic theology and has made vital contributions to the discipline This book the first of its kind provides an overview of Fiorenza s theological biography from early influences and original insights to a comprehensively systematic project to reconstruct the foundations of theology and explicates the major contours of Fiorenza s vital contributions to theological method foundational systematic and constructive theology and the practical function of religion in society and politics As the author argues Fiorenza s vision is one of unrivaled clarity and coherence even more it follows a path of the shifting patterns in theology over the past half century thus shedding light upon the internal constitution of recent Catholic and Protestant theology

Reconfigurations Stefanie Knauss, Alexander D. Ornella, 2007 From Once Upon a Time in the West to Moulin Rouge from Ghanaian video movies to Japanese Manga from Christian symbolism in advertising to the mythic significance of female messiah figures from the relationship of the arts and theology to the role of the audience in the meaningmaking process this book provides a feast for anyone wanting to explore the interconnectivity of religion media and society

The Analemma Waltz Paul Vincent, 2020-11-18 When author Paul Vincent moved into his new home in Bristol Rhode Island he was struck by how generously its interior gathered sunlight and decided to keep a record of the annual solar itinerary across its walls floors and furniture The result is *The Analemma Waltz* a celebration of the sun s slow motion dance through his house facilitated in part by its surfeit of windows but much more so by the analemma the narrow figure eight pattern the sun describes in the sky in the course of a year in the Earth s orbital journey Vincent s habit of noting and minuting the changing positions of sunlight day by day and week by week was the catalyst for meditations on matters of universal concern as suggested by the times and the seasons of the year and approached not from the perspective of a scholar or academic but from that of an interested layperson Such matters addressed in the monthly chapters include the study of history the virtue of tolerance the conflict between science and religion and the morality of war Despite the varied nature of the essay topics in *The Analemma Waltz* certain themes appear and reappear throughout the book namely the author s convictions that existential particularity is the occasion of both joy

and sadness that the world's people though the beneficiaries of seemingly endless breakthroughs in technology are and will remain metaphysically vulnerable and that appreciation prompting gratitude is the highest vocation of the human person

The Formation of Christian Doctrine Malcolm B. Yarnell, 2007-11-01 The Formation of Christian Doctrine is an advanced academic study of how Christian doctrine develops distinguishing in particular between scholarly term inventio and less revelatory process of invention

Christianity Dumke, Russell, 2024 Dive into the depths of Christianity with Russell Dumke's enlightening guide Perfect for believers seekers and anyone looking to enrich their understanding of one of the world's great religions this book offers a comprehensive exploration of Christianity's fundamental aspects From the very first page Dumke addresses the common knowledge gaps that many Christians experience He identifies the Grandma Syndrome where religious beliefs are inherited but not deeply understood and offers a solution a structured approach to learning that fosters mature informed faith The book is divided into four crucial areas every Christian should know biblical scholarship Christian history worship and spirituality Dumke's accessible yet thoughtful insights make complex historical events and theological concepts clear and relevant Whether you're reaffirming your faith or seeking to expand your knowledge this book is a valuable resource that promises to enrich your understanding

Metaphysics of Mystery Marijn de Jong, 2020-02-06 How can we theologically reflect on universality in a world that increasingly focuses on particularities and differences Marijn de Jong argues that the question of universality calls for a reconceptualized form of metaphysical theology which he finds in the work of Karl Rahner and Edward Schillebeeckx Casting a new light on these theologians de Jong demonstrates that their methods contain a dialectical interrelation of hermeneutics and metaphysics an interrelation which seemingly has been lost in more recent hermeneutical theology Rahner and Schillebeeckx carefully balance particularity and universality without falling prey to relativist or absolutist ways of reasoning By analyzing fundamental themes such as experience and interpretation nature and grace faith and reason and intelligibility and mystery de Jong reveals the modest theological metaphysics that lies at the heart of their methods This critical retrieval demonstrates the enduring relevance of these thinkers and opens up new avenues of thought for theologians that do not want to shy away from the difficult question of the universality of God

Fundamental Theology Fernando Ocariz, Arturo Blanco, Midwest Theological Forum, 2020-06-26

A Handbook of Fundamental Theology Johannes Brunsmann, 1928

Toward an Ecumenical Fundamental Theology Randy L. Maddox, 1984

The Resurrection Stephen T. Davis, Daniel Kendall, Gerald O'Collins, 1997-05-29 Eminent scholars from a wide range of theological disciplines debate the central truth of Christianity

the Resurrection of Jesus from the dead The many schools of thought include moral theology philosophy biblical studies and fundamental theology **Nathan Scott's Literary Criticism and Fundamental Theology** William D. Buhrman, 2006
Nathan Scott's Literary Criticism and Fundamental Theology reexamines the pioneering contribution of Nathan A Scott Jr to the field of theology and literature It both recalls Scott's achievement and suggests its continuing value by focusing on the question of Scott's method Rather than following the traditional interpretation of Scott as a literary critic employing Paul Tillich's theology of culture this book proposes that Scott's work is best understood as a form of fundamental theology In doing so it suggests that Scott's work models ways in which literary texts may be appropriately incorporated into theological discourse Publisher's website
