questions giving English speakers a starting point in their study of Spanish cinema After a brief overview of Spanish film before Franco the author proceeds to a discussion of censorship as practiced by the Franco regime The response of directors to censorship the franquista aesthetic or aesthetic of repression with its highly metaphorical oblique style is explored in the works of Luis Buñuel Carlos Saura Juan Antonio Bardem Luis García Berlanga and other important directors Virginia Higginbotham combines historical perspective with detailed critical analysis and interpretation of many famous Franco era films She shows how directors managed to evade the censors and raise public awareness of issues relating to the Spanish Civil War and the repressions of the Franco regime Film has always performed an educational function in Spain reaching masses of poor and uneducated citizens And sometimes as this study also reveals Spanish film has been ignored when the questions it raised became too painful or demanding The author concludes with a look at post Franco cinema and the directions it has taken For anyone interested in modern Spanish film this book will be essential reading **Rough Guide**
