**The Baroque World of Fernando Botero** John Sillevs, Fernando Botero, David Elliott, Edward J. Sullivan, 2006-01-01  
Colombian born Fernando Botero b 1932 is a painter sculptor and draftsman renowned for his extravagantly rounded figures combining the polish and excess of Spanish colonial baroque with the social realism of the Mexican muralists Their humorous exaggeration belies the more serious content of Botero s work commentary on colonialism political instability in Latin America and the vernacular artistic traditions of the region as well as European art history Accompanying the artist s first American retrospective in over thirty years The Baroque World of Fernando Botero is the most extensive study of his life and work to date Drawn exclusively from Botero s private collection the 100 works featured in this book including previously unpublished paintings and drawings represent the full scope of his oeuvre from a uniquely personal perspective Many of these portraits of friends and family members and remembered scenes have remained in the artist s possession since their creation while others he has bought back over the years as markers of significant developments in his career Three essays examine the artist s creative life from the aesthetic environment in which Botero developed his unique style to his catalyzing influence on the Colombian art world of the 1960s and 70s Fernando Botero Fernando Botero, 1997 This illustrated work includes six short stories by the painter as well as a conversation with him *The Art of Fernando Botero* Juan Carlos Botero, 2013 This title pays tribute to the career of Fernando Botero painter draughtsman and sculptor who has developed his own instantly recognisable style and who celebrates a remarkably vivid vital reality through the exaltation of volume and colour Fernando Botero Fernando Botero, Germán Arciniegas, 1977 Botero: the Search for a Style (1948-1963) Christian Padilla, 2020-04-21 The story of how Fernando Botero developed his iconic Boterismo style Colombian painter and sculptor Fernando Botero born 1932 is one of the best known and most celebrated living Latin American artists His distinctive visual style of softly rounded inflated shapes so idiosyncratic that it is described as Boterismo is instantly recognizable all around the world But in spite of the visual familiarity of Botero s work or perhaps in part because of it Botero is in some ways a largely unknown artist How did he transition from the naturalistic illustrations of his teenage years to his mature Boterismo style Botero The Search for a Style tells the story of the artist s search for his own unique visual identity in the first 15 years of his career Assimilating the influences of pre Columbian and Spanish colonial art the work of Diego Rivera and the Mexican muralists and the Old Masters at the Prado Museum and the Louvre Botero gradually developed his distinctive understanding of form and volume Botero The Search for a Style excavates the hidden histories within Fernando Botero s inimitable style **Fernando Botero** Fernando Botero, Marlborough Gallery, 1993 September 14 November 6 1993
