## **Fertility Rights:**

*Fertility Rights* Fay Nedra Zachary, Fay N. Zachary, 1987-02      Women's Reproductive Rights in Developing Countries Vijayan K Pillai, Guang-Shen Wang, 2018-11-06 First published in 1999 this volume represents an empirical model of reproductive rights in developing countries The model encompasses three explanations of reproductive rights The first proposes that reproductive rights levels are negatively related to population growth The second explanation argues that gender equality has a positive effect on reproductive rights Finally the authors propose that women's education has a positive effect on reproductive rights The empirical model takes into account the effects of modernization secularization and family planning program effort on population growth women's education and gender equality      **Oncofertility** Teresa K. Woodruff, Laurie Zoloth, Lisa Campo-Engelstein, Sarah Rodriguez, 2010-09-02 Oncofertility has emerged as a way to address potential lost or impaired fertility in cancer patients and survivors with active biomedical research that is developing new ways to help these individuals preserve their ability to have biological children In order to move beyond oncofertility as a science and medical technology and begin to address the ethical legal and social ramifications of this emerging field we must give voice to scholars from the humanities and social sciences to engage in a multidisciplinary discussion This book brings together a pool of experts from a variety of fields including communication economics ethics history law religion and sociology to examine the complex issues raised by recent developments in oncofertility and to offer advice from national and international perspectives as we create new technology Given the inherent interdisciplinary nature of oncofertility this book is not only valuable but also necessary to cultivate a deep understanding of new issues with the eventual aim of offering proposals for addressing them Indeed this book will be useful for people not only within the humanities and social sciences disciplines but also for those who are confronted with cancer and the possibility of impaired fertility and the medical practitioners within oncology and reproductive medicine who are at the front lines of this emerging field      **Fertility Counseling** Sharon N. Covington, 2015-04-02 Using real world cases this clinical guide details the psychosocial challenges faced by patients navigating the world of medically assisted reproduction MAR It describes in depth the latest perspectives on counseling approaches to the evolving complexities of family creation whether fertility issues are a presenting problem or occur during the course of therapy or the aftermath of a struggle with infertility Applying an evidence based cross border approach international experts not only discuss advanced perspectives on topics such as third party reproduction pregnancy loss and adoption but also newer issues of fertility preservation older patient parenthood LGBT and singles family creation A comprehensive resource it explores pioneering insights into fertility counseling such as spirituality developing disclosure language a counselor's personal fertility issues and more This is an essential aid for medical and mental health professionals to develop and refine the skills needed to treat the increasingly diverse and complex needs of MAR patients      *Reproductive Rights as Human Rights* Zakiya Luna, 2020-09-01 Reveals both the promise and the pitfalls associated with a human rights

approach to the women of color focused reproductive rights activism of SisterSong How did reproductive justice defined as the right to have children to not have children and to parent become recognized as a human rights issue In *Reproductive Rights as Human Rights* Zakiya Luna highlights the often forgotten activism of women of color who are largely responsible for creating what we now know as the modern day reproductive justice movement Focusing on SisterSong an intersectional reproductive justice organization Luna shows how and why women of color mobilized around reproductive rights in the domestic arena She examines their key role in re framing reproductive rights as human rights raising this set of issues as a priority in the United States a country hostile to the concept of human rights at home An indispensable read *Reproductive Rights as Human Rights* provides a much needed intersectional perspective on the modern day reproductive justice movement

**Women's Global Health and Human Rights** Padmini Murthy, Clyde Smith, 2010-10-25 *Women's Global Health and Human Rights* serves as an overview of the challenges faced by women in different regions of the world Ideal as a tool for both professionals and students this book discusses the similarities and differences in health and human rights challenges that are faced by women globally Best practices and success stories are also included in this timely and important text Major Topics include X Globalization X Gender Based Terrorism and Violence X Cultural Practices X Health Problems X Progress and Challenges

**Oncofertility Communication** Teresa K Woodruff, Marla L Clayman, Kate E Waimey, 2013-10-08 *Oncofertility* integrates the two previously distinct fields of cancer treatment and fertility research and aims to explore and expand the reproductive future of cancer survivors In order to achieve the goal of fertility preservation the Oncofertility community must focus on communication and the way data is provided and received Concomitant with the rapidly changing technology of Oncofertility there have been radical shifts and advances in the way health educators and clinicians can produce and share information As success rates of reproductive techniques such as egg freezing and banking continue to rise providing increasing opportunities for young cancer patients to preserve their fertility prior to the onset of cancer treatments communication among professionals in oncology reproductive medicine and psychosocial work among others becomes crucial and clinical demand for Oncofertility information is expected to rise considerably *Oncofertility Communication* describes and addresses the myriad channels through which the multiple audiences involved in Oncofertility can be served with appropriate and accurate information about cancer related fertility issues The text answers frequently asked questions and provides invaluable insights to scientific and health care professionals about communication among the diverse Oncofertility audiences It incorporates timely discussions about traditional and emerging electronic communication tools and discusses the impact of health care policy changes on the Oncofertility field

**Reproduction, Childbearing and Motherhood** Pranee Liamputtong, 2007 Although reproduction including infertility abortion childbearing and motherhood is a significant human experience its social meaning is shaped by the culture in which birthing women live Reproduction and its management therefore occur within the social and cultural context of the event As such reproductive beliefs and practices

differ across social and cultural settings This book focuses on reproduction childbearing and motherhood In this volume the authors show that despite the modernisation of the society and advanced medical technology and knowledge in reproduction traditions continue to exert influence on how the women and their families manage their reproduction childbearing and motherhood in their societies      **Women of Color and the Reproductive Rights Movement** Jennifer Nelson,2003-10

Uncovers the truth behind the ideas struggles and eventually success of Black and Puerto Rican Nationalists regarding key feminist issues of the 1960s 1970s and 1980s While most people believe that the movement to secure voluntary reproductive control for women centered solely on abortion rights for many women abortion was not the only or even primary focus Jennifer Nelson tells the story of the feminist struggle for legal abortion and reproductive rights in the 1960s 1970s and early 1980s through the particular contributions of women of color She explores the relationship between second wave feminists who were concerned with a woman s right to choose Black and Puerto Rican Nationalists who were concerned that Black and Puerto Rican women have as many children as possible for the revolution and women of color themselves who negotiated between them Contrary to popular belief Nelson shows that women of color were able to successfully remake the mainstream women s liberation and abortion rights movements by appropriating select aspects of Black Nationalist politics including addressing sterilization abuse access to affordable childcare and healthcare and ways to raise children out of poverty for feminist discourse      Understanding Female Infertility: A Comprehensive Approach Dr. Spineanu Eugenia,2025-03-12

Explore the comprehensive treatise on Female Infertility delving into the intricate facets of reproductive health diagnosis and treatment From an in depth examination of the female reproductive system to cutting edge advancements in reproductive science and medicine this comprehensive guide offers invaluable insights into the complexities of infertility Discover the latest research areas potential therapeutic targets and emerging technologies shaping the field of reproductive medicine With expertly crafted chapters covering epidemiology psychological implications and innovative treatment modalities this treatise provides a holistic perspective on female infertility Whether you re a healthcare professional researcher or individual navigating fertility challenges this authoritative resource serves as a valuable reference for understanding managing and overcoming female infertility      **Faith and Fertility** Ruth Landau,Eric Blyth,2009-07-15 Faith and Fertility is a

comprehensive collection of essays by academics and faith leaders The reader is introduced to the cultural and religious understanding of fertility as it is practised among diverse international faith traditions Each chapter is written in an accessible style outlining each faith s history core beliefs and values      *Historical and Multicultural Encyclopedia of Women's Reproductive Rights in the United States* Judith A. Baer,2002-04-30 eproductive rights refers to a range of claims concerning whether when and how to have children Beneath this clear statement lays the most contentious political legal and cultural issue in America today Involving the self the family and the State women s reproductive rights generates much impassioned argument but painfully little agreement Topics and authors take on diverse and often clashing positions

highlighting this issue's complex and highly charged nature. Arranged alphabetically by topic, articles representing racial and ethnic groups' experiences figure prominently, as do the effects of age, class, education, health, religion, and sexual preference on childbearing and rearing practices in and out of wedlock. It also includes articles on laws, court cases, political attitudes, prominent activists, and technological advances as they relate to reproductive rights. Entries are written by highly regarded scholars, are cross-referenced, and conclude with suggested further readings. Designed to introduce and inform the reader to this extremely difficult topic, Baer's ecumenical approach exposes us to a variety of opinions, from support for current abortion policies to the building movement for fetal rights. Only reasoned opinions supported by hard evidence are included, and no attempt was made to mute the often incommensurable opinions expressed within. This book will be a valuable resource for students, scholars, and any person interested in learning about the multiplicity of perspectives on this important issue that is at the heart of our current culture wars.

### **Global Perspectives on Reproductive Rights and Policies**

Pucelj, Maja, Matusiak-Fr?cczak, Magdalena, 2024-11-29. Reproductive rights and policies seek to balance different human rights, ethics, and morals, as well as technology. At the same time, they concern probably the most intimate sphere of human life. Issues related to reproductive rights are the subject of intensive public debate in which not only politicians but also many nongovernmental organizations, NGOs, and even religious groups take part. All of these actors present essential arguments which should be taken into account when discussing reproductive rights. *Global Perspectives on Reproductive Rights and Policies* comprehensively examines reproductive rights as an essential component of human rights. It offers an in-depth analysis of legal frameworks as well as the ethical implications and societal consequences associated with these rights. Covering topics such as abortion policies, legal frameworks, and women's rights, this book is an excellent resource for researchers, academicians, legal professionals, healthcare professionals, ethicists, policymakers, international organizations, and NGOs.

*Transnational Visual Activism for Women's Reproductive Rights* Basia Sliwinska, 2024-09-30. Focusing on art practices that advocate, raise consciousness, and educate about the human right to reproductive health, this book analyses and compares forms of feminist activism to interrogate bodily rights while closely examining the lived experiences of women and their right of free choice. The transnational framing engages with resurgent imperialist and colonial ambitions across global politics and with the attempts at disrupting these positionings by prioritising feminist care as instrumental for democracy and social justice. Key foci of this book include the ways in which arts activism operates and its strategies and methods related to, for example, the types of artistic practice employed, approaches to dissemination and reach, and engaging the public. The analysis of these topics interrogates the potential of arts activism to work while other forms of activism may stumble, leading to social change in thinking, practice, and finally legislation. Countries covered include Finland, Poland, Portugal, Latvia, the United Kingdom, Chile, Brazil, the United States, and Australia. The book will be of interest to students and scholars studying art history, art theory, and practice, gender studies, and women's studies. Chapters 2 and 3 of this book are freely available as a

downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Chapter 4 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC BY 4.0 license

**Women and Asian Religions** Zayn R. Kassam, 2017-06-22 Covering eclectic topics ranging from South Asian religion to motherhood to world dance to ethnomusicology this book focuses on contemporary selected experiences of women and how their lives interface with religion Religion has often been perceived as the source of constriction for women's roles in society This volume explores how modern women across Asia are mobilizing their faith traditions to address existential issues encountered in both the public and private realms relating to economics public participation politics and culture As such it is revealed that religion can be a powerful force for social change and ameliorating women's lives despite use of religious doctrine in the past to limit women Editor Zayn R Kassam PhD and the contributors cover not only the commonly considered Asian traditions of Hinduism Islam and Buddhism but also Christianity Judaism Bahai and indigenous traditions The book reveals that the challenges and opportunities Asian women face arise both from within and outside whether in terms of developments within their countries or in relation to international political and economic regimes The chapters explore how the issues Asian women face have as much to do with cultural and religious codes as they do with politics economics education and the law consider the varying ways in which family and motherhood are affected by the state's construction of the gendered citizen by social constructs of motherhood and by policies regarding women and children's access to health care and identify the roles played by religion and spirituality in these circumstances

**World Population Policies** John F. May, 2012-03-28 This book examines the history behind the formulation implementation and evaluation of population policies in the more developed the less developed and the least developed countries from 1950 until today as well as their future prospects It links population policies with the theories of the demographic epidemiological and migratory transitions It begins by summarizing the demographic situation around the world with an emphasis on population policies and their underlying theories Then it reviews the early efforts to reduce mortality and fertility in the developing countries This is followed by a description of the internationalization of the debate on population issues and the transformation of these programs into more formal population policies particularly in the developing countries The book reviews also the situation of the developed countries and their specific challenges sub replacement fertility population aging and immigration and examines the effectiveness of population policies It also explores the way forward and future prospects for population policies over the next decades The book provides numerous concrete examples from all over the world and show how population policies are actually implemented and what have been their successes as well as their constraints Above all the book highlights the importance of understanding underlying demographic trends when assessing the development prospects of any country The book is recommended for not only demographers social scientists and policymakers but also economists and political scientists who

are interested in social and demographic change around the world Demography students and researchers who are interested in applying knowledge on population trends and prospects in designing and evaluating public policies will find this an invaluable reference work

**Law, Policy and Reproductive Autonomy** Erin Nelson, 2014-07-18 Reproductive choices are at once the most private and intimate decisions we make in our lives and undeniably also among the most public Reproductive decision making takes place in a web of overlapping concerns political and ideological socio economic health and health care all of which engage the public and involve strongly held opinions and attitudes about appropriate conduct on the part of individuals and the state Law Policy and Reproductive Autonomy examines the idea of reproductive autonomy noting that in attempting to look closely at the contours of the concept we begin to see some uncertainty about its meaning and legal implications about how to understand reproductive autonomy and how to value it Both mainstream and feminist literature about autonomy contribute valuable insights into the meaning and implications of reproductive autonomy The developing feminist literature on relational autonomy provides a useful starting point for a contextualised conception of reproductive autonomy that creates the opportunity for meaningful exercise of reproductive choice With a contextualised approach to reproductive autonomy as a backdrop the book traces aspects of the regulation of reproduction in Canadian English US and Australian law and policy arguing that not all reproductive decisions necessarily demand the same level of deference in law and policy and making recommendations for reform

**Proceedings of the 2023 7th International Seminar on Education, Management and Social Sciences (ISEMSS 2023)** Shakila Yacob, Berat Cicek, Joanna Rak, Ghaffar Ali, 2023-10-30 This is an open access book ISEMSS 2023 was held on July 14 16 2023 in Kunming China And provide a platform for scholars in related fields to exchange ideas and Develop and advance social development through the study and application of certain social issues Open up new perspectives and broaden the horizons of looking at issues in the discussions of the participants Create a forum for sharing research and exchange on an international level allowing participants to learn about the latest research directions results and content in different fields thus stimulating them to new research ideas Papers on Education Management and Social Sciences will be accepted and published in the form of conference proceedings for those who cannot attend the conference

Women's Health in the Majority World Laurie Elit, 2007 This is an innovative text using didactic information and case studies to address those issues that affect most of the world's women The first half of the book focuses on health issues that specifically affect women such as maternal mortality fistulas and cervical cancer The second part of the book discusses how agencies such as governments non governmental organisations and professional societies can partner and improve standards for women By affecting the status of women the whole family and community ultimately benefit

Women and International Human Rights Law Kelly Dawn Askin, Doreen Koenig, 2023-04-17 For in depth coverage of gender issues in human rights law from theory and cultural practices to legal instruments and the case law of international tribunals this major three volume work is without peer More than 100 leading

authorities in the field offer trenchant analyses of problems and solutions crimes and abuses available recourses areas of empowerment the entire spectrum of women s rights discussed at a level of detail and legal awareness unavailable in any other single source Published under the Transnational Publishers imprint The print edition is available as a set of three volumes 9781571050946
