The International Order of Asia in the 1930s and 1950s Nicholas J. White, 2016-03-03 This book reconsiders the nature and formation of Asia's economic order during the 1930s and 1950s in light of the new historiographical developments in Britain and Japan Recently several Japanese economic historians have offered a new perspective on Asian history arguing that economic growth was fuelled by the phenomenon of intra Asian trade which began to grow rapidly around the turn of the 19th 20th centuries On the other side British imperial historians P J Cain and A G Hopkins have presented their own interpretation of gentlemanly capitalism in which they emphasize the leading role of the service sector rather than that of British industry in assessing the nature of the British presence overseas In order to assess and test these new perspectives this volume addresses three key issues The first is to reconsider the metropolitan peripheral relationship in Asia focusing particularly on the role of the sterling area and its implications for Asian economic development The second is to examine the formation of inter regional trade relations within Asia in the 1930s and their revival and transformation in the 1950s The final issue is the comparison of the international order of Asia of the 1930s with the 1950s and the degree to which the Second World War represented a break point in Asia's economic development Dealing with issues of trade economy nationalism and imperialism this book provides fresh insights into the development of Asia during the mid twentieth century Drawing on the latest scholarship it will prove invaluable to all who wish to better understand the position of countries such as Japan China India Singapore Malaysia and Korea within the wider international order

Asia after Europe Sugata Bose, 2024-02-20 Across the twentieth century Asians imagined universalist ideals centered on the idea of Asia itself rivaling European colonial thought liberalism and race based nationalisms Sugata Bose explores the history of Asian universalisms and reflects on their potential amid ongoing nationalist rivalries tied to religious majoritarianism and violence

Arc of Containment Wen-Qing Ngoei, 2019-05-15 Arc of Containment recasts the history of American empire in Southeast and East Asia from World War II through the end of American intervention in Vietnam Setting aside the classic story of anxiety about falling dominoes Wen Qing Ngoei articulates a new regional history premised on strong security and sure containment guaranteed by Anglo American cooperation Ngoei argues that anticommunist nationalism in Southeast Asia intersected with preexisting local antipathy toward China and the Chinese diaspora to usher the region from European dominated colonialism to US hegemony Central to this revisionary strategic assessment is the place of British power and the effects of direct neocolonial military might and less overt cultural influences based on decades of colonial rule as well as the considerable influence of Southeast Asian actors upon Anglo American imperial strategy throughout the post war period Arc of Containment demonstrates that American failure in Vietnam had less long term consequences than widely believed because British pro West nationalism had been firmly entrenched twenty plus years earlier In effect Ngoei argues the Cold War in Southeast Asia was but one violent chapter in the continuous history of western imperialism in the region in the twentieth century

Remembering Asia's World War Two Mark R. Frost, Daniel Schumacher, Edward Vickers, 2019-03-27 Over the past four decades East and

Southeast Asia have seen a proliferation of heritage sites and remembrance practices which commemorate the region's bloody conflicts of the period 1931-45. *Remembering Asia's World War Two* examines the origins, dynamics and repercussions of this regional war memory boom. The book analyzes the politics of war commemoration in contemporary East and Southeast Asia. Featuring contributions from leading international scholars, the chapters span China, Japan, Malaysia, Hong Kong and Singapore, covering topics such as the commemoration of the Japanese military's comfort women system, forms of dark tourism or commemorative pilgrimages (e.g. veterans' tours to wartime battlefields) and the establishment and evolution of various war-related heritage sites and museums. Case studies reveal the distinctive trajectories of new and newly discovered forms of remembrance within and across national boundaries. They highlight the growing influence of non-state actors over representations of conflict and occupation, as well as the increasingly interconnected and transnational character of memory making. Taken together, the studies collected here demonstrate that across much of Asia, the public commemoration of the wars of 1931-45 has begun to shift from portraying them as a series of national conflicts with distinctive local meanings to commemorating the conflict as a common pan-Asian or even global experience. Focusing on non-textual vehicles for public commemoration and considering both the local and international dimensions of war commemoration within *Remembering Asia's World War Two* will be a crucial reference for students and scholars of History, Memory Studies and Heritage Studies, as well as all those interested in the history, politics and culture of contemporary Asia.

[A Guide to British Military History](#)
Ian F. W. Beckett, 2016-06-30. What exactly is military history? Forty years ago it meant battles, campaigns, great commanders, drums and trumpets. It was largely the preserve of military professionals and was used to support national history and nationalism. Now, though, the study of war has been transformed by the war and society approach, by the examination of identity, memory and gender, and a less Euro-centric and more global perspective. Generally, it is recognised that war and conflict must be integrated into the wider narrative of historical development, and this is why Ian Beckett's research guide is such a useful tool for anyone working in this growing field. It introduces students to all the key debates, issues and resources. While European and global perspectives are not neglected, there is an emphasis on the British experience of war since 1500. This survey of British military history will be essential reading and reference for anyone who has a professional or amateur interest in the subject, and it will be a valuable introduction for newcomers to it.

[The Greater East Asia Co-Prosperity Sphere](#)
Jeremy A. Yellen, 2019-04-15. The Greater East Asia Co-Prosperity Sphere offers a lucid, dynamic and highly readable history of Japan's attempt to usher in a new order in Asia during World War II. *Cross Currents: East Asian History and Culture Review*. In *The Greater East Asia Co-Prosperity Sphere*, Jeremy A. Yellen exposes the history, politics and intrigue that characterized the era when Japan's total empire met the total war of World War II. He illuminates the ways in which the imperial center and its individual colonies understood the concept of the Sphere, offering two sometimes competing, sometimes complementary and always intertwined visions: one from Japan, the other from Burma and the Philippines. Yellen

argues that from 1940 to 1945 the Greater East Asia Co Prosperity Sphere epitomized two concurrent wars for Asia's future: the first was for a new type of empire in Asia and the second was a political war waged by nationalist elites in the colonial capitals of Rangoon and Manila. Exploring Japanese visions for international order in the face of an ever-changing geopolitical situation, *The Greater East Asia Co Prosperity Sphere* explores wartime Japan's desire to shape and control its imperial future while its colonies attempted to do the same. At Japan's zenith as an imperial power, the Sphere represented a plan for regional domination; by the end of the war, it had been recast as the epitome of cooperative internationalism. In the end, the Sphere could not survive wartime defeat, and Yellen's lucidly written account reveals much about the desires of Japan as an imperial and colonial power, as well as the ways in which the subdued colonies in Burma and the Philippines jockeyed for agency and a say in the future of the region.

Tragic Orphans Carl Vadivella Belle, 2016-05-13 In 1938, noting that the bulk of the Indian population formed a landless proletariat and despairing of the ability of the factionalized Indian community to unite in pursuit of common objectives, activist K. A. Neelakanda Ayer forecast that the fate of Indians in Malaya would be to become the "Tragic orphanage of whom India has forgotten and Malaya looks down upon with contempt." Ayer's words continue to resonate as a minority group in a nation dominated politically by colonially derived narratives of race and ethnicity and riven by the imperatives of religion, the general trajectory of the economically and politically impotent Indian community has been one of increasing irrelevance. This book explores the history of the modern Indian presence in Malaysia and traces the vital role played by the Indian community in the construction of contemporary Malaysia. In this comprehensive new study, Carl Vadivella Belle offers fresh insights on the Indian experience spanning the period from the colonial recruitment of Indian labour to the post-Merdeka political, economic, and social marginalization of Indians. While recent Indian challenges to the political status quo, a regime described as that of a benign neglect, promoted Indian hopes of reform, change, and uplift, the author concludes that the dictates of political discourse permeated by the ideologies of communalism offer limited prospects for meaningful change.

War, Conflict and Security in Japan and Asia Pacific, 1941-1952 Louis Allen, 2011-06-24 It was Louis Allen's work on Japan which dominated his prodigious output as a scholar, researcher, and writer, and which received greatest attention internationally. This collection of his writings focuses entirely on his principal fields of research: viz. Japan and the Pacific War, the post-war conflicts in Burma, Malaya, and Indochina, and the immediate post-war years in the context of Japan's security and reconciliation. Importantly, in addition to the 24 essays brought together here from both known and unknown sources, we are pleased to publish for the first time Louis Allen's own undated autobiographical paper entitled "Innocents Abroad: Investigating War Crimes in South East Asia," providing a unique first-hand account of his war-time life and activities. This volume also includes a complete bibliography of Louis Allen's writings covering all disciplines.

National Pasts in Europe and East Asia Peter W. Preston, 2012-07-26 With the rise of industrial capitalism in Europe and the related imposition of colonial rule in much of East Asia, both Europe and East Asia have intertwined histories that continue to shape

their political thinking and political decision making The contemporary interactions of the two regions now once again major trading partners will both depend upon and facilitate deeper understandings of their respective sets of national pasts This book compares national pasts as well as the current processes of change taking place in Europe and East Asia including the dynamics of the European Union in Europe and the re emergence of the historical centre of China in East Asia It argues that as the change unfolds in the economic social and political fields the various national pasts embedded with the politics of the two regions will also need to be revisited and reworked This book makes an invaluable contribution to research on comparative politics as well as studies on South East Asia and Europe **Parameters** ,2006 *Remembering the Second World War* Patrick Finney,2017-07-14 Remembering the Second World War brings together an international and interdisciplinary cast of leading scholars to explore the remembrance of this conflict on a global scale Conceptually it is premised on the need to challenge nation centric approaches in memory studies drawing strength from recent transcultural affective and multidirectional turns Divided into four thematic parts this book largely focuses on the post Cold War period which has seen a notable upsurge in commemorative activity relating to the Second World War and significant qualitative changes in its character The first part explores the enduring utility and the limitations of the national frame in France Germany and China The second explores transnational transactions in remembrance looking at memories of the British Empire at war contested memories in East Central Europe and the transnational campaign on behalf of Japan s former comfort women A third section considers local and sectional memories of the war and the fourth analyses innovative practices of memory including re enactment video gaming and Holocaust tourism Offering insightful contributions on intriguing topics and illuminating the current state of the art in this growing field this book will be essential reading for all students and scholars of the history and memory of the Second World War
