first is now published and is a brief study of veridical apparitions and hallucinations and haunted houses or if you will the phantasms of the living and the dead of those manifestations which have been oddly and not very appropriately described as psychometric of the knowledge of the future presentiments omens premonitions precognitions and the rest and lastly of the Elberfeld horses In the second which will be published later I shall treat of the miracles of Lourdes and other places the phenomena of so called materialization of the divining rod and of fluidic asepis not unmindful withal of a diamond dust of the miraculous that hangs over the greater marvels in that strange atmosphere into which we are about to pass 1 Published in English in an enlarged form under the title of Our Eternity London and New York 1913 Translator s Note 2 When I speak of the present position of the mystery I of course do not mean the mystery of life its end and its beginnings nor yet the great riddle of the universe which lies about us In this sense all is mystery and as I have said elsewhere is likely always to remain so nor is it probable that we shall ever touch any point of even the utmost borders of knowledge or certainty It is here a question of that which in the midst of this recognized and usual mystery the familiar mystery of which we are almost oblivious suddenly disturbs the regular course of our general ignorance In themselves these facts which strike us as supernatural are no more so than the others possibly they are rarer or to be more accurate less frequently or less easily observed In any case their deep seated cause while being probably neither more remote nor more difficult access seem to lie hidden in an unknown region less often visited by our science which after all is but a reassuring and conciliatory expression of our ignorance Today thanks to the labours of the Society for Psychical Research and a host of other seekers we are able to approach these phenomena as a whole with a certain confidence Leaving the realm of legend of after dinner stories old wives tales illusions and exaggerations we find ourselves at last on circumscribed but fairly safe ground This does not mean that there are no other supernatural phenomena besides those collected in the publications of the society in question and in a few of the more weighty reviews which have adopted the same methods Notwithstanding all their diligence which for over thirty years has been ransacking the obscure corners of our planet it is inevitable that a good many things escape their notice besides which the rigour of their investigations makes them reject three fourths of those which are brought before them But we may say that the twenty six volumes of the society is Proceedings and the fifteen or sixteen volumes of its Journal together with the twenty three annuals of the Annales des Sciences Psychiques to mention only this one periodical of signal excellence embrace for the moment the whole field of the extraordinary and offer some instances of all the abnormal manifestations of the inexplicable We are henceforth able to classify them to divide and subdivide them into general species and varieties This is not much you may say but it is thus that every science begins and furthermore that many a one ends We have therefore sufficient evidence facts that can scarcely be disputed to enable us to consult them profitably to recognize whither they lead to form some idea of their general character and perhaps to trace their sole source by gradually removing the weeds and rubbish which for so many hundreds and thousands of years have hidden it from our eyes      *The Swampers* Hume
