

only a misguided expectation of an imminent parousia. He writes as a forerunner of the apologists and his essential purpose is to 'make a defence to anyone who calls you to account for the hope that is in you'.

Luke is no less trustworthy than other historians of antiquity and should not be compared too closely with the later writers of romances of the apostles. Like other ancient historians he omits everything that does not fit in with his narrative purposes; he abbreviates and combines other traditions. All this can be paralleled in the secular historians. But he cannot be accused of inventing events. 'His account always remains within the limits of what was considered reliable by the standards of antiquity.' Even though the speeches set out his own theological ideas, he uses older traditions and follows the procedures set out by Lucian and Thucydides. By contrast, however, he 'treats sayings of Jesus in the same way as scriptural quotations'.

It must be observed that Luke's deliberate turning towards the past has influenced his theology. He presents a simple exaltation christology in his early chapters, since he is determined to go back to the primitive Christian sources. Of all the non-Jewish writers of antiquity Luke has by far the best knowledge of Judaism. To label Acts, therefore, as 'early catholicism' is unhelpful and an example of the modern desire for handy clichés. He is oriented more to the past century of Christian origins than the arrival of the second century, as evidenced in his enthusiastic conception of the Spirit, his understanding of the ministry, and his archaic doctrines of the sacrament and the person of Christ.

Hengel identifies the 'writer to Theophilus' as Luke the physician, accepting the 'we' passages as an indication that he was present at these incidents. He explains the differences between the picture of Paul in Acts and the Paul of the epistles as due in part to Luke's ignorance of the letters, most of which were written before he met Paul, and chiefly to the thirty-year interval between his companionship with Paul and the writing of Acts. 'Those who reflect on the theological changes to be seen among once "narrow Barthians" or "strict Lutherans" over the past thirty years, or note how far imagination and reality have become confused in the legends about the church struggle over a period of only forty years, will be more careful in judging Luke than his strictest critics in recent decades.' 'The radical "redaction-critical" approach so popular today, which sees Luke above all as a freely inventive theologian, mistakes his real purpose, namely that as a Christian "historian" he sets out to report the events of the past that provided the foundation for the faith and its extension. He does not set out primarily to present his own "theology".'

Recent studies of the gospels and Christian origins have tended to reveal a greater scepticism on the part of NT scholars than among ancient historians. Professor Hengel's short book, developed from a seminar and series of lectures, is a useful appraisal from the side of the historian. His account in the latter part of the book of a period in the life of the early church shows that he is far from taking Luke's narrative at face value. What is good to see is how Acts appears to one who has extensive knowledge of the ancient world.

Foundation Documents of the Faith:

VII. The Westminster Confession of Faith

BY PROFESSOR J. K. S. REID, EDINBURGH

1. Confession

The Reformation reactivated an inclination to compile statements of faith that had long been dormant in the church. To this credal resurgence the Westminster Confession of Faith belongs as late-comer. The reasons and motives behind this theological activity were many, various, and not particularly obscure. In essence they were not different from those that operated in NT and post-apostolic times; but there are altered emphases. The Christian church at the beginning made its confession in two words: *kyrios Christos*, Jesus is Lord (1 Jn 4^{2f}, Rom 10⁹, esp. NEB). This

confession included the elements of *praise* (of God, doxological), *proclamation* (of the truth, theological), and *practice* (renunciation of Caesar as Lord, with the civil penalties incurred, see Rev 13¹²⁻¹⁷, praxiological). The documents of the Reformation in the four decades following Luther's 95 Theses are much longer than the two words of NT confession, or even the circumlocutions of the Athanasian Creed. But the same notes are discernible in all: *joy* at the recovery of the gospel, whose essential *truth* is salvation by grace alone, setting us free for *works* of grateful service for the glory of God and the benefit of man.

An 'Open-Ended Distinctiveness' Clement Yung Wen,2020-11-16 Insofar as the twentieth century has often been referred to as the ecumenical century the twenty first seems poised to become known as the century of World Christianity Into this situation the present study seeks to show the ongoing relevance of Wolfhart Pannenberg s ecclesiological and ecumenical proposals and in doing so finds that his eschatologically oriented and historically rooted emphasis upon an open ended distinctiveness is exactly the kind of corrective that the emerging theological paradigm of World Christianity needs if it wants not only to stay contextually open ended but remain distinctively Christian in outlook and character as well Towards that end the book begins with the story of ecclesiology s definitional expansion from the time of the Reformation to now before tracing the biographical and ideational roots of Pannenberg s overall programme The study then proceeds by outlining the main contours of Pannenberg s ecclesiology and ecumenism especially as such pertain to World Christianity In this regard several facets of Pannenberg s thought are highlighted for consideration including his understanding of the church as sign of the kingdom his doctrine of participation in Christ his reassertion of the church s missionary task his underdeveloped personalist and social thought structures his ironically relevant Constantinianism his directly relevant yet abstract notion of creative love and his views concerning contextualization and the ecumenical potential of the Nicene Constantinopolitan Creed of 381 While much that is here developed serves as a healthy corrective for an emerging theological paradigm that is still maturing some surprising critical insights arise that also flow the other way God in Eisenhower's Life, Military Career, and Presidency Jerry Bergman,2019-03-22 As the Supreme Allied Commander in the fight against the Nazis General Dwight Eisenhower was one of the most important leaders of the last century His position as a five star general was crucial in achieving a positive outcome in World War II Today he is considered one of the most respected US presidents but the critical role that his religious beliefs played in his life and work is widely ignored As one historian wrote Eisenhower was the most religious president in the twentieth century He was critical in influencing the nation s enlarged accommodation to faith specifically the Christian faith The central role Eisenhower s faith played in his life from growing up in Abilene Kansas to becoming the most powerful leader in the world is thoroughly documented for the first time in this book Indeed Eisenhower s belief in God made him who he was and allowed him to achieve the work that made him one of the most respected leaders of the free world This book sets the record straight about common erroneous beliefs concerning President Eisenhower and his family It is necessary to understand the forces that shaped him so we can put his life and many achievements into

perspective Discerning the Entanglement: Christian Nationalism and Biblical Faith Dr. Richard A. NeSmith, 2025-04-28
 Has our faith lost its way In our time Christian language is being weaponized to advance political agendas blurring the line between faith and nationalism Many believers are unknowingly swept into a movement that claims to honor Christ but distorts His Kingdom This book doesn't tiptoe It confronts With boldness and biblical conviction it challenges the Church to examine where our true allegiance lies and whether we've traded the cross for a flag This is a call to spiritual warfare not against people but against deception It's time to reclaim a faith rooted in Christ alone one that transforms us from the inside out and restores our witness in a world desperate for truth In an age of confusion this book equips readers to discern the difference between cultural loyalty and biblical fidelity Whether curious, conflicted or concerned this is a wake up call for every Christian who longs to follow Jesus more faithfully in a deeply divided world **Christianity & Western Thought: Faith & reason in the 19th century** Colin Brown, Steve Wilkens, Alan G.  Faith without Fear asks whether Christianity has the wherewithal to meet the increasingly acute intellectual and moral challenges currently facing it and whether it can shed the reactive fear which now grips its more conservative forms Major topics of the book include same sex marriage patriarchal push back and sociology of conservatism The book seeks to demonstrate the inadequacy and damaging impact of older ways of reading the Bible and to plot what some will consider a risky way forward for 21st century Christians **Faith and the Presidency From George Washington to George W.
