Linguistic Approach To Buddhist Thought:

Linguistic Approach to Buddhist Thought Genjun Sasaki, 1986 Dr Sisir Kumar Mitra's book entitled *The Early Rulers of Khajuraho* constitutes a welcome addition to the existing literature on the history of the Candellas of Bundelkhand. He gives a comprehensive and fascinating account of the varied activities of this distinguished family of rulers based on a minute and detailed study of the material which he collected with great industry and thoroughness from diverse sources indigenous and foreign literary and archaeological. Though most of his data have been compiled from epigraphic sources, he is not over zealous in his estimate of the importance and reliability of inscriptional material which he examines as critically as any piece of literary material. He has discussed the controversial issues connected with his subject without any bias. His chapters on administrative, social, economic and religious history will be specially useful to those interested in the compilation of epigraphic material bearing on the evolution of ancient Indian culture.

Linguistic Strategies in Daoist Zhuangzi and Chan Buddhism Youru Wang, 2003-12-08 As the first systematic attempt to probe the linguistic strategies of Daoist Zhuangzi and Chan Buddhism, this book investigates three areas: deconstructive strategy, liminology of language and indirect communication. It bases these investigations on the critical examination of original texts, placing them strictly within soteriological contexts. Whilst focusing on language use, the study also reveals some important truths about these two traditions and challenges many conventional understandings of them. Responding to recent critiques of Daoist and Chan Buddhist thought, it brings these two traditions into a constructive dialogue with contemporary philosophical reflection. It discovers Zhuangzian and Chan perspectives and sheds light on issues such as the relationship between philosophy and non philosophy, de reification of words, relativising the limit of language, structure of indirect communication and use of paradox, tautology and poetic language.

Buddhist Phenomenology Dan Lusthaus, 2014-02-04 A richly complex study of the Yogacara tradition of Buddhism, divided into five parts: the first on Buddhism and phenomenology, the second on the four basic models of Indian Buddhist thought, the third on karma, meditation and epistemology, the fourth on the Trimsika and its translations, and finally the fifth on the Cheng Wei shih Lun and Yogacara in China.

Philological approach to Buddhism Tadeusz Skorupski, 1997 Buddhism and Linguistics Manel Herat, 2017-11-11 This edited collection brings linguistics into contact with a millennia of works by Buddhist scholars Examining the Buddhist contemplative tradition and its extensive writings from an interdisciplinary perspective the authors bridge the gap between such customs and human language To do so they provide chapters on linguistics history religious studies philosophy and semiotics Uniting scholars from three different continents and from many disciplines and institutions this innovative and unique book is sure to appeal to anyone interested in Buddhist traditions and linguistics **The Notion of Solitude in Pali Buddhist Literature** Indaka Nishan Weerasekera, 2024-05-30 Exploring how notions of solitude in Pali literature are encompassed in various literary forms such as stock formulae poetry narrative and imagery this book includes close analysis of some of the most famous Buddhist verses about solitary practice Indaka Nishan Weerasekera considers how solitude is valued as one significant aspect of the Buddhist path including how the imagery of landscape especially the forest serves to both inspire solitary practice as well as functions as a metaphor for meditation The author employs a cross section of primary sources to explore the practical and psychological aspects of solitude in relation to Buddhist meditation as well as relational attitudinal concepts such as renunciation or desirelessness independence and self reliance This lonely aspect of the Buddhist path sits alongside the communal aspect of the Buddhist teachings Together they serve to maintain monastic harmony while the social aspect preserves monastic relations with wider society *Satipaṭṭhāna* Anālayo, 2003 This book helps to fill what has long been a glaring gap in the scholarship of early Buddhism offering us a detailed textual study of the Satipatth na Sutta the foundational Buddhist discourse on meditation practice Back cover The Linguistic Carnival of Thought Rein Raud, 2025-09-04 The Linguistic Carnival of Thought Comparative Philosophy and the Dynamics of Language argues that the practice of philosophizing is significantly influenced by linguistic structures Against the widespread view that all languages are reducible to the same matrix on a deep structural level Rein Raud presents ample evidence to the contrary demonstrating how different strategies of predication postulation negation individuation and so on vary greatly and present incompatible combinations in natural languages which are nonetheless suitable for precise and rational argumentation This book compares the views of language presented by Plato Kongzi Xunzi and Bhartrhari discusses pansemioticism or the view that reality itself is significant addressing Yijing East Asian Buddhism the Kabbalah the philosophies of Peirce Derrida and others juxtaposes the set theoretical ontology of Badiou and the mereological worldview of Huayan Buddhism and discusses various critiques of the idea of truth Wittgenstein Deleuze Foucault and a way to accommodate them through the logic of Dignaga among other topics With examples from languages and philosophical traditions across the world the book is an ideal introduction to the problematic for monolingual speakers of English and a scintillating exploration for polyglots **Contexts and Dialogue** Tao Jiang, 2006-11-30 Are there Buddhist conceptions of the unconscious If so are they more Freudian Jungian or something else If not can Buddhist conceptions be reconciled with the Freudian Jungian or other models These are some

of the questions that have motivated modern scholarship to approach layavij na the storehouse consciousness formulated in Yog c ra Buddhism as a subliminal reservoir of tendencies habits and future possibilities Tao Jiang argues convincingly that such questions are inherently problematic because they frame their interpretations of the Buddhist notion largely in terms of responses to modern psychology He proposes that if we are to understand layavij na properly and compare it with the unconscious responsibly we need to change the way the questions are posed so that layavij na and the unconscious can first be understood within their own contexts and then recontextualized within a dialogical setting In so doing certain paradigmatic assumptions embedded in the original frameworks of Buddhist and modern psychological theories are exposed Jiang brings together Xuan Zang s layavij na and Freud s and Jung s unconscious to focus on what the differences are in the thematic concerns of the three theories why such differences exist in terms of their objectives and how their methods of theorization contribute to these differences Contexts and Dialogue puts forth a fascinating erudite and carefully argued presentation of the subliminal mind It proposes a new paradigm in comparative philosophy that examines the what why and how in navigating the similarities and differences of philosophical systems through contextualization and recontextualization

Satipatthana Analayo,2013-06-12 The Satipatthana Sutta is the teaching on mindfulness and the breath and is the basis of much insight meditation practice today This book is a thorough and insightful guide to this deceptively simple yet profound teaching With painstaking thoroughness Ven Analayo marshals the suttas of the Pali canon works of modern scholarship and the teachings of present day meditation masters to make the rich implications of the Satipatthana Sutta so concise in the original clear to contemporary students of the Dharma Bhikkhu Bodhi De-Westernizing Communication Research Georgette Wang,2010-12-14 The rise of postmodern theories and pluralist thinking has paved the way for multicultural approaches to communication studies and now is the time for decentralization de Westernization and differentiation This trend is reflected in the increasing number of communication journals with a national or regional focus Alongside this proliferation of research output from outside of the mainstream West there is a growing discontent with communication theories being Westerncentric Compared with earlier works that questioned the need to distinguish between the Western and the non Western and to build Asian communication theories there seems to be greater assertiveness and determination in searching for and developing theoretical frameworks and paradigms that take consideration of and therefore are more relevant to the cultural context in which research is accomplished This path breaking book moves beyond critiquing Westerncentrism in media and communication studies by examining where Eurocentrism has come from how is it reflected in the study of media and communication what the barriers and solutions to de centralizing the production of theories are and what is called for in order to establish Asian communication theories *Untying the Knots in Buddhism* Alex Wayman,1997 The field of non Tantric Buddhism still has many problems and debated issues The present volumes included numerous solutions of these problems by the senior author Alex Wayman The categories of the Twenty four essays are Heroes of the

Berkwitz,Ashley Thompson,2022-03-16 Among one of the older subfields in Buddhist Studies the study of Therav da Buddhism is undergoing a revival by contemporary scholars who are revising long held conventional views of the tradition while undertaking new approaches and engaging new subject matter The term Therav da has been refined and research has expanded beyond the analysis of canonical texts to examine contemporary cultural forms social movements linked with meditation practices material culture and vernacular language texts The Routledge Handbook of Therav da Buddhism illustrates the growth and new directions of scholarship in the study of Therav da Buddhism and is structured in four parts Ideas Ideals Practices Persons Texts Teachings Images Imaginations Owing largely to the continued vitality of Therav da Buddhist communities in countries like Sri Lanka Myanmar Thailand Cambodia and Laos as well as in diaspora communities across the globe traditions associated with what is commonly and fairly recently called Therav da attract considerable attention from scholars and practitioners around the world An in depth guide to the distinctive features of Therav da the Handbook will be an invaluable resource for providing structure and guidance for scholars and students of Asian Religion Buddhism and in particular Therav da Buddhism The introduction and chapter 20 of this book are available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license Dignaga on the Interpretation of Signs R.P. Hayes,2012-12-06 Buddhist philosophy in India in the early sixth century C E took an important turn away from the traditional methods of explaining and systematizing the teachings in Sūtra literature that were attributed to the Buddha The new direction in which several Indian Buddhist philosophers began to move was that of following reasoning to its natural conclusions regardless whether the conclusions conflicted with traditional teachings The central figure in this new movement was Dignāga a native of South India who found his way to the centre of Buddhist education at Nalanda studied the treatises that were learned by the Buddhist intellectuals of his day and eventually wrote works of his own that formed the core of a distinctly new school of Buddhist thought Inasmuch as virtually every Indian philosopher after the sixth century had either to reject Dignāga's

methods or build upon the foundations provided by his investigations into logic epistemology and language his influence on the evolution of Indian philosophy was considerable and indeed some familiarity with Dirinaga s arguments and conclusions is indispensable for anyone who wishes to understand the historical development of Indian thought Moreover since the approach to Buddhism that grew out of Dirinaga s meditations on language and the limits of knowledge dominated the minds of many of the scholars who took Buddhism to Tibet some familiarity with Dirinaga is also essential to those who wish to understand the intellectual infrastructure of Tibetan Buddhist philosophy and practice

History of Linguistic Thought and Contemporary Linguistics Herman Parret,1976 *Attention, Not Self* Jonardon Ganeri,2017-11-17 Jonardon Ganeri presents an account of mind in which attention not self explains the experiential and normative situatedness of human beings in the world Attention consists in an organisation of awareness and action at the centre of which there is neither a practical will nor a phenomenological witness Attention performs two roles in experience a selective role of placing and a focal role of access Attention improves our epistemic standing because it is in the nature of attention to settle on what is real and to shun what is not real When attention is informed by expertise it is sufficient for knowledge That gives attention a reach beyond the perceptual for attention is a determinable whose determinates include the episodic memory from which our narrative identities are made the empathy for others that situates us in a social world and the introspection that makes us self aware Empathy is other directed attention placed on you and focused on your states of mind it is akin to listening Empathetic attention is central to a range of experiences that constitutively require a contrast between oneself and others all of which involve an awareness of oneself as the object of another s attention An analysis of attention as mental action gainsays authorial conceptions of self because it is the nature of intending itself effortful attention in action to settle on what to do and to shun what not to do In ethics a conception of persons as beings with a characteristic capacity for attention offers hope for resolution in the conflict between individualism and impersonalism Attention Not Self is a contribution to a growing body of work that studies the nature of mind from a place at the crossroads of three disciplines philosophy in the analytical and phenomenological traditions contemporary cognitive science and empirical work in cognitive psychology and Buddhist theoretical literature
