Linking the U.S. National Technical Information Service with Academic and Public Libraries Charles R. McClure, Peter Hernon, Gary R. Purcell, 1986 Two underlying assumptions of this volume are that academic and public libraries can serve as effective intermediaries between the U S National Technical Information Service NTIS and library clientele and that NTIS believes academic and public libraries as well as their clientele may comprise markets for expanding the number of people who might use and purchase NTIS information services and products As such this volume fills a void in the literature regarding the operations and activities of the NTIS Due to a broad range of factors discussed throughout the volume academic and public libraries are unable to serve as effective intermediaries between NTIS and library clientele The link between NTIS and the academic and public library professional community can be improved through a carefully developed and implemented plan 1979-1990 Henryk Sawoniak, 2012-02-14 No detailed description available for 1979 1990 **The American Economy** Cynthia Clark, 2011-03-11 A compelling compilation of short entries longer topical essays and primary source documents that chronicles the historical development of the United States from an economic perspective Based on a work originally published in 2003 The American Economy A Historical Encyclopedia has been thoroughly updated with information on the accounting scandals of the early 2000s and the recession of 2008 including the government stimulus and bailout programs and the recession s impact on key markets With more than 600 short entries 31 longer essays and 32 primary source documents the encyclopedia spans American history from colonial times to the present Researchers will discover detailed information on people events and government actions that have shaped our economy with entries on such seminal issues as slavery migration patterns the welfare state the rise of the city and the development of financial institutions Throughout special attention is paid to the interdependence of economics with political social and cultural forces Covering everything from the national debt to monetary policy law unemployment inflation and government business relations this work is the ideal go to resource for quick answers in depth analysis or direction for further research **NASA DoD aerospace knowledge diffusion research project. Report number 6, The relationship between the use of U.S. government technical reports by U.S. aerospace engineers and scientists and selected institutional and sociometric variables**, 1991 A study was undertaken that investigated the relationship between the use of U S government technical reports by U S aerospace engineers and scientists and selected institutional and sociometric variables Survey research is the methodology used for the study Data were collected by means of a self administered mail questionnaire The approximately 34 000 members of the American Institute of Aeronautics and Astronautics AIAA served as the study population The response rate for the survey was 70 percent A dependent relationship was found to exist between the use of U S government technical reports and three of the institutional variables academic preparation years of professional aerospace work experience and technical discipline The use of U S government technical reports was found to be
