Caron, 1996 This bibliography cites those Canadian and foreign reference sources that describe Canadian people, institutions, organizations, publications, art, literature, languages, and history. It lists books of a general nature as well as works in the disciplines of history and the humanities. These large divisions are then broken down by subject, genre, type of document, and province or territory. Titles of national, provincial, territorial, or regional interest are included in every subject area when available. The contents of the book are indexed four ways by name, title, French subject, and English subject. And to facilitate browsing, the major reference books those dealing with more than one subject or a large geographical region are also cross-referenced. Two entries have been created for each bilingual document in order to provide access and bibliographical descriptions in both of Canada's official languages. Entries for unilingual works include citation in the language of the publication and a bilingual annotation. The annotations are descriptive and provide information on the content arrangements and indexing of works, the availability of non print formats, previous editions and title changes, and related works. Canadian Reference Sources will be an invaluable reference tool for future scholars and researchers.    *New York Court of Appeals. Records and Briefs.* New York (State),

This book outlines the beginning of student organizing around issues of sexual orientation at Midwestern universities from 1969 to the early 1990s. Collegiate organizations were vitally important to establishing a public presence as well as a social consciousness in the last quarter of the twentieth century. During this time, lesbian and gay students struggled for recognition on campuses while forging a community that vacillated between fitting into campus life and deconstructing the sexist and heterosexist constructs upon which campus life rested. The first openly gay and lesbian student body presidents in the United States were elected during this time period at Midwestern universities at the same time, pioneering non heterosexual students faced criticism, condemnation, and violence on campus. Drawing upon interviews, extensive reviews of campus newspapers and yearbooks, and archival research across the Midwest, Patrick Dilley demonstrates how the early gay campus groups created and provided educational and support services on campus efforts that later became incorporated into campus services across the nation. Further, the book shows the transformation of gay identity into a minority identity on campus.
