Employee Ownership Issues Resources And Legislation:

Employee Ownership, Issues, Resources and Legislation Corey Rosen, 1982 Sharing Ownership in the Workplace Raymond Russell, 1985-06-30 Employee ownership is the fastest growing organizational trend in American business Instances of workers buying out closing plants unions granting wage concessions in exchange for an employer's stock and corporations using employee stock ownership as a defense against takeovers are occurring more frequently But is the movement toward employee ownership a significant new trend or a repetition of past mistakes Sharing Ownership in the Workplace traces the history of employee ownership in the United States and Western Europe to its incipency in the nineteenth century The findings are disturbing labor owned business tend to revert to conventional organizational structure This book examines this phenomenon an understanding of which is crucial for assessing the prospects of the emerging generation of employee owned firms It presents three contemporary case studies of businesses that have been employee owned for generations scavenger firms taxi cooperatives and professional group practices to determine what causes them to fail and what makes for successful labor controlled operations Throughout Russell integrates various ideological perspectives on worker owned organizations citing theorists as diverse as Karl Marx Max Weber Sidney and Beatrice Webb Louis Kelso and Peter Drucker Special attention is paid to the processes that lead to employee ownership cause it to spread and either to endure or to degenerate over time *Personnel Literature*, 1982 *The Myth of Mondragon* Sharryn Kasmir, 1996-07-01 This is the first critical account of the internationally renowned Mondragon cooperatives of the Basque region of Spain The Mondragon cooperatives are seen as the leading alternative model to standard industrial organization they are considered to be the most successful example of democratic decision making and worker ownership However the author argues that the vast scholarly and popular literature on Mondragon idealizes the cooperatives by falsely portraying them as apolitical institutions and by ignoring the experiences of shop floor workers She shows how this creation of an idealized image of the cooperatives is part of a new global ideology that promotes cooperative labor management relations in order to discredit labor unions and working class organizations this constitutes what she calls the myth of Mondragon **Labor and Reindustrialization** Donald Kennedy, 1984 *Economic Democracy and Financial Participation* Daryl D'Art, 2002-03-11 The ideas of economic democracy and financial participation are not new The International Congress on profit sharing first met in Paris in 1889 However since then the numerous schemes have met with mixed reactions and various levels of success In *Economic Democracy and Financial Participation* Daryl D Art has two objectives Firstly to examine if and under what conditions profit sharing schemes and employee shareholding can motivate workers and generate cooperative striving Secondly he identifies the schemes of financial participation which have the potential to realise economic democracy within the individual firm and wider society *The Associative Economy* Franco Archibugi, 2000-03-08 Are Welfare States in crisis Forty years after Gunnar Myrdal's seminal *Beyond the Welfare State* it is still little grasped in the reform debate that the

whole structure and economies of our societies are being transformed This book reasserts the importance of a new employment and productive model that of the associative economy which integrates social solidarity with economic planning
