Families As Relationships:

Families as Relationships Robert M. Milardo, Steve Duck, 2000-08-22 The field of family studies has recently seen the development of a more specialized focus on the character of particular relationships The nature of these relationships may take many forms but typically involves individuals who view themselves as a unit with a long term commitment to continue their relationship Traditionally at least in western societies families are defined in terms of two parents living together with responsibility for rearing their children However these so called nuclear families are becoming a rarer phenomenon Single parent families childless couples lesbian or gay male couples are also all represented in the broad mix of relations referred to as families Each of the chapters in this book deals with a primary relationship issue These include issues of early marriage how young relationships become enduring relationships parent and child relations conflict between partners the interface between work and family life marital quality and maintenance divorce and its impact on the family aging and older families This volume provides a useful reference for professionals whose research and or clinical practice focuses on family relationship issues This book is also intended for advanced students in the areas of sociology close relationships and family sciences Families as Relationships is one of a series of paperbacks dedicated to the study and application of processes by which individuals relate to each other in social and family settings Each book provides an expanded and up to date version of a section in the original Handbook of Personal Relationships second edition edited by Steve Duck *Fathers, Families and Relationships* Caroline Gatrell, Esther Dermott, 2019-03-06 In this exciting book leading fatherhood scholars from Europe and Scandinavia offer unique insights into how to research fathers and fatherhood in contemporary society Outlining research methods in detail including examples of large scale studies online research surveys and visual and aural methods they explore how each approach worked in practice what the benefits and pitfalls were and what the wider and future application of the chosen research methods might be Covering a wide range of subjects from non resident fathers to father engagement in child protection this major contribution to the field also critiques and addresses the notion that fathers especially young fathers can be hard to reach Essential reading for both students and policy makers in a fast growing area of interest

Marriages and Families Karen Seccombe, Rebecca L. Warner, 2003-07 In this fresh more structural alternative to other texts for the marriage and family course Seccombe and Warner provide a comprehensive look at close relationships and the family in just 15 chapters Examining close relationships and families by placing them in social context the authors offer a unique emphasis on the structural and relational aspects of the family with a focus on family resilience The text weaves together a macro view social structural analysis of close relationships with the macro an individualist view The authors demonstrate the interaction of theory and methodology in family studies in Chapter 2 and blend cutting edge research and practical applications throughout Among the highlights of this first edition are the exceptionally thorough exploration of the topics of singlehood and cohabitation in Chapter 7 and the unique six chapter core 8 13 that focuses on all aspects of parenthood and the challenges and crises that families face today The authors emphasis on family resilience and how families can be strengthened is reflected in the Constructing Strong Families boxes that appear throughout the text These features encourage students to apply groundbreaking research on what makes a family strong to their own families and in the concluding chapter Looking Ahead Helping Families Flourish which examines the factors that successful families regardless of ethnicity culture or social class consistently exhibit

Queer Families and Relationships After Marriage Equality Michael Yarbrough, Angela Jones, Joseph DeFilippis, 2018-07-04 After years of intense debate same sex marriage has become a legal reality in many countries around the globe As same sex marriage laws spread Queer Families and Relationships After Marriage Equality asks What will queer families and relationships look like on the ground Building on a major conference held in 2016 entitled After Marriage The Future of LGBTQ Politics and Scholarship this collection draws from critical and intersectional perspectives to explore this question Comprising academic papers edited transcripts of conference panels and interviews with activists working on the ground this collection presents some of the first works of empirical scholarship and first hand observation to assess the realities of queer families and relationships after same sex marriage Including a number of chapters focused on married same sex couples as well as several on other queer family types the volume considers the following key questions What are the material impacts of marriage for same sex couples Is the spread of same sex marriage pushing LGBTQ people toward more normalized types of relationships that

resemble heterosexual marriage And finally how is the spread of same sex marriage shaping other queer relationships that do not fit the marriage model By presenting scholarly research and activist observations on these questions this volume helps translate queer critiques advanced during the marriage debates into a framework for ongoing critical research in the after marriage period
