Dr. D. N. Kakar

Family Planning Paperback:

Handbook of Family Planning and Reproductive Healthcare Anna Glasier, Ailsa Gebbie, Nancy Loudon, 2000 This fully revised New Edition of the HANDBOOK OF FAMILY PLANNING AND REPRODUCTIVE HEALTH CARE integrates the latest information and in depth advice on all contraceptive options and their possible side effects Each chapter includes guidance on practical prescribing indications contraindications the relative advantages and disadvantages of each method and complications and their management In addition to practical advice on contraception the handbook also covers advice on how to treat women with menopausal or minor gynecological problems such as premenstrual syndrome sexuality and family planning and sexually transmitted diseases Finally there is coverage of future trends in family planning and their likely impact on clinical practice

All you wanted to know about family planning Dr. D. N. Kakar, This book brings you easy to understand information on family planning Apart from making you aware of the many methods of family planning it will also help you make an informed choice Earlier stress as laid mainly on family planning methods for women This book lays stress on methods for men too and it emphasises the joint responsibility of a couple in choosing a mutually acceptable method Based on current literature including WHO reports the book explains the workings of the various methods and their advantages and disadvantages

Family Planning Zouhair O. Amarin, 2018 Women with unmet need for family planning are those who are fecund but are not using any method of contraception not wanting any more children or wanting to delay the next pregnancy This notion points to the gap between women's reproductive intentions and their contraceptive behavior The need for contraception remains too high This circumstance is made worse by both a growing population and a shortage of family planning services It is important that family planning is widely available and easily accessible This book is intended as an aid to substance that all health workers interested in becoming more effective practitioners will consult on many occasions during their clinical practice It provides views that the readers can test their experiences against It presents sound and clear advice on some of the most practical guidance applicable to family planning

Natural Family Planning, 1980 **Paperbacks in Print**, 1980 Improving Quality of Care in Family Planning Jay Satia, Kavita Chauhan, 2018-12-22 In this book the authors review initiatives in improving the quality of care for family planning in India and bring them to the broader forum of policy level discussions The global Family Planning 2020 FP2020 framework argues for voluntary rights based family planning programmes The rights based approach builds on the bedrock of quality of care which means listening to what women want treating individuals with dignity and respect and ensuring that everyone has access to full information and high quality care Improving the quality of care in family planning services in a country like India is crucial from individual national and global considerations This book critically discusses and evaluates the various interventions undertaken so far and the reasons for success and failure It also synthesizes current research studies in India identifies gaps and presents a research agenda to bridge this gap and accelerate progress towards

improving quality of care in family planning It presents a comprehensive framework that underscores the importance of health systems and community environments in creating enabling motivating and empowering roles for providers and clients The examples and perspectives presented in this book make a strong case for adoption into policy frameworks and scaling up of quality of care efforts and identifying research priorities for strengthening the response to family planning This book greatly contributes towards enhancing the quality of family planning care at the grass roots level in low resource settings and is of interest to researchers and practitioners of public health particularly community health maternal and child health and social work **Current Catalog** National Library of Medicine (U.S.),1982 First multi year cumulation covers six years 1965

70 **Natural Family Planning** Mary Lee Barron,2009 Natural family planning is the perfect resource for every Catholic who has questions about Church teachings regarding contraception This booklet explores the history of Christian belief regarding contraception natural family planning methods of the modern era and artificial contraception Offering suggestions on finding a health care provider and the married couples relationship this booklet also provides real data on what research shows about the benefits of natural family planning **Contraception and Modern Ireland** Laura Kelly,2023-02-23

Contraception was the subject of intense controversy in twentieth century Ireland Banned in 1935 and stigmatised by the Catholic Church it was the focus of some of the most polarised debates before and after its legalisation in 1979 This is the first comprehensive dedicated history of contraception in Ireland from the establishment of the Irish Free State in 1922 to the 1990s Drawing on the experiences of Irish citizens through a wide range of archival sources and oral history Laura Kelly provides insights into the lived experiences of those negotiating family planning alongside the memories of activists who campaigned for and against legalisation She highlights the influence of the Catholic Church s teachings and legal structures on Irish life showing how for many sex and contraception were obscured by shame Yet in spite of these constraints many Irish women and men showed resistance in accessing contraceptive methods This title is also available as Open Access
