*Neoliberalism, Postmodernity, and the Contemporary Memorial-Building Boom* Nicola Clewer, 2022-06-06 The book develops a new approach to and a distinct reading of the contemporary memorial building boom which began in the 1980s Locating the origins of this boom in the crises associated with postmodernity and the rise of neoliberalism it analyses the complex interplay between neoliberalism postmodernism and nationalism in some of the most well known memorials and memorial museums to have emerged in the USA and Germany over the last four decades Rather than offering a survey of contemporary memorials it traces a specific trajectory and certainly not the only one ripe for analysis from the postmodern memorials of the 1980s to the increasingly monumental and authoritative memorials and memorial museums being constructed today Developing a distinct interdisciplinary approach the book offers a critical analysis of the relationship between the memorials form the visitor experience they're intended to offer and the understanding of history and our relation to it which underpins their philosophical ethical and political stance Questioning the notion that contemporary memorials are ambiguous non ideological and non nationalistic the book argues that they are engaged in rearticulating nationalism in line with the contradictory demands of the current conjuncture As well as critically analysing the political function of national memorials the book is equally concerned with interrogating the aesthetic means they employ with a specific focus on the way in which they mobilise the power of the sublime to generate particular affective responses The book argues that contemporary national memorials reflect one of the most significant convergences between postmodern thought and neoliberal ideology both project a permanent present urging us to recreate ourselves in the light of existing conditions for there is no alternative Memorial Papers of the American Marathi Mission, 1813-1881 Outlook Verlag, 2024-04-09
