In The Shadow Of Mecca:

In the Shadow of Mecca O. David West, 2002

In Synchrony with the Heavens, Volume 1 Call of the Muezzin

David King, 2004-02-01 This is the first investigation of one of the main interests of astronomy in Islamic civilization namely timekeeping by the sun and stars and the regulation of the astronomically defined times of Muslim prayer The study is based on over 500 medieval astronomical manuscripts first identified by the author now preserved in libraries all over the world and originally from the entire Islamic world from the Maghrib to Central Asia and the Yemen The materials presented provide new insights into the early development of the prayer ritual in Islam They also call into question the popular notion that religion could not inspire serious scientific activity Only one of the hundreds of astronomical tables discussed here was known in medieval Europe which is one reason why the entire corpus has remained unknown until the present A second volume also to be published by Brill deals with astronomical instruments for timekeeping and other computing devices

The Unveiling Origin of Mecca Mohammed Alal Khan, 2021-09-12 The Unveiling Origin of Mecca provides insights into the history of Kaaba Ka ba in Mecca The Ka ba is the first house built on earth It is one of the few and perhaps the only Islamic History books that looks at modern archaeological evidence and the Holy Quran and the history of the Quran to explore the proper location of the Ka ba The author notes that in the Holy Quran Mecca sometimes also called Becca which words are synonymous and signify a place of great intercourse is undoubtedly one of the most ancient cities in the world Some authors imagine it to be the Mesa or Mesha of the Scripture and that it deduced its name from one of Ishmael s sons It stands in a stony and barren valley surrounded by mountains under the exact parallel with the Macoraba of Ptolemy and about 40 Arabian miles from the sea Al Kolzom There is a magnificent temple in the city like the Colosseum at Rome However it is not made of such large stones but burnt bricks and round in the same manner It has ninety or one hundred doors around it and is arched upon entering the temple you descend ten or twelve steps of marble and here and there about the said entrance there stand men who sell jewels and nothing else Researching ancient Islam and the origin of Mecca the author asserts that the Ka ba is currently misplaced contradicting the Holy Quran and Arabian geography Although there are many Islamic scholars and Quran research Institutes throughout the world sadly none of them have yet verified the exact places mountains surrounding Ka ba and its sacred area according to the Holy Quran

Islamic Empires Justin

Marozzi, 2020-02-04 Islamic civilization was once the envy of the world From a succession of glittering cosmopolitan capitals Islamic empires lorded it over the Middle East North Africa Central Asia and swathes of the Indian subcontinent while Europe cowered feebly at the margins For centuries the caliphate was both ascendant on the battlefield and triumphant in the battle of ideas its cities unrivaled powerhouses of artistic grandeur commercial power spiritual sanctity and forward looking thinking in which nothing was off limits Islamic Empires is a history of this rich and diverse civilization told through its greatest cities over the fifteen centuries of Islam from its earliest beginnings in Mecca in the seventh century to the

astounding rise of Doha in the twenty first Marozzi brilliantly connects the defining moments in Islamic history from the Prophet Mohammed receiving his divine revelations in Mecca and the First Crusade of 1099 to the conquest of Constantinople in 1453 and the phenomenal creation of the merchant republic of Beirut in the nineteenth century and how this world is continuing to change today

The Buddha on Mecca's Verandah Irving Chan Johnson, 2013-01-10 The Buddha on Mecca's Verandah examines the many ways in which people living along an international border negotiate their ethnic cultural and political identities This ethnography of a small community of Thai Buddhists in the Malaysian state of Kelantan draws on rich original vignettes to show how issues such as territoriality identity and power frame the experiences of borderland residents Although the Thai represent less than 10 percent of the Kelantan population they are vocal about their identity as non Muslim non Malay citizens They have built some of the world's largest Buddhist statues in their tiny villages in a state that has traditionally been a seat of Islamic governance At the same time the Thai grapple with feelings of social and political powerlessness being neither Thai citizens nor Muslim Malaysians This thoughtful study offers new perspectives and challenges the classical definition of boundaries and borders as spaces that enforce separation and distance With insights applicable to comparative border and frontier studies around the world The Buddha on Mecca's Verandah will appeal not only to anthropologists but also to specialists in Asian and Southeast Asian studies cultural geography religious and ethnic studies globalization and cosmopolitanism

THE GUIDE TO ANSWERING ISLAM Daniel Janosik, 2019-01-26 The average Christian knows somewhat how dangerous radical Islam is because of the regular media coverage of beheadings of Christians Jews and even young little children not to mention Muslims with which they disagree However the average Christian does not know their true beliefs just how many there are to the extent they will go to carry out these beliefs Daily we find Islamic commentators on the TV and radio offering up misleading information quoting certain portions of the Quran while leaving other parts out When considering Islamic beliefs other Islamic writings must be considered like the Hadith or Sunnah and the Shariah or canon law While Islam in general does not support radical Islam the vast majority do support radical beliefs For example beheadings stoning for adultery or homosexuality suicide bombings turning the world into an Islamic state and far too many other heinous things THE GUIDE TO ANSWERING ISLAM provides Christians with an overview of Islamic terminology The reader will learn about Muhammad's calling the history of the Quran how Islam expanded the death of Muhammad and the splinter groups that followed In addition the three sources of their teaching six pillars of belief five pillars of Islam the twelfth Imam and much more will be discussed While there are several books on Islam and radical Islam this will be the first that will prepare its readers to communicate effectively with Muslims in an effort toward sharing biblical truths THE GUIDE TO ISLAM will be an effective evangelism tool In addition each chapter will end with review questions helping the reader recall the main points of the chapter Therefore it can be studied alone or in a church Bible study setting THE GUIDE TO ANSWERING ISLAM has the contents constructed in a way that will greatly serve

the Christian Church There are many recent books written by Christians about Islam and there are many books written recently about radical Islam However none of these recent books attempts to do what has been done which is to give an adequate portrayal of Islam critiqued by history and Christian doctrine and then culminating in an extensive evaluation of the rise of Radical Islam from a Christian s perspective

The Berlin-Baghdad Express Sean McMeekin,2012-05-07 The modern Middle East was forged in the crucible of the First World War but few know the full story of how war actually came to the region As Sean McMeekin reveals in this startling reinterpretation of the war it was neither the British nor the French but rather a small clique of Germans and Turks who thrust the Islamic world into the conflict for their own political economic and military ends The Berlin Baghdad Express tells the fascinating story of how Germany exploited Ottoman pan Islamism in order to destroy the British Empire then the largest Islamic power in the world Meanwhile the Young Turks harnessed themselves to German military might to avenge Turkey s hereditary enemy Russia Told from the perspective of the key decision makers on the Turco German side many of the most consequential events of World War I Turkey s entry into the war Gallipoli the Armenian massacres the Arab revolt and the Russian Revolution are illuminated as never before Drawing on a wealth of new sources McMeekin forces us to re examine Western interference in the Middle East and its lamentable results It is an epic tragicomedy of unintended consequences as Turkish nationalists give Russia the war it desperately wants jihad begets an Islamic insurrection in Mecca German sabotage plots upend the Tsar delivering Turkey from Russia s yoke and German Zionism midwives the Balfour Declaration All along the story is interwoven with the drama surrounding German efforts to complete the Berlin to Baghdad railway the weapon designed to win the war and assure German hegemony over the Middle East

Islamic Astronomy and Geography David A. King,2022-02-13 This volume of 12 studies mainly published during the past 15 years begins with an overview of the Islamic astronomy covering not only sophisticated mathematical astronomy and instrumentation but also simple folk astronomy and

the ways in which astronomy was used in the service of religion It continues with discussions of the importance of Islamic instruments and scientific manuscript illustrations Three studies deal with the regional schools that developed in Islamic astronomy in this case Egypt and the Maghrib Another focuses on a curious astrological table for calculating the length of life of any individual The notion of the world centred on the sacred Kaaba in Mecca inspired both astronomers and proponents of folk astronomy to propose methods for finding the qibla or sacred direction towards the Kaaba their activities are surveyed here The interaction between the mathematical and folk traditions in astronomy is then illustrated by an 11th century text on the qibla in Transoxania The last three studies deal with an account of the geodetic measurements sponsored by the Caliph al Ma'mun in the 9th century a world map in the tradition of the 11th century polymath al Biruni corrupted by careless copying and a table of geographical coordinates from 15th century Egypt

Bandit Saints of Java George Quinn,2019-01-01 Java's pilgrimage culture is a dense batik like pattern of contradictions seriousness collides with laughter curiosity with bewilderment piety with scepticism intense spirituality with in some places the joy of shopping The pilgrimage culture on the island of Java in Indonesia the world's largest Muslim country is a rebuke to the conservative orthodoxy that has been gaining ground in Indonesia's religious landscape since the 1980s In the rhetoric of this orthodoxy the real Islam is pure and exclusive Piety comes from obedience to religious authority and its rules Local pilgrimage is anything but pure and exclusive or rigidly authoritarian It is powerfully Islamic but it fuses Islam with local history the ancient power of place and a pastiche of devotional practices with roots deep in the pre Islamic past Quietly but tenaciously just outside the great echo chamber of public space it is growing as fast as the higher profile neo orthodoxy Bandit Saints of Java delves deep under the surface of modern Indonesia exploring personalities and stories in the weird world of local pilgrimage where Middle Eastern Islam wrestles with the ancient power of Javanese civilisation It paints an astonishing portrait of Islam as it is practised today largely invisible to journalists scholars and tourists by many of Java's 130 million people The Living Age,1928

Hell's Diva: Anna J.,2011-06-08 When Mecca's parents are killed in front of her by a family friend she learns that true friends are few and far between She is taken in by her aunt and soon finds out who is really riding for her and who is just around because they fear the wrath of Aunt Ruby Making a deal with the devil doesn't seem all that bad when you're sitting on top of the world with endless amounts of money and designer everything but it's not long before her beloved Aunt Ruby is snatched away from her Mecca is forced to fend for herself She learns to play with the hand she was dealt but who will be left standing in the end In Mecca's world everyone is suspect and no one can be trusted not even family When the truth is revealed to her it is up to Mecca to decide if she'll do the right thing and lead a life of righteousness or continue to walk down the same dark path as her aunt *The Prophet's Pulpit* Patrick D. Gaffney,2023-07-28 Muslim preaching has been central in forming public opinion building grassroots organizations and developing leadership cadres for the wider Islamist agenda Based on in depth field research in Egypt Patrick Gaffney focuses on the preacher and the sermon as the single most important medium for

propounding the message of Islam He draws on social history political commentary and theological sources to reveal the subtle connections between religious rhetoric and political dissent Many of the sermons discussed were given during the rise of Islamic fundamentalism and Gaffney attempts to describe this militant movement and to compare it with official Islam Finally Gaffney presents examples of the sermons so readers can better understand the full range of contemporary Islamic expression Muslim preaching has been central in forming public opinion building grassroots organizations and developing leadership cadres for the wider Islamist agenda Based on in depth field research in Egypt Patrick Gaffney focuses on the preacher and the sermon

The Crucifix on Mecca's Front Porch David Pinault,2018-08-01

This book on Islam has an unusual perspective It argues that a critically minded examination of Islam can help Christians achieve a deeper appreciation of the unique truths of their own faith It draws on the author s personal experiences living in Islamic countries and his fieldwork with persecuted Christian minority communities especially in Pakistan Yemen Egypt and Indonesia It includes the author s own original translations of Islamic texts in Arabic Persian and Urdu as well as primary source materials in Latin that were written by Christian participants in the Crusades The author focuses on Muslim interactions with the Christian tradition He examines and takes issue with the misguided approach of those Christians and Muslims who in the interests of Christian Muslim rapprochement minimize theological differences between the two faiths especially in the area of Christology Such attempts at rapport he writes do a profound disservice to both religions Illustrating the Muslim view of Christ with Islamic polemical texts from the eleventh to the twenty first centuries the author draws on

Hans Urs von Balthasar and other theologians of kenotic Christology to show how Islamic condemnations of divine weakness and neediness can deepen our appreciation of what is most uniquely Christian in our vision of Jesus as God made man who voluntarily experiences weakness suffering and death in solidarity with all human beings Both timely and urgently needed The Crucifix on Mecca s Front Porch invites readers to reflect on the stark differences between Christianity and Islam and to appreciate the uniqueness of the Christian faith Outlines of History Marcius Willson,1854 *Outlines of History; illustrated by numerous geographical and historical notes and maps ...
