In Search Of Helsinki:

In Search of Helsinki Paavo Haavikko, 1986 *In Search of Meaning and Coherence* Wolff-Michael Roth, 2019-02-18 In the course of his research career much of which was based in his own classrooms Wolff Michael Roth explored numerous new theoretical frameworks when the old ones proved to be unable to account for the data In this book surrounding 11 of his publications spanning 20 years of work the author tells a story of how science education research concretely realized and singularized itself That is rather than taking sole credit for the work that ultimately came to bear his name Roth develops a historical narrative in which his work came to realize cultural historical possibilities inherent in the field of science education But perhaps because some types of this work came to be realized for a first time Roth s research also came to be characterized by others in the community as cutting edge This work therefore presents as much an auto biographical narrative as it presents a cultural historical recollection of science education as it unfolded over the past two decades

Nightlands Christian Norberg-Schulz, 1997-07-29 Translated by Thomas McQuillan Architecture is a manifestation of the environment in which it is placed observes distinguished architect and theoretician Christian Norberg Schulz A simple enough observation but one that becomes subtle and nuanced in this landmark book which attempts to define for the first time what Nordic building really is Norberg Schulz begins by contrasting the natural world of the North with that of the Mediterranean the Nordic unendingness against the sun saturated and homogeneous South Using themes such as natural domestic universal and foreign he finds the architecture of both regions sensibly related to their environments but whereas the South lends itself to abstraction the North is marked by variation openness and dynamism by low light forests and space Exploring the ways built experience takes place Norberg Schulz charts the distinctive character of land and climate that distinguishes Denmark s Sweden s Finland s and Norway s architectural traditions from each other and from those to the South While each of these countries might be said to share regional traits Norberg Schulz identifies differences the cultivated and closely detailed landscape and architecture of Denmark the dramatic structured forms of Norway that allow him to account for the way individual Nordic architectures evolved *In Search of Madness* R. Walter Heinrichs, 2001 This book evaluates the progress of schizophrenia science by summarizing what is known about how patients with the illness differ from healthy people The tools of meta analysis are first explained and then employed to make the strength and consistency of these differences explicit Beginning with the study of symptoms then moving through the search for objective disease markers findings on the cognitive functions structure physiology chemistry and development of the brain this book is a journey into the enigma of madness and its science What emerges is an illness that reveals itself most strongly in thought processes not biology Schizophrenia is an anomaly at the frontier of mind and brain but *In Search of Madness* points the way to its solution A History of Finnish Higher Education from the Middle Ages to the 21st Century Jussi Välimaa, 2019-09-10 This book unravels the origins continuities and discontinuities of Finnish higher education as part of European higher

education from the Middle Ages to the 21st century It describes the emergence of universities in the Middle Ages and the Finnish student and moves on to the Reformation and the end of Swedish rule It then discusses the founding of the Royal Academy of Turku its professors and governing bodies its role as a community student numbers the research and controversies Travelling through the age of autonomy the first decades of independence and the Second World War the book examines the expansion of higher education the development of the system and the establishment of polytechnics It concludes by analysing the multiple institutional and organisational layers of Finnish higher education Altogether the book offers an historical study that shows how and why education and higher education have been important in the process of making the Finnish nation and nation state Translator Dr Inga Arffman

Mythic Discourses Frog, Anna-Leena Siikala, Eila Stepanova, 2012-12-31 Mythic discourses in the present day show how vernacular heritage continues to function and be valuable through emergent interpretations and revaluations At the same time continuities in mythic images motifs myths and genres reveal the longue dur e of mythologies and their transformations The eighteen articles of Mythic Discourses address the many facets of myth in Uralic cultures from the Finnish and Karelian world creation to Nenets shamans offering multidisciplinary perspectives from twenty eastern and western scholars The mythologies of Uralic peoples differ so considerably that mythology is approached here in a broad sense including myths proper religious beliefs and associated rituals Traditions are addressed individually typologically and in historical perspective The range and breadth of the articles presenting diverse living mythologies their histories and relationships to traditions of other cultures such as Germanic and Slavic all come together to offer a far richer and more developed perspective on Uralic traditions than any one article could do alone

The Governance of Artificial Intelligence in the “Autonomous City” Federico Cugurullo, Tan Yigitcanlar, Xiaoling Zhang, Vincent J. Del Casino Jr., Natalie Marie Gulsrud, Sarah Barns, 2023-10-18 Artificial intelligence AI is now mediating and in some cases seen to be controlling key urban services and infrastructures thus becoming a prominent feature of the contemporary city As portrayed in recent studies the autonomous city can be understood as a city where urban artificial intelligences perform tasks and take on roles which have traditionally been the domain of humans At stake in these debates are questions related to the meaning and ongoing role of intelligence for both humans and machines While autonomous cars transport people service robots run shops drones deliver goods and city brains govern entire cities humans are redefining the meaning of what smart means in the city and what role the human being may play in future urban spaces With humans shifted to new sectors of the economy or pushed aside by algorithms and robotic agents creating new ways of seeing and governing the city we raise the question as to whether or not cities are becoming more autonomous from human experience in the sense that their operation does not rely as much on human inputs anymore

OECD Green Growth Studies Compact City Policies A Comparative Assessment

OECD,2012-05-14 This report is thus intended as food for thought for national sub national and municipal governments as they seek to address their economic and environmental challenges through the development and implementation of spatial strategies in pursuit of Green Growth objectives *The Semantic Web: Research and Applications* Christoph

Bussler,2004-04-28 This book constitutes the refereed proceedings of the First European Semantic Web Symposium ESWS 2004 held in Heraklion Crete Greece in May 2004 The 33 revised full papers presented were carefully reviewed and selected from 79 submissions The papers are organized in topical sections on ontology engineering ontology matching and mapping ontology based querying ontology merging and population infrastructure semantic web services service discovery and composition data from the semantic web knowledge presentation applications content management and information management and integration **Reforming Teaching and Teacher Education** Eija Kimonen,Raimo

Nevalainen,2017-03-21 What are the prerequisites for reforming education and how can these reforms be seen in school development and culture How should teacher education support this reform process What are the principles and practices underlying the functioning of the schools of tomorrow These questions are examined in this unique volume The authors in this book argue that the central function of teacher education and education in general is to respond to the challenges brought on by the twenty first century According to this approach the competencies and skills needed in the future are not merely a new addition to school activities but rather something requiring a comprehensive reform of school culture encompassing teacher education curricula and teaching methods Such a fundamental process of change in the action and thinking models used by schools would be an effort to achieve a complete transformation the result of which would be schools developing into organizations that are both creative and imbued with a strong sense of community A central attribute is that the creation of new knowledge is not just restricted to the classroom but also takes place in out of school environments This would link learning to its natural context eventually leading to an ideal instruction that is actively problem oriented holistic and life centered This reform minded volume is divided into three parts The first part focuses on the reform processes in teacher education the second on the reforms of pedagogics at schools and teacher education institutions and the third on the processes of reculturing schools New prospects for active schools in the United States and Europe as well as in Japan and China are discussed *Rethinking Marketing* Douglas Brownlie,1999-03-23 This is an important text It brings

together critical reflections on the discipline s contribution in terms of theory practice and pedagogy and as such is equally as insightful and challenging as some of its recent predecessors eg Brown et al 1996 Brown and Turley 1997 Brown 1998 The book represents a useful point of departure for those setting off on their own critical journeys and thus it should be included on the reading lists of all those carrying out masters or doctoral research in marketing Journal of Marketing Management This book provides a challenging and stimulating coverage of a broad range of key issues in contemporary marketing such as marketing philosophy marketing ethics the mar *Fibula, Fabula, Fact* Joonas Ahola,Frog,Clive Tolley,2014-12-31 The

chapters of *Fibula Fabula Fact The Viking Age in Finland* are intended to provide essential foundations for approaching the important topic of the Viking Age in Finland. These chapters are oriented to provide introductions to the sources, methods and perspectives of diverse disciplines in a way that is accessible to specialists from other fields, specialists from outside Finland and also to non-specialist readers and students who may be more generally interested in the topic. Rather than detailed case studies, the contributors have sought to negotiate definitions of the Viking Age as a historical period in the cultural areas associated with modern day Finland and in areas associated with Finns, Karelians and other North Finnic linguistic cultural groups more generally. Within the incredible diversity of data and disciplines represented here, the Viking Age tends to be distinguished by differentiating it from earlier and later periods while the geographical space is quite fluidly defined for this era which was long before the construction of modern nations with their fenced and guarded borders. Most significantly, the contributions lay emphasis on contextualizing the Viking Age within the complexities of defining cultural identities in the past through traces of cultural, linguistic or genetic features. The volume opens with a general introduction to the topic that is intended to provide a frame of reference for discussion paralleled by a closing afterward. The following chapters are organized according to three thematic sections which reflect the three aspects of any discussion of the Viking Age in Finland: Time, Space and People, because any discussion of the Viking Age in Finland is necessarily concerned with individuals, societies and cultures.

Beyond Borders Pekka Kujamäki, Hannu Kemppanen, Leena Kolehmainen, Esa Penttilä, 2011-01-01
 This volume is a collection of articles presented at the conference Translation Studies Moving In Moving On in Joensuu, Finland, December 2009. The papers deal with the question of how and under what circumstances target cultures accept or reject concepts, ideas or linguistic features that cross cultural and linguistic borders through translation. The discussions rely on varying empirical data including advertisements, audiovisual translations, encyclopedias as well as translations of literary prose, drama and history texts. As the multiplicity of the data implies, the methodologies used also vary widely from corpus linguistic methods to analysis of paratexts and from crosslinguistic analysis of source and target texts to contextualization of target texts in their respective target cultures. The target cultures and languages dealt with in the articles include Catalan, Chinese, Czech, Dutch, English, Finnish, French, German, Italian, Russian and Spanish. Hannu Kemppanen and Pekka Kujamäki are professors in Foreign Languages and Translation Studies at the University of Eastern Finland, Joensuu. Leena Kolehmainen and Esa Penttilä work as post-doctoral research fellows at the same department.

Telecollaboration in Foreign Language Learning Mark Warschauer, 1996
National Electronic Government Martin Eifert, Jan Ole Püschel, 2004-08-02
 This volume presents a comparative survey exploring the challenges of the implementation of e-government in Europe, the US, Australia and Asia. It examines national government strategies and their institutional framework of coordination.

From the Earth Summit to Local Agenda 21 William M. Lafferty, Katarina Eckerberg, 2013-11-05
 This collection of in-depth case studies emphasizes the diversity and inventiveness of local initiatives since the Rio Earth Summit within different national settings.

From the Earth Summit to Local Agenda 21 offers a realistic counterpoint to the official monitoring and assessment procedures of national governments and international bodies. It highlights the problems of assessment and policy evaluation and clearly sets out the policy stages necessary for more effective realization of Local Agenda 21 objectives. **2016** Günter Berghaus, 2016-05-24 Volume 6 2016 is an open issue with an emphasis on Nordic countries Denmark Finland Lithuania Estonia Iceland Four essays focus on Russia two on music other contributions are concerned with Egypt USA and Korea Furthermore there are sections on Futurist archives Futurism in caricatures and Futurism in fiction Stellar Management Teams Vesa Ristikangas, Tapani Rinne, 2018-02-12 Management teams at all levels and individual team members in particular are often disengaged and disconnected from the management function itself Statements such as we lack common goals or they are unclear I have no influence I am not listened to nor taken into account and I do not feel valued actually nobody does are commonplace The authors argue this is because we have been entrenched in an era of guru leadership but that it must come to an end if our management teams are to rise to the top An individual is not capable of controlling the complicated system of an organization with its countless variables especially in conjunction with the rapid change in both the economy and market forces which are unpredictable and uncontrollable No matter how talented the individual no one person is in a position to manage this complex system alone not even a guru leader The authors contend that what is needed now are resilient trendsetters who will bring about a new era of top performing teams that together form a collective guru which they refer to as a Stellar Management Team In this book the reader undertakes a metaphorical journey to the stars which symbolizes top level interaction and collaboration The journey is the development from an ordinary management team into a Stellar Management Team which elevates its operation up to a new level of performance and success **New Serial Titles**, 1990
