**THE TRUTH OF THE ORIGIN OF THE UNIVERSE** Dr. Sabrie Soloman, 2024-08-01 The topic of undeserving credit given to the Big Bang and UFOs is a controversial one with many people having strong opinions on the matter While both the Big Bang theory and the existence of UFOs have been widely accepted the author argues that they are given too much credit and recognition without sufficient evidence to support their claims The Big Bang theory is widely accepted as the most plausible explanation for the origin of the universe Some critics argue that it is not the only possible explanation for the universe s origins Some alternative theories such as the steady state theory or the oscillating universe theory have been proposed as alternatives to the Big Bang theory Similarly the existence of UFOs is a topic that has been hotly debated for decades While there have been countless reports of UFO sightings and encounters there is a lack of concrete evidence to support the existence of extraterrestrial visitors While the Big Bang theory and UFOs may be popular topics in popular culture it is important to approach them with a critical eye and to consider the evidence before giving them undeserving credit *The Exeter Incident (1965)* Patrick Gunn, 2025-05-08 A Small Town A Silent Sky An Unforgettable Mystery In September 1965 the peaceful town of Exeter New Hampshire became the center of one of America s most compelling UFO mysteries The Exeter Incident 1965 presents a detailed gripping exploration of the extraordinary events that unfolded over several nights events witnessed by local residents police officers and even military personnel This meticulously researched account draws from eyewitness testimonies media reports and declassified government documents to unravel the truth behind the lights in the sky that defied logic and gravity With Cold War tensions looming and public trust in the military wavering the Exeter Incident became a flashpoint in American UFO history Whether you re a seasoned UFO researcher a curious skeptic or a fan of true unexplained phenomena The Exeter Incident 1965 offers a riveting journey into one of the most credible and culturally significant sightings of the 20th century Discover the truth they tried to explain away

Soloman,2024-06-12 In a world filled with scientific explanations and theories it can be easy to lose sight of the ultimate truth of our existence The truth is that the universe with all its intricate complexities did not come into being by mere chance or a random explosion It was carefully designed and orchestrated by a higher power a Creator who holds everything together When we look up at the night sky and see the countless stars and galaxies stretching out into infinity we cannot help but be in awe of the sheer magnitude and beauty of it all The heavens declare the glory of God as it says in the Bible and remind us of the greatness of the one who made it all The theory of the Big Bang which posits that the universe began as a singular point and expanded over billions of years is a flawed explanation for the origin of the universe It fails to account for the intricate design and order that we see in the cosmos as well as the existence of life on earth The marvel of our planet Earth with its perfect conditions for sustaining life points to a Creator who had a purpose and a plan in mind when he made it The countless galaxies and stars that we observe in the universe are a testament to the power and creativity of God They show us that we are part of a vast and wondrous creation one that was made by an intelligent designer who had a vision for it all The theory of evolution put forth by Charles Darwin is another flawed explanation for the diversity of life on earth It fails to explain the intricate complexities of living organisms and their unique design as well as the existence of the human soul It is clear that we are not the product of blind chance or random mutations but rather the handiwork of a loving and powerful Creator The truth of the origin of the universe points to a Creator who holds everything together and has a purpose and a plan for it all God stretches out the heavens and allows light to reach us here on earth showing us his care and provision for his creation We are not the product of random chance or blind evolution but rather the cherished creation of a loving God who made us in his image Let us never forget the marvel and wonder of the universe and the greatness of the one who made it all **Ameri-Scares: New Hampshire: Ghosts from the Skies** Stephen Mark Rainey,2021-08-01 Late one night a brilliant blood colored light wakes thirteen year old Heath Sutton from a comfortable sleep Outside his window he sees a

huge brightly lit object hovering over the nearby woods The saucer shaped craft lowers something into the trees and then in an instant vanishes without a trace To his shock Heath realizes that he has seen a UFO a genuine flying saucer The next day Heath and his friend Patrick venture into the woods hoping to discover whether the UFO left behind any evidence of its existence What they find is a shining metal rod jutting from a tree stump as if it has somehow grown there Suddenly the rod emits an unearthly musical sound which causes the boys to feel dizzy and disoriented In terror they rush out of the woods Heath recovers quickly but Patrick seems different more like a cold menacing stranger than Heath s best friend Now fearful Heath visits his grandfather who claims to have once seen a flying saucer himself a saucer that carried his younger brother away into the skies As his grandfather relates his disturbing story Heath believes he sees a shadowy figure lurking outside his grandfather s house And when he returns home he receives the greatest shock of all something weird something not human waiting for him inside
