

## 2.1 Update on the Local Government Equitable Share

1. Local government is entitled to an equitable share of revenue raised nationally in terms of sections 214 and 227 of the Constitution. This local government share of national revenue is divided among the 278 municipalities through a formula.
2. The formula used to allocate the Local Government Equitable Share (LGES) was reviewed in 2012 through a collaborative and consultative process that included National Treasury, the Department of Cooperative Governance (DCoG), the South African Local Government Association (SALGA), the Financial and Fiscal Commission (FFC), Statistics South Africa (StatsSA) and extensive consultation with municipalities, and other local government stakeholders.
3. The Budget Forum approved a new and improved formula in February 2013 for use in the 2013 Budget.
4. The new LGES formula is being phased in over a five year period from 2013/14. The full phase-in of the new formula will be completed in 2017/18, the second year of the 2016 MTEF period. However, with some municipal boundaries changing at the time of the 2016 elections allocations will also be affected by this change.
5. Each year the formula needs to be updated to account for the following:
  - Growth in household numbers – the long period between censuses causes huge changes in allocations when new data is released. Changes in household numbers can have a particularly large impact as the largest component in the formula funds the provision of free basic services to all households with an income of less than two old age grants per month. The new formula is therefore designed to be updated annually for estimated growth in the number of households per municipality.
  - Updating the cost of providing basic services – incorporating forecasted CPI inflation and annual tariff increases in the bulk costs of water and electricity.
