Index Aristophaneus:

The Kierkegaard Indices Alastair McKinnon, 2024-09-02 **Power and Peril** Michael K.W. Suh, 2020-03-09 This study probes the significance of Paul's statement in 1 Corinthians 3:16 announced to a group of believers in Corinth: Do you not know that you are the temple of God and that the spirit of God dwells among you? The question is framed in the Greek language such that Paul expected an affirmative response: i.e. Yes, we know we are the temple of God and yet mapping such an idea onto a gathering of people is rather unprecedented in antiquity. By surveying relevant literary texts and material culture from the ancient Mediterranean (roughly 400 BCE–200 CE), the author shows how Paul appropriated the concept of temple in his exhortation to the Corinthians. A few key texts in 1 Corinthians can be read as a cohesive and coherent set of passages that unpack the idea of the Corinthians as the temple of God. While these passages are not typically read together, this study shows how themes such as power and spirit traditions from Exodus, divine benefits and sacrificial foods found in these passages reflect similar concerns observed in temples and other sanctuaries in ancient Greek, Roman and Jewish contexts. Careful analysis of the religious experience of visitors to temples, an important topic that remains largely ignored in secondary literature, gives greater clarity to the nuances of Paul's temple discourse. As the temple, the Corinthian community not only receives God's power and benefits but also remains vulnerable to peril posed by insiders and outsiders. **Indices in "Eustathii `Commentarios' Ad Homeri `Iliadem' Pertinentes Ad Fidem Codicis Laurentiani"** Editos a M. Van Der Valk, Helena Maria Keizer, 1995 This index volume to Van der Valk's edition of Eustathius' commentary on Homer's *Iliad* comprises indices of I proper names, II Greek words discussed in the commentary, III Eustathius' own vocabulary (both technical and non-technical), and IV his many sources. **Bibliotheca Britannica; Or, A General Index to British and Foreign Literature** Robert Watt, 1824 **Synopsis: An Annual Index of Greek Studies, 1993**, 3 Andrew D. Dimarogonas, 1998-10-28 Presents 12,860 entries listing scholarly publications on Greek studies. Research and review journals, books and monographs are indexed in the areas of classical, Hellenistic, Biblical, Byzantine, Medieval and modern Greek studies, but no annotations are included. After the general listings, entries are also indexed by journal, text, name, geography and subject. The CD-ROM contains an electronic version of the book. Sommerstein, 2002 This volume completes the twelve-volume series *The Comedies of Aristophanes* begun in 1980 and is comprised of comprehensive indexes to the preceding eleven volumes. The book is divided into three parts: I Texts and Passages, II Persons, and III General. *Bibliotheca Britannica; Or a General Index to British and Foreign Literature. By Robert Watt, M.D. in Two Parts: - Authors and Subjects*, 1824 **Mapping the Afterlife** Emma Gee, 2020-04-03 There are very few accounts of the afterlife across the period from Homer to Dante. Most traditional studies approach the classical afterlife from the point of view of its evolution towards the Christian afterlife. This book tries to do something different to

explore afterlife narratives in spatial terms and to situate this tradition within the ambit of a fundamental need in human psychology for the synthesis of soul or self and universe Drawing on the works of Homer Plato Cicero Virgil and Dante among others as well as on modern works on psychology cartography and music theory Mapping the Afterlife argues that the topography of the afterlife in the Greek and Roman tradition and in Dante reflects the state of scientific knowledge at the time of the various contexts in which we find it The book posits that there is a dominant spatial idiom in afterlife landscapes a journey vision paradigm the horizontal journey of the soul across the afterlife landscape and a synoptic vision of the universe Many scholars have argued that the vision of the universe is out of place in the underworld landscape However looking across the entire tradition we find that afterlife landscapes almost without exception contain these two kinds of space in one form or another This double vision of space brings the underworld as the landscape of the soul into contact with the scientific universe and brings humanity into line with the cosmos

Feasting & Fasting in Opera Pierpaolo Polzonetti, 2021-11-11 *Feasting and Fasting in Opera* shows that the consumption of food and drink is an essential component of opera both on and off stage In this book opera scholar Pierpaolo Polzonetti explores how convivial culture shaped the birth of opera and opera going rituals until the mid nineteenth century when eating and drinking at the opera house were still common Through analyses of convivial scenes in operas the book also shows how the consumption of food and drink and sharing or the refusal to do so define characters identity and relationships *Feasting and Fasting in Opera* moves chronologically from around 1480 to the middle of the nineteenth century when Wagner's operatic reforms banished refreshments during the performance and mandated a darkened auditorium and

absorbed listening The book focuses on questions of comedy pleasure embodiment and indulgence looking at fasting poisoning food disorders body types diet and social ethnic and gender identities in both tragic and comic operas from Monteverdi to Puccini Polzonetti also sheds new light on the diet Maria Callas underwent in preparation for her famous performance as Violetta the consumptive heroine of Verdi's *La traviata* Neither food lovers nor opera scholars will want to miss Polzonetti's page turning and imaginative book

Colleges in Controversy John W. Padberg, 1969 Padberg has written the first full length study of these colleges from their revival in 1815 to their suppression in 1880 Drawing almost exclusively on archival material not previously utilized Father Padberg places his study against the background of anti clericalism revolution the Second Empire and the first decade of the Third Republic

From War to Peace Kent D. Shifferd, 2014-01-10 The world's first peace organizations emerged in the 19th century and since that time anti war activism has progressed rapidly This illuminating book presents a realistic analysis of the extent to which the war system has infiltrated all aspects of Western culture and how it works to perpetuate war rather than promote peace Additionally the text describes the historically recent and still evolving parallel system of peace institutions The values and ideas that have grown out of peace activism offer a very real opportunity to outlaw war in the coming century just as slavery was abolished in the 19th century Instructors considering this book for use in a course may request an examination copy here

Platonis Phaedo Plato, 1863 **Collingwood on the Moral Principles of Art** Christopher Dreisbach, 2009 This book addresses the apparent contradiction in moral condemnation of good artworks Since there is no direct contradiction it must involve a third thing that connects aesthetic value and moral value A significant view about this third thing results from combining R G Collingwood's aesthetic and moral theories and articulating a theory of judgment on his behalf The view is that an artwork is aesthetically good if the artist fulfilled the moral duty to express emotion successfully Why this matters and how it fits into the larger conversation about morality and art round out this book's study **BOOK JACKET**

Text and Supertext in Ibsen's Drama Brian Johnston, 1989-01-01 Brian Johnston's approach to Ibsen now well known is unlike any other Johnston sees Ibsen's twelve realist plays as a single cyclical work the realist method of which hides a much larger poetic intention than has previously been suspected He believes that the cycle constitutes one of the major works of the European imagination comparable in scale to Goethe or Dante And he has shown Ibsen to be the heir to Romantic and Hegelian art and thought adapting this heritage to the circumstances of his own day This work demonstrates how the language and scene characters and props of the Ibsen dramas establish a bold and far reaching theatrical goal nothing less than an account of our biological and cultural identity in its multilayered totality Johnston argues that Ibsen's realist text while stimulating the appearance of nineteenth century life also objectively and precisely builds up an alternative image in which archetypal figures and situations from our cultural past repossess the realist stage Thus he sees the Ibsen strategy in his realist plays as twofold 1 the dialectical subversion of the nineteenth century reality presented in the plays and 2 the forced recovery of the archetypal

from the past in a procedure similar to James Joyce's in *Ulysses*. By supertext Johnston means a reservoir of cultural reference upon which Ibsen continuously drew in his realist work just as in his earlier poetic and historical dramas. Brian Johnston is Chief Editor of *Theater Three*. He is the author of *The Ibsen Cycle* and *To the Third Empire* and is Visiting Professor, Department of Drama, Carnegie Mellon University.
