Indonesia Under Suharto A Study In The Concentration Of Power:

Indonesia Under Suharto Nawaz B. Mody, 1980 **Recent Dissertations on Indonesia**, 1994 **From Majapahit and Sukuh to Megawati Sukarnoputri** Victor M. Fic, 2003

The central thesis of this book maintains that the need to preserve pluralism in Indonesia and the high price paid by its people anytime pluralism had been trampled upon in the past are the two essential aspects of their historical experience. This thesis is particularly relevant for the people of Indonesia today as they are grappling with the problems of national unity and transition to a modern pluralistic democracy. Two parts of this book articulate this thesis. Part I explains the origin of the Hindu Buddhist dualism during the Srivijaya and Sailendra periods in the VIII IX centuries AD. The process of Javanization then extended this dualism by incorporating into the new synthesis the indigenous ancestral and the Rsi cults during the Majapahit period, particularly under King Wuruki's rule from 1350 to 1389. This new pluralism was further extended by absorbing elements of the Kalang Palang culture and the Bhima cult, culminating in the grand synthesis of the core values of the Hindu Javanese culture as expressed by the iconography of Candi Sukuh erected in 1437. Two factors are identified as contributing to the decline and then demise of Majapahit in 1527: first, attempts by China to build its own system of dependencies in Southeast Asia by detaching from Majapahit its overseas territories and then its intervention in the dynastic rivalries in Java during the Paregreg civil war from 1400 to 1406; second, the penetration of Islam from the coastal areas of Majapahit into its heartland and the gradual establishment of its hegemony over the core values of the Hindu Javanese civilization. Part II of the book explores the interaction of Islam with the deeply rooted substratum of the Hindu Javanese values and then the absorption of Islam into a new synthesis and a higher form of pluralism forged during the long process of the Islamization of Java and the Javanization of Islam. This new pluralism was further enriched by incorporating various strands of Christianity during the colonial period. In its final form, this pluralism provided the social cohesion and the national ethos and consciousness which propelled Indonesia towards its statehood and independence in 1945, leading to the establishment of a secular state to accommodate the imperatives of this higher pluralism under the state doctrine of the Pancasila. The book then surveys the post-independence period to show how this pluralism fared under the successive regimes of Sukarno, Suharto, Habibie, Abdurrahman Wahid, and how it fares under Megawati Sukarnoputri today. The survey concludes on a sobering note that most of the problems experienced by these regimes had their roots in the violation of the pluralistic nature of the Indonesian society. In this context, there is little doubt that the continued attempts of some Islamic groups, mostly incited from abroad, to wage a jihad for the replacement of the existing secular state by an Islamic one would plunge the country into a civil war of the Paregreg type. These attempts might not succeed given the military's staunch commitment to the Pancasila and the secular state. However, the cost of thwarting them would be very high.

Oligarchic Cartelization in Post-Suharto Indonesia Boni Hargens,2021-12-20 Oligarchic Cartelization in Post Suharto Indonesia By Boni Hargens As detailed in Oligarchic Cartelization in Post Suharto Indonesia a few ruling individuals from party organizations overpowered Indonesia's post authoritarian representative democracy The legislative process of the 2017 Election Act was the case study employed to examine this assumption The underlying thinking was that there was a contest between wealth power oligarchy and participation power democracy The power of wealth controls the party and government institutions Notwithstanding the presence of participation power there was however no balance between wealth power and participation power because the formal control of politics was in the hands of party oligarchs This study is purposed to bridge the gap in knowledge by exploring how the party oligarchs maintain the policymaking reputedly using cartelized strategies to defend the status quo By employing the oligarchy and cartelization concepts the central question of this inquiry focused on how the party oligarchs mastered the policy process in post Suharto Indonesia Qualitative findings indicated that the party oligarchs engineered the legal process in parliament applying cartelized strategies to defend privileges they obtained from collusive interpenetrations with the state Understanding the oligarchic cartelization theoretical postulate is a fundamental step for party members to improve their performance in public offices The results of this study can also be a useful reference for pro democracy activists to defend the ontological essence of public participation in implementing representative democracy at an appropriate level

Media Power in Indonesia Ross Tapsell,2017-07-18 Indonesia is undergoing a process of rapid change with an affluent middle class due to hit 141 million people by 2020 While official statistics suggest that internet penetration is low over 70 million Indonesians have a Facebook account the fourth highest group in the world Jakarta is the Twitter capital of the world with more tweets per minute than any other city around the globe In the past ten years digitalisation of media content has enabled extensive concentration and conglomeration of the industry and media owners are wealthier and more politically powerful than ever before Digital media is a prominent place of contestation between large powerful oligarchs and citizens looking to bring about rapid and meaningful change This book examines how the political agencies of both oligarchs and netizens are enhanced by digitalisation and how an increasingly divergent society is being formed In doing so this book enters this debate about the transformations of society and power in the digital age

Political Power and Communications in Indonesia Karl D. Jackson,Lucian W. Pye,2023-11-10 Few general

books are currently available on Indonesia despite its enormous human and economic resources. Hence the importance of this book which offers the latest research of internationally respected scholars with extensive first hand experience in the archipelago. Their particular concern is with the realities of power and the patterns of communication in a society distinguished by both its poverty and its great potential. The contributors to the volume span a wide spectrum of viewpoints and present various interpretation of Indonesian society. Taken together however the essays support the thesis that Indonesia is a bureaucratic polity a political system in which power is hierarchically organized influence is monopolized by an official elite and individuals outside officialdom have little effect on events. These authorities examine in depth such subjects as the role of the military the impact of bureaucracy the importance of political parties the character of the mass media and the direction of economic development as well as other matters essential for an understanding of current development in the country. Political Power and Communications in Indonesia is addressed not only to students of Indonesia or specialists in comparative politics and political development but quite as directly to persons seeking basic information about an extremely interesting and complex society. Its broad coverage makes it a veritable handbook about how government functions in Indonesia. This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact. Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology. This title was originally published in 1978. Politics and the Media in Twenty-First Century Indonesia Krishna Sen, David Hill, 2010-11-01 Every political aspirant and activist knows the media are important But there is little agreement on how an increasingly diversified media operate in post authoritarian transitions and how they might promote or impede the pathways to a sustainable liberal democracy in the 21st century This book examines the role of the media during Indonesia's longest experiment with democratisation It addresses two important and related questions how is the media being transformed both in terms of its structure and content by the changing political economy of Indonesia after the fall of Suharto And what is the potential impact of this media in enabling or hampering the development of democracy in Indonesia The book explores the relation between the working of democratisation by examining the role of ethnic identity and nationalism increasingly cheaper and diversified means of media production challenging state monopolies of the media the reality of personalised and globalised media and the challenging of the connection between a free media and democracy by global capitalism and corporate control of the media The book argues that the dominant forces transforming Indonesia today did not arise from the singular point of Suharto's resignation but from a set of factors which are independent from but linked to Indonesia's internal politics and which shape its cultural industries

Ethnographies of Power Sharad Chari, Mark Hunter, Melanie Samson, Jennifer A Devine, Michael Ekers, Jennifer Greenburg, Bridget Kenny, Stefan Kipfer, Zachary Levenson, Alex Loftus, Ahmed Veriava, 2022-08-01 Working with key concepts from theorist and human geographer Gillian Hart this book argues for an ethnographic and geographic approach to critically engage contemporary political economic processes in the context of real world struggles

Ecological Imperialism, Development, and the Capitalist World-System Mariko Lin Frame, 2022-10-13 Two major trends are currently challenging the sustainability of human civilization extreme inequality and the ecological crisis This book argues that these are intrinsically linked by further exploring the complex relationships between global ecological crises neoliberal globalization orthodox development policies and imperialism Drawn from extensive theoretical historical policy and empirical research as well as fieldwork in Africa and Asia this book examines the

crucial characteristics of the capitalist world system and how it enables and drives ecological imperialism Neoliberal globalization has allowed for capital's unfettered access to and exploitation of Nature across the planet and neoliberal development policies have reinforced a contemporary form of ecological imperialism where the environments of the Global South are enclosed and exploited and local communities are dispossessed of their land and livelihoods Simultaneously resources from the Global South are funneled to the Global North in the form of consumer goods and ecologically unequal exchange while the profits from those resources are siphoned away to transnational corporations financiers and government elites This work traces the historical development of free market policies while also paying special attention to the role of Northern international financial institutions emerging economies the semi periphery and the often hidden role of international finance in ecological imperialism This volume will be of keen interest to scholars and students of political economy critical development studies environmental sociology and political ecology
