## **Internal Fixation In Osteoporotic Bone:**

*Internal Fixation in Osteoporotic Bone* Yuehuei An, 2011-01-01 Osteoporosis affects 28 million people in the United States alone. The need for stable internal fixation of this type of bone is paramount. Metabolic bone diseases such as osteoporosis, osteomalacia, hyperparathyroidism, and Paget's disease are usually associated with osteoporotic or soft skeleton, especially in the elderly patient. Orthopedic procedures in elderly patients are costly, and with the increasing age of the population, these costs will continue to escalate. Great challenges are often encountered when internal fixation is needed for fractures or osteotomies in osteoporotic bone. This book is designed to present both current clinical techniques and cutting edge knowledge in pre-clinical research on the internal fixation of osteoporotic bone. Orthopaedic Issues in Osteoporosis

Yuehuei H. An, 2002-09-30 Orthopaedic procedures in elderly patients are challenging and costly. As the population ages, these costs will continue to escalate. ORTHOPAEDIC ISSUES IN OSTEOPOROSIS weaves together theory and applications to provide the first reference available on the orthopaedic aspects of osteoporosis. The focus is on the management of patients who have Rockwood and Green's Fractures in Adults. Charles A. Rockwood, Robert W. Bucholz, Charles M. Court-Brown, James D. Heckman, Paul Tornetta, 2010. More than 80 of the world's foremost authorities provide comprehensive coverage of all bone and joint injuries, thoroughly discuss alternative methods for treating each injury, and present their own preferred methods. This edition has 33 new contributors and new chapters on principles of nerve injury and complex regional pain syndrome, psychological aspects of trauma, gunshot and wartime injuries, principles of mangled extremity management, amputations, limb salvage, reconstruction, principles of post-traumatic infections, principles of nonunions, and principles of malunions. A companion website contains the fully searchable text, an image bank, and videos of 25 surgical procedures.

**Management of Fractures in Severely Osteoporotic Bone** Karl Obrant, 2000-05-12.
