Light Action Amazing Experiments With Optics:

Light Action! Vicki Cobb, Josh Cobb, 2005 Allow the young people in your life to be the masters of light with optics the science of the future From the exciting experiments in this book they ll learn how to bend light around corners stop time with a pair of sunglasses pour light into their palms project a big screen image from a small TV fool a doorbell with a bike reflector plus dozens more experiments Once they get their heads and hands into optics their world will never look the same again

Lighter Side of Adaptive Optics Robert K. Tyson, 2009 Adaptive optics has been under development for well over 40 years It is an indisputable necessity for all major ground based astronomical telescopes and is the foundation for laser and wavefront sensor design *Lighter Side of Adaptive Optics* is a nontechnical explanation of optics the atmosphere and the technology for untwinkling the stars While interweaving a fictional romantic relationship as an analogy to adaptive optics and inserting satire humor and philosophical rants Tyson makes a difficult scientific topic understandable The why and how of adaptive optics has never been more enjoyable

What's the BIG Idea? Vicki Cobb, 2013-09-01 Why don t we feel the Earth move Why does an ice cube float Why can t you unscramble an egg Why can t we live forever These are all questions that a curious kid might ask In *What s the BIG Idea* renowned juvenile science educator Vicki Cobb answers these and other fascinating questions to help kids learn more about the world through the wonders of science A big idea is one that has no simple or easy answer and there are four big ideas in this book motion energy matter and life The motion of nonliving objects rolling balls falling stones the moon and stars seems so ordinary and familiar that most people take it for granted Matter on the other hand comes in so many different forms solids liquids gases metals nonmetals living material that it is hard to imagine anything that all matter has in common Energy is an idea that is in the news just about

every day yet most people couldn't tell you what the big idea of energy is And life what life is seems mind boggling and infinitely complicated How do we bend our brains around it Scientists learn by asking questions And this book now in paperback is designed to make young readers stop and think about each of the questions before reading what scientists have learned that answers each question They'll be able to do simple things to see for themselves and they will build their own scientific knowledge in the process By the time they've finished this book they'll get the big picture of what science is all about

On the Same Page Janet Allen, 2024-11-01 Maya Angelou says Words mean more than what is set down on paper It takes the human voice to infuse them with the shades of deeper meaning On the Same Page celebrates the use of our voices in shared reading with students to help them gain deeper understanding of the texts we read If you have enjoyed the increased engagement and motivation that accompany reading with your students and wondered how to extend those benefits throughout the day this book offers support for using this approach as a foundation for learning across content areas On the Same Page explores the use of shared reading as an instructional approach for readers and writers at all levels of language proficiency Janet Allen provides research resources practical ideas and strategies for building from shared reading to increase students' literate experiences in a variety of curricular and instructional areas strategic reading and comprehension building background knowledge for content literacy personal academic and public writing transitions to independent reading community knowledge and literature circles increased vocabulary modeled fluency On the Same Page is enriched with a wide range of student work as well as extensive appendices of additional resources graphic organizers suggested reading lists and teaching guides for implementation of shared reading in your classroom
