**Material Cultures of Psychiatry** Monika Ankele, Benoît Majerus, 2020-10-08 In the past our ideas of psychiatric hospitals and their history have been shaped by objects like straitjackets cribs and binding belts These powerful objects were often used as a synonym for psychiatry and the way psychiatric patients were treated yet very little is known about the agency of these objects and their appropriation by staff and patients By focusing on material cultures this book offers a new perspective on the history of psychiatry it enables a narrative in which practicing psychiatry is part of a complex entanglement in which power is constantly negotiated Scholars from different academic disciplines show how this material based approach opens up new perspectives on the agency and imagination of men and women inside psychiatry

Strong, 2021-04-27 A fascinating examination of the role of lighting in ancient Egyptian culture Artificial lighting is one of the earliest tools used by humans By the time we began to paint cave walls we were producing lamps consisting of an illuminant a fat or oil and a wick such as a strip of fabric or a piece of reed or wood Drawing on archaeological textual and iconographic sources Meghan Strong examines the symbolic part that artificial lighting played in religious economic and social spheres in ancient Egyptian culture From the earliest identifiable examples of lighting devices to the infiltration of Hellenistic lamps in the seventh century BC Sacred Flames explores the sensory experience of illumination in ancient Egypt the shadows sheen color and movement that resulted when lighting interacted with different spaces and surfaces The soft flickering light from lamps or hand held lighting devices not only facilitated the navigation of darkened environments such as allowing workers to see in underground chambers in the Valley of the Kings or served as temple offerings but also impacted upon the viewer's perception of a space and the objects within it Sacred Flames illustrates the active role that lighting played in Egyptian society providing a richer understanding of the symbolic and social value of artificial light and the role of lighting in ritual space and performance in ancient Egyptian culture while serving as a case study of the broader impact of artificial light in the ancient world     Nordic Literature Steven P.
