**Truth** ,1885      **Truth before Logic** Michael B. Mitchell,2024-09-13 Truth before Logic explores the provocative implications of the claim that you can only find truth with logic if you have already found truth without it Chesterton counters the sterile truncated worldview of scientism with an appeal to a deep awareness in the heart and mind without which there would be neither science nor religion He stirs a buried awareness of the lucid but inarticulate truth that romance is the deepest thing in life and counters a myopic materialism by making us more aware of the reality that racks the soul with something of which God keeps the secret but which is stronger than sorrow or joy Few voices will be more helpful in enabling the contemporary reader to understand science within the full scope of human experience Chesterton s insights are an antidote to the soul atrophy that results from scientism and a ballast of sanity in a confidently confused world      Drive Like an Action Hero Craig Hinkle,2016-06-28 Drive like An Action Hero tells the story from the moment Craig passed his permit test to the life changing accident and citation that forever altered his attitude toward driving His tales of male bravado behind the wheel show the one area in his life he thought he was better than the law After years of creative adventures and over the top driving escapades he was forced to re examine himself and re evaluate the way he treated his car other people and the law      *Knowing from the Inside* Tim Ingold,2022-02-24 Knowledge comes from thinking with from and through things not just about them We get to know the world around us from the inside of our being in it Drawing on the fields of anthropology art architecture and education this book addresses what knowing from the inside means for practices of teaching and learning If knowledge is not transmitted ready made independently of its application in the world but grows from the crucible of our engagements with people places and materials then how can there be such a thing as a curriculum What forms could it take And what could it mean to place such disciplines as anthropology art and architecture at the heart of the curriculum rather than as at present on the margins In addressing these questions the fifteen distinguished contributors to this volume challenge mainstream thinking about education and the curriculum and suggest experimental ways to overcome the stultifying effects of current pedagogic practice      **Himalaya** Ruskin Bond,2018-06-05 Intimate exhilarating writings on adventure meditation and life in the captivating wildness of the Himalayan Mountains with contributions from Amitav Ghosh Mark Twain Rabindranath Tagore Peter Matthiessen and more For some the Himalaya is a frontier against which people test themselves Others find refuge and tranquility in the mountains a place where they can seek their true selves perhaps even God Over millennia the mountains have cradled civilization itself and nurtured teeming irrepressible life With over thirty essays this exhilarating anthology offers a dazzling range of voices that reveal accounts of great ascents and descents from reflecting on a deadly avalanche to searching for a snow leopard and enjoying the simple pleasure of riding a handcar down a railway track These diverse writings bring to life the spirit of the Himalaya in an unparalleled panorama Contributors include Amitav Ghosh Mark Twain Rabindranath Tagore Peter Matthiessen Edmund
