Lillian Wald Marjorie N. Feld, 2012-09-01 Founder of Henry Street Settlement on New York's Lower East Side as well as the Visiting Nurse Service of New York Lillian Wald 1867-1940 was a remarkable social welfare activist She was also a second generation German Jewish immigrant who developed close associations with Jewish New York even as she consistently dismissed claims that her work emerged from a fundamentally Jewish calling Challenging the conventional understanding of the Progressive movement as having its origins in Anglo Protestant teachings Marjorie Feld offers a critical biography of Wald in which she examines the crucial and complex significance of Wald's ethnicity to her life's work In addition by studying the Jewish community's response to Wald throughout her public career from 1893 to 1933 Feld demonstrates the changing landscape of identity politics in the first half of the twentieth century Feld argues that Wald's innovative reform work was the product of both her own family's experience with immigration and assimilation as Jews in late nineteenth century Rochester New York and her encounter with Progressive ideals at her settlement house in Manhattan As an ethnic working on behalf of other ethnics Wald developed a universal vision that was at odds with the ethnic particularism with which she is now identified These tensions between universalism and particularism assimilation and group belonging persist to this day Thus Feld concludes with an exploration of how after her death Wald's accomplishments have been remembered in popular perceptions and scholarly works For the first time Feld locates Wald in the ethnic landscape of her own time as well as ours **Progressive Inequality** David Huyssen, 2014-03-10 The Progressive Era has been seen as a seismic event that reduced the gulf between America's rich and poor Progressive Inequality cuts against the grain of this view showing how initiatives in charity organized labor and housing reform backfired reinforcing class biases especially the notion that wealth derives from individual merit No Place Like Home Karen Buhler-Wilkerson, 2003-04-30 Winner of the Lavinia Dock Award from the American Association for the History of Nursing Honorable Mention for the Association of American Publishers Professional Scholarly Publishing Awards in Nursing and Allied Health No Place Like Home sets out to determine why home care despite its potential as a cost effective alternative to institutional care remains a marginalized experiment in care giving Nurse and historian Karen Buhler Wilkerson traces the history of home care from its nineteenth century origins in organized visiting nurses associations through a time when professional home care nearly disappeared on

to the 1960s when a new wave of home care gathered force as physicians hospital managers and policy makers responded to economic mandates Buhler Wilkerson links local ideas about the formation and function of home based services to national events and health care agendas and she gives special attention to care of the dangerous sick particularly poor immigrants with infectious diseases and the uninteresting sick those with chronic illnesses *American Social Leaders and Activists* Neil A. us all the way to 1920 and the ratification of the Nineteenth Amendment which granted women the right to vote and which Sinha calls the last Reconstruction amendment Within this grand frame Sinha narrates the rise and fall of what she calls the Second American Republic The Reconstruction of the South a process driven by the alliance between the formerly enslaved at the grassroots and Radical Republicans in Congress is central to her story but only part of it As she demonstrates the US Army s conquest of Indigenous nations in the West labor conflict in the North Chinese exclusion women s suffrage and the establishment of an overseas American empire were all part of the same struggle between the forces of democracy and those of reaction The main concern of Reconstruction was the plight of the formerly enslaved but its fall affected other groups as well women workers immigrants and Native Americans From the election of black legislators across the South in the late 1860s to the Great Railroad Strike of 1877 to the colonial war in the Philippines in the 1890s Sinha narrates the major episodes of the era and introduces us to key individuals famous and otherwise who helped remake American democracy or whose actions spelled its doom A sweeping narrative that remakes our understanding of perhaps the most consequential period in American history The Rise and Fall of the Second American Republic shows how the great contest of that age is also the great contest of our age and serves as a necessary reminder of how young and fragile our democracy truly is
