The Mind's Eye Jeffrey F. Hamburger, Anne-Marie Bouché, 2006 *The Mind's Eye* focuses on the relationships among art, theology, exegesis, and literature issues long central to the study of medieval art yet ripe for reconsideration. Essays by leading scholars from many fields examine the illustration of theological commentaries, the use of images to expound or disseminate doctrine, the role of images within theological discourse, the development of doctrine in response to images, and the place of vision and the visual in theological thought. At issue are the ways in which theologians responded to the images that we call art and in which images entered into dialogue with theological discourse. In what ways could medieval art be construed as argumentative in structure as well as in function? Are any of the modes of representation in medieval art analogous to those found in texts? In what ways did images function as vehicles, not merely vessels, of meaning and signification? To what extent can exegesis and other genres of theological discourse shed light on the form as well as the content and function of medieval images? These are only some of the challenging questions posed by this unprecedented and interdisciplinary collection, which provides a historical framework within which to reconsider the relationship between seeing and thinking, perception and the imagination in the Middle Ages.

The Oxford Handbook of Vatican II Catherine E. Clifford, Massimo Faggioli, 2023-01-19 *The Oxford Handbook of Vatican II* is a rich source of information and reflections on many aspects of the Second Vatican Council, 1962-1965, one of the most significant religious events of the twentieth century. The chapters introduce readers to the historical context and outstanding features of the conciliar event and its principal teachings on Scripture and Tradition, the church, liturgy, religious liberty, ecumenism, interreligious dialogue, church-world relations, and mission. Consideration is given to some neglected aspects of the council, including the forgotten papal speeches that lay out its fundamental orientation and ought to guide its interpretation, the presence and contributions of women, and the non-reception of the council among Catholic traditionalists. Ecumenical scholars reflect on the significance of Vatican II for the life of other Christian churches, and the search for Christian unity; others examine Catholic dialogue with other religious traditions. Surveying the diverse receptions of the council in the perspective of a world church, chapters focusing on Asia, Africa, Latin America, North America, Oceania, and Europe reflect on the interpretation and influence of the council and its teaching on the life of the church in diverse cultural contexts. This Handbook will serve as a valuable guide to one of the most important events and bodies of Catholic teaching since the Protestant Reformation and the Council of Trent in the sixteenth century to the interpretation of the council's teaching and to its continuing role in guiding the life of the church in the twenty-first century.

[The Routledge Companion to Medieval Iconography](#) Colum Hourihane, 2016-12-19 Sometimes enjoying considerable favor, sometimes less, iconography has been an essential element in medieval art historical studies since the beginning of the discipline. Some of the greatest art historians, including M. Le Warburg, Panofsky, Morey, and Schapiro, have devoted their lives to understanding and structuring what exactly the subject matter of a work of medieval art can tell. Over the last thirty or so years, scholarship has

seen the meaning and methodologies of the term considerably broadened This companion provides a state of the art assessment of the influence of the foremost iconographers as well as the methodologies employed and themes that underpin the discipline The first section focuses on influential thinkers in the field while the second covers some of the best known methodologies the third and largest section looks at some of the major themes in medieval art Taken together the three sections include thirty eight chapters each of which deals with an individual topic An introduction historiographical evaluation and bibliography accompany the individual essays The authors are recognized experts in the field and each essay includes original analyses and or case studies which will hopefully open the field for future research

The Religious Figural Imagery of Byzantine Lead Seals II John A. Cotsonis, 2020-03-19 The articles republished in this volume are ground breaking studies that employ a large body of religious figural imagery of Byzantine lead seals ranging from the 6th to the 15th century A number of the studies present tables charts and graphs in their analysis of iconographic trends and changing popularity of saintly figures over time And since many of the seals bear inscriptions that include the names titles or offices of their owners information often not given for the patrons of sacred images in other media these diminutive objects permit an investigation into the social use of sacred imagery through the various sectors of Byzantine culture the civil ecclesiastical and military administrations The religious figural imagery of the lead seals accompanied by their owners identifying inscriptions offers a means of investigating both the broader visual piety of the Byzantine world and the intimate realm of their owners personal devotions Other studies in the volume are devoted to rare or previously unknown sacred images that demonstrate the value of the iconography of Byzantine lead seals for Byzantine studies in general This volume includes various articles focusing on sphragistic images of saints and on the religious imagery of Byzantine seals as a means of investigating the personal piety of seal owners as well as the wider realm of the visual piety and religious devotions of Byzantine culture at all levels A companion volume includes studies dedicated to the image of Christ primarily found on imperial seals various images of the Virgin and narrative or Christological scenes CS1086

Spectacular Miracles Jane Garnett, Gervase Rosser, 2013-06-15 Winner of the ACE Mercers Book Award 2014 *Spectacular Miracles* confronts an enduring Western belief in the supernatural power of images that a statue or painting of the Madonna can fly through the air speak weep or produce miraculous cures Although contrary to widely held assumptions the cults of particular paintings and statues held to be miraculous have persisted beyond the middle ages into the present even in a modern European city such as Genoa the primary focus of this book Drawing upon rich documentation from northwest Italy and elsewhere *Spectacular Miracles* shows how these images work in a range of historical contexts Jane Garnett and Gervase Rosser vividly evoke ritual animation of the image and the phenomenology of the beholder's experience These images they demonstrate have the subversive potential of the miraculous image to bypass clerical and secular authority a power enhanced by reproducibility devotion is hard to control when a copy of a venerated image is held to carry the same supernatural potential as the original

even when in a digital form mediated by the Internet Engaging with the history anthropology and visual culture of images and religion Spectacular Miracles is a convincing study of the continuing power of faith and art

L'image dans tous ses états Marie-Hélène Barthélémy, Annie Bourgeois, 1997-01-01 T00:00:00+01:00 Ils ne savent plus lire plus lire et plus crier Et le professeur de s'indigner une fois encore de l'ignorance de ses élèves L'indignation n'est pas nouvelle mais aujourd'hui le constat est souvent sûr Au reste pourquoi les élèves devraient-ils savoir lire et crier dans un monde où l'on lit de moins en moins La télévision la radio le téléphone l'image et le son radiophonique deviennent les moyens de communication privilégiés et ces nouveaux langages ne s'apprennent pas du moins pas l'école en dépit des recommandations officielles La carence est lourde de conséquences si l'on refuse d'apprendre aux élèves des langages auxquels ils sont confrontés quotidiennement pourquoi devrait-on exiger d'eux l'apprentissage du discours littéraire qui leur est beaucoup plus étranger Conçu pour répondre à la nécessité de promouvoir l'enseignement de l'image cet ouvrage traite du vocabulaire de l'image et plus spécifiquement de la bande dessinée Elle est un sujet d'étude privilégié dans le cadre de notre réflexion puisqu'elle met en œuvre l'image et le verbe Même si nous ne sommes pas les premiers à parler de la bande dessinée il faudra encore user de beaucoup d'encre pour faire comprendre toute la richesse et toute la diversité de ce moyen d'expression Que de fois journalistes critiques littéraires ou cinématographiques affirment-ils que c'est une vraie BD pour parler de tout autre chose que de la bande dessinée Existe-t-il une vraie BD qui suffirait à circonscrire le genre Il s'agit aussi à travers ce travail de replacer la bande dessinée dans un ensemble plus vaste Depuis très longtemps dessinateurs et peintres créent des images tandis que parallèlement la bande dessinée et le cinéma sont imposés de façon beaucoup plus massive dans l'univers culturel contemporain

Picture as Spectre in Diderot, Proust, and Deleuze Thomas Baldwin,2017-12-02 The possibility of ekphrasis the verbal representation of visual imagery is fundamental to all writing about art be it art criticism theory or a passage in a novel But there is no consensus concerning how such representation works Some take it for granted that writing about art can result in a precise match between words and visual images For others ekphrasis amounts to a kind of virtuoso rivalry in which the writer aims to outdo the pictorial image that is being described In close readings of Diderot Proust and Deleuze Thomas Baldwin shows how ekphrasis can create a spectral effect In other words ekphrastic spectres do not function as fully present stand ins for given works of art nor can they be reduced to the status of passive and absent others Baldwin also explores the ways in which the works of Diderot Proust and Deleuze inhabit each other as ghostly influences *Thinking Revolution Through Film* Hanno Berger,2022-09-20 This book aims to redefine the relationship between film and revolution Starting with Hannah Arendt s thoughts on the American and French Revolution it argues that from a theoretical perspective revolutions can be understood as describing a relationship between time and movement and that ultimately the spectators and not the actors in a revolution

decide its outcome Focusing on the concepts of time movement and spectators this study develops an understanding of film not as a medium of agitation but as a way of thinking that relates to the idea of historicity that opened up with the American and French Revolution a way of thinking that can expand our very notion of revolution The book explores this expansion through an analysis of three audiovisual stagings of revolution Abel Gance s epic on the French Revolution Napol on Warren Beatty s essay on the Russian Revolution Reds and the miniseries John Adams about the American Revolution The author thereby offers a fresh take on the questions of revolution and historicity from the perspective of film studies **The Saturated Sensorium** Henning Laugerud,Hans Henrik Lohfert Jørgensen,Laura Katrine Skinnebach,2015-06-30 The Saturated Sensorium is a book about the senses and their media in the Middle Ages a book about what it meant to sense and perceive something The book highlights the integrated and unified nature of medieval senses and media It discusses the inter and multi mediality of cultic and cultural artefacts as well as the sensorial and inter sensorial dimensions of a wide array of cultural concepts and practices within medieval religion art archaeology architecture literature music food social life ritual devotion cognition and memory These domains of sensory and media history are dealt with not as isolated anthology articles in only loose connection with one another but as coordinate and comparative chapters of a coherent book each covering a principal branch of the cultural history of the medieval senses Across a number of academic disciplines specialists address the interdisciplinary and compound character of visus sight auditus hearing tactus touch olfactus smell and gustus taste showing that there was far more to the senses and to sense experience than these five classical Aristotelian categories might suggest A plentiful variety of sensory modes interacted crossed and permeated each other in mutually entangled and braided ways The saturated sensorium nurtured the sacred and secular practices of mediation representation and consumption the embodied and mental concepts of sanctity memory and imagery the physical and spiritual spaces of environment cult and burial the material and visual culture of sacraments sensation and incarnation Staat und Staatlichkeit in Der Frühen Römischen Republik Carmine Ampolo,1990 Aus dem Inhalt W Eder Der Buerger und sein Staat Der Staat und seine Buerger Eine Einleitung Sektion I Politik und Religion mit Beitr gen von Jerzy Linderski Paul M Martin Mario Torelli Sektion II Quellen und Quellenkritik mit Beitr gen von Juergen von Ungern Sternberg RonaldT Ridley Gabriella Poma Elizabeth Rawson Jean Claude Richard Wilhelm Kierdorf Sektion III Interdisziplin re und vergleichende Methoden mit Beitr gen von Jochen Martin Ed ward Ch L van der Vliet J rgen C Meyer Robert W Wallace Sarah C Humphreys Sektion IV Recht und Verfassung mit Beitr gen von Leo Peppe Giuliano Crif Dieter Timpe Hartmut Galsterer Sektion V Magistratur und Gesellschaft mit Beitr gen von Adalberto Giovannini Karl Joachim H lkeskamp Ernst Badian Sektion VI Wirtschaft Expansion und innere Entwicklung mit Beitr gen von Carmine Ampolo William V Harris Kurt Raaflaub Literaturverzeichnis Quellenverzeichnis Index geographischer Begriffe Index antiker Namen Index moderner Autoren Shakespeare on screen : Macbeth Sarah HATCHUEL,Nathalie VIENNE-GUERRIN,Victoria BLADEN,2013-12-20 This addition to the Shakespeare on Screen series
