Withrow, 2021-01-28 We live in an age of enormous and rapid change but how do people organisations even whole cultures and societies change And where is God in such transformations For more than a hundred years anthropology has taught us that entering a chaotic awesome and fraught threshold or liminal space is fundamental to our renewal as human beings Yet none of us goes willingly into such places We need to be held in liminal movement so that it is safe enough to change Crossing Thresholds is the first interdisciplinary theological treatment of the universal phenomenon of liminality Developing practical wisdom from foundations in the work of Victor Turner Donald Winnicott and Bruce Reed the authors explore the place of liminality in the worship mission and hermeneutics of the Church and reflect on its usefulness to a wide range of Christian practice For all those who strive to think theologically about the great transitions of life this comprehensive work offers unique insight into what it is to safely cross the threshold of chaos and embrace the future with courage

Philosophy Across Borders Emma Ingala, Gavin Rae, 2024-11-14 This book brings into conversation geographically diverse theorists to question the meaning purpose and place of conceptual borders in philosophy It shows how contemporary theory is constituted by a dynamic

practice in which the boundaries created to define it are simultaneously overcome in their establishment. Philosophy has often taken itself to be distinguished from and superior to alternative ways of thinking. To do so, philosophical thinking has found itself rigidly affirming the need to think within borders to obtain conceptual clarity and certainty and to secure its own independent existence. The chapters in this volume call into question the need to retreat behind demarcated boundaries that mark the domain of philosophy proper to instead offer a performative account of how philosophy can creatively work across geographical, cultural, linguistic borders without foreclosing that analysis conceptually. In so doing, the contributors tackle issues including the historical establishment of philosophical borders, the metaphysics of philosophical borders, the relationship between Western and non-Western thinking, the ethics of transgressing borders, and the political implications of Western rationality on and for non-Western societies. *Philosophy Across Borders* will therefore be of interest to scholars and advanced students working in philosophy, aesthetics, critical theory, comparative philosophy, cultural studies, feminist theory, history of ideas, political theory, and postcolonial studies.

Listening for the Soul Jean Stairs, This book explores the relationship between the practices of pastoral care and the practices of spiritual direction with the aim of enabling pastoral caregivers to draw upon the guiding principles, resources, and techniques of spiritual direction within the Christian tradition. With an emphasis on both practice and presence, the book reclaims the tradition of soul care for the pastoral ministry, thereby complementing the medical or crisis intervention model of pastoral care with a wellness growth model of pastoral care. *Listening for the Soul* challenges clergy to take seriously the relationship between pastoral care and spiritual direction. Integrates theological and psychological insights with issues of spiritual life and formation. Includes a chapter on the spiritual formation of children. Provides practical guidance for integrating spiritual direction with pastoral care. Tends to the pastoral caregivers' own needs for spiritual deepening. Includes reflection questions and case studies to enable the text to function on both the individual reader and classroom levels.

Making Sense of Motherhood Beth M. Stovell, 2016-02-02 Motherhood provides a crucial place for exploring human life and its meaning. Within motherhood lies a deep tension between the pain, crisis, and association with death in motherhood and the joy, transformation, and life in motherhood. Few metaphors in Scripture or in life stand so firmly between life and death, love and loss, and joy and deep pain. After all, motherhood's meaning in part comes again and again at these crucial crossroads. Thus, motherhood has powerful implications for our biblical and theological understanding. Bringing together Jewish and ecumenical Christian scholars from North America, Oceania, and South America, this edited volume provides biblical and theological perspectives on understanding motherhood. The authors reflect upon a selection of biblical texts, systematic theologians, and Christian spiritual traditions to dialogue with the experience of maternity in its diverse manifestations. The purpose of the book is to provide essays that, through these biblical and theological lenses, engage the question of motherhood today, from the experience of pregnancy and birth to raising children to losing children and coping with grief. In this way, this volume helps to make sense of the complexity of motherhood.
