## **Limits To Union Same Sex Marriage Poli:**

**Transgender Rights and Politics** Jami Kathleen Taylor, Donald P. Haider-Markel, 2014-10-14 A theoretically grounded and methodically sophisticated empirical analysis of transgender politics      **Legally Straight** Joe Rollins, 2018 Argues that cultural conceptions of children and childhood played a key role in legalizing gay marriage Legally Straight offers a critical reading of the legal debates over lesbian and gay marriage in the United States The book draws on key judicial opinions to trace how our understanding of heterosexuality and marriage has changed Upon closer inspection it seemed that the cultural value of marriage was becoming tarnished and the trouble appeared to center on one very specific issue reproduction As opponents of lesbian and gay marriage emphasized the link between marriage and accidental pregnancy the evidence mounted the arguments proliferated and resistance began to turn against itself Heterosexuality it seemed for a moment was little more than a set of palliative prescriptions for the worst of human behavior and children became the victims It thus became the province of the courts to reinforce the cultural value of marriage by resisting what came to be known as the procreation argument the assertion that marriage exists primarily to regulate the unruly aspects of heterosexual reproduction Cultural conceptions of children and childhood were being put at risk as gays and lesbians were denied marriage so that writing lesbian and gay families into the marriage law became the better option      Courts Liberalism And Rights Jason Pierceson, 2005-10-02 In the courts the best chance for achieving a broad set of rights for gays and lesbians lies with judges who view liberalism as grounded in an expansion of rights rather than a constraint of government activity At a time when most gay and lesbian politics focuses only on the issue of gay marriage Courts Liberalism and Rights guides readers through a nuanced discussion of liberalism court rulings on sodomy laws and same sex marriage and the comparative progress gays and lesbians have made via the courts in Canada As debates continue about the ability of courts to affect social change Jason Pierceson argues that this is possible He claims that the greatest opportunity for reform via the judiciary exists when a judiciary with broad interpretive powers encounters a political culture that endorses a form of liberalism based on broadly conceived individual rights not a negative set of rights to be held against the state but a set of rights that recognizes the inherent dignity and worth of every individual      Asian American Feminisms and Women of Color Politics Lynn Fujiwara, Shireen Roshanravan, 2018-12-04 Asian American Feminisms and Women of Color Politics brings together groundbreaking essays that speak to the relationship between Asian American feminisms feminist of color work and transnational feminist scholarship This collection featuring work by both senior and rising scholars considers topics including the politics of visibility histories of Asian American participation in women of color political formations accountability for Asian American settler complicities and cross racial solidarities and Asian American community based strategies against state violence as shaped by and tied to women of color feminisms Asian American Feminisms and Women of Color Politics provides a deep conceptual intervention into the theoretical underpinnings of Asian American studies ethnic studies women s

**Bisexuality and Same-Sex Marriage** M. Paz

Galupo, 2014-06-03 In our society the argument for or against same sex marriage becomes even more heated when the debate turns to bisexual women and men Bisexuality and Same Sex Marriage thoughtfully explores this debate from a wide range of interdisciplinary perspectives presenting respected scholars from fields as diverse as American Studies Communication Criminology Human and Organizational Systems Law and Social Policy LGBT Studies Organizational Behavior Psychology Sociology Women s Studies and Queer Studies This clear viewed volume is organized into three perspectives theoretical research and personal that frame the debate from a macro to micro level of analysis This book goes beyond the intense acrimony and divisiveness to rationally examine the issue from various viewpoints and through the latest research This informative text presents and analyzes in depth the current findings and the diverse LGBT and straight perspectives on the issue This insightful resource discusses in detail personal views the latest theories and is extensively referenced Bisexuality and Same Sex Marriage is an essential volume for LGBT studies professionals psychologists counselors educators students and interested general public This book was published as a special issue of the Journal of Bisexuality New York Law Journal Digest-annotator ,2002 Political Institutions and Lesbian and Gay Rights in the United States and Canada Miriam Smith, 2008-08-18 This book examines why the US and Canada have produced such divergent policy outcomes in affording rights to their gay and lesbian citizens Smith s contribution will prove vital as movements for lesbian and gay rights continue to recast the social landscape in North America and beyond Elite-Led Mobilization and Gay Rights Benjamin George Bishin, Thomas Joseph Hayes, Matthew Benjamin Incantalupo, Charles Anthony Smith, 2021-09-14 Media and scholastic accounts describe a strong public opinion backlash a sharply negative and enduring opinion change against attempts to advance gay rights Academic research however increasingly questions backlash as an explanation for opposition to LGBT rights Elite Led Mobilization and Gay Rights argues that what appears to be public opinion backlash against gay rights is more consistent with elite led mobilization a strategy used by anti gay elites primarily white evangelicals seeking to prevent the full incorporation of LGBT Americans in the polity in order to achieve political objectives and increase political power This book defines and tests the theory of Mass Opinion Backlash and develops and tests the theory of Elite Led Mobilization by employing a series of online and natural experiments surrounding the U S Supreme Court rulings in Obergefell v Hodges and United States v Windsor and President Obama s position change on gay marriage To evaluate these theories the authors employ extensive survey voting behavior and campaign finance data and examine the history of the LGBT movement and its opposition by religious conservatives from the Lavender Scare to the campaign against Trans Rights in the defeat of Houston s 2015 HERO ordinance Their evidence shows that opposition to LGBT rights is a top down process incited by anti gay elites rather than a bottom up reaction described by public opinion backlash *Gender and Sexuality Diversity in a Culture of Limitation* Tania Ferfolja, Jacqueline Ullman, 2020-05-10 Gender

and Sexuality Diversity in a Culture of Limitation provides an outstanding and insightful critique of the ways that contemporary education is impacted by a range of political social and cultural influences that inform the approaches that schools take in relation to gender and sexuality diversity By applying feminist poststructural and Foucauldian frameworks the book examines the ongoing impact of broader socio cultural discourse on the lives of gender and sexuality diverse students and teachers Beginning with an overview of the impact of how a culture of limitation is realised in Australia the focus moves beyond this context to examine state and federal policies from comparable societies in countries including the USA and the UK and their effect on the production of knowledges and what s permissible to include in educational curriculum This research driven book thus provides a comparative international overview of the current state of gender and sexuality diversity in schools and convincingly demonstrates that despite some empowerment of gender and sexuality diverse individuals silencing and marginalization remain powerful forces This book will be of great interest to graduate and postgraduate students academics professionals and policy makers interested in the field of gender and sexuality in education It is essential reading for those involved in pre service and in service teacher education diversity education the sociology of education as well as education more generally

**The Cambridge Companion to Gender and the Law** Stéphanie Hennette Vauchez, Ruth Rubio-Marín, 2023-01-26 To what extent is the legal subject gendered Using illustrative examples from a range of jurisdictions and thematically organised chapters this volume offers a comprehensive consideration of this question With a systematic accessible approach it argues that law and gender work to co produce the legal subject Cumulatively the volume s chapters provide a systematic evaluation of the key facets of the legal subject the corporeal the functional and the communal Exploring aspects of the legal subject from the ways in which it is sexed and sexualised to its national and familial dimensions this volume develops a complete account of the various processes through which legal orders produce gendered subjects Across its chapters each theoretically ambitious in its own right this volume outlines how the law not only acts on the social world but genders it

**Raised Right** Jeffrey R. Dudas,2017-03-21 How has the modern conservative movement thrived in spite of the lack of harmony among its constituent members What and who holds together its large corporate interests small government libertarians social and racial traditionalists and evangelical Christians *Raised Right* pursues these questions through a cultural study of three iconic conservative figures National Review editor William F Buckley Jr President Ronald Reagan and Supreme Court Justice Clarence Thomas Examining their papers writings and rhetoric Jeffrey R Dudas identifies what he terms a paternal rights discourse the arguments about fatherhood and rights that permeate their personal lives and political visions For each paternal discipline was crucial to producing autonomous citizens worthy and capable of self governance This paternalist logic is the cohesive agent for an entire conservative movement uniting its celebration of founding fathers past and present constitutional and biological Yet this discourse produces a paradox When do authoritative fathers transfer their rights to these well raised citizens This duality propels conservative politics forward with unruly results The mythology of these American fathers gives conservatives something and someone to believe in and therein lies its timeless appeal
