L'inavouable

La France au Rwanda

les arènes

Des soldats de notre pays ont formé,
sur ordre, les tueurs du génocide tutsi.

Nous les avons armés, encouragés
et, le jour venu, exfiltrés.

J'ai découvert cette histoire malgré moi,
dans les collines rwandaises.

Il faisait chaud, c'était l'été.
Il faisait beau, c'était magnifique.

C'était le temps du génocide.

Linavouable La France Au Rwanda:

Writing and Filming the Genocide of the Tutsis in Rwanda Alexandre Dauge-Roth, 2010-04-27 Writing and Filming the Genocide of the Tutsis in Rwanda Dismembering and Remembering Traumatic History is an innovative work in Francophone and African studies that examines a wide range of responses to the 1994 genocide of the Tutsis in Rwanda From survivor testimonies to novels by African authors to films such as Hotel Rwanda and Sometimes in April the arts of witnessing are varied comprehensive and compelling Alexandre Dauge Roth compares the specific potential and the limits of each medium to craft unique responses to the genocide and instill in us its haunting legacy In the wake of genocide urgent questions arise How do survivors both claim their shared humanity and speak the radically personal and violent experience of their past How do authors and filmmakers make inconceivable trauma accessible to a society that will always remain foreign to their experience How are we transformed by the genocide through these various modes of listening viewing and reading ,

A People Betrayed Linda Melvern, 2019-03-15 Events in Rwanda in 1994 mark a landmark in the history of modern genocide Up to one million people were killed in a planned public and political campaign In the face of indisputable evidence the UN Security Council failed miserably in its response In this classic of investigative journalism Linda Melvern tells the compelling story of what really happened revealing both the scale speed and intensity of the unfolding genocide as well as exposing the governments and individuals who could have prevented what was happening if they had chosen to act The book also tells the unrecognised heroism of those who stayed on during the genocide from volunteer peacekeepers to courageous NGO workers Twenty five years on from one of the darkest episodes in modern history A People Betrayed is a shocking indictment of how Rwanda was ignored then and how today it is remembered in the West A History of Rwanda Klaus Bachmann, 2023-06-20 A History of Rwanda From the Monarchy to Post genocidal Justice provides a complete history of Rwanda from the precolonial abanyiginya kingdom through the German and Belgian colonial periods and subsequent independence and then the devastating 1994 genocide and reconstruction right up to the modern day Based on extensive archival research this book provides new insights and corrects many popular stereotypes about Rwanda aiming to go beyond the polarized and heated debates focused on the genocide and the events that followed Readers will get a clear and broad picture of Rwanda s history and the social and political contexts that have defined the county from the pre colonial period onwards Embedding Rwanda s history in the regional context this book avoids simple moral judgements and instead shows where and when Rwanda differed from its neighbours and how the country s history fits into larger debates about colonialism genocide ethnicity race and development Offering a full and balanced exploration of Rwanda s rich and paradoxical history this book will be an important read for researchers and students of African history genocide studies transitional justice colonialism and political and social anthropology **Flagging Patriotism** Ella Shohat, Robert Stam, 2013-10-18 The question Why do they hate us is one of the most oft cited puzzles of contemporary American affairs yet it s not clear to whom

they or us refers nor even what hate means In this bold new work Ella Shohat and Robert Stam take apart the hate discourse of right wing politics placing it in an international context How for example do other nations love themselves and how is that love connected to their attitudes toward America Is love of country monogamous or can one love many countries When can a country s self love be a symptom of self hatred Drawing upon their extensive experience with South American European and Middle Eastern societies the authors have written a long engagement with a problem that refuses to go away Flagging Patriotism considers these complex features of being patriotic and in so doing insists that the idea of patriotism instead of being rejected or embraced be accorded the complex identity it possesses **Dangerous Diplomacy** Herman T.

Salton,2017-07-26 Dangerous Diplomacy reassesses the role of the UN Secretariat during the Rwandan genocide With the help of new sources including the personal diaries and private papers of the late Sir Marrack Goulding an Under Secretary General from 1988 to 1997 and the second highest ranking UN official during the genocide the book situates the Rwanda operation within the context of bureaucratic and power political friction existing at UN Headquarters in the early 1990s The book shows how this confrontation led to a lack of coordination between key UN departments on issues as diverse as reconnaissance intelligence and crisis management Yet Dangerous Diplomacy goes beyond these institutional pathologies and identifies the conceptual origins of the Rwanda failure in the gray area that separates peacebuilding and peacekeeping The difficulty of separating these two UN functions explains why six decades after the birth of the UN it has still not been possible to demarcate the precise roles of some key UN departments **The Criminal Law of Genocide** Paul

Behrens,2016-03-16 This collection of essays presents a contextual view of genocide The authors who are academic authorities and practitioners in the field explore the legal treatment but also the social and political concepts and historical dimensions of the crime They also suggest alternative justice solutions to the phenomenon of genocide Divided into five parts the first section offers an historical perspective of genocide The second consists of case studies examining recent atrocities The third section examines differences between legal and social concepts of genocide Part four discusses the treatment of genocide in courts and tribunals throughout the world The final section covers alternatives to trial justice and questions of prevention and sentencing **Rwanda After Genocide** Caroline Williamson Sinalo,2018-10-04 In the 1994 Rwanda

genocide around 1 million people were brutally murdered in just thirteen weeks This book offers an in depth study of posttraumatic growth in the testimonies of the men and women who survived highlighting the ways in which they were able to build a new and often enhanced way of life In so doing Caroline Williamson Sinalo advocates a new reading of trauma one that recognises not just the negative but also the positive responses to traumatic experiences Through an analysis of testimonies recorded in Kinyarwanda by the Genocide Archive of Rwanda the book focuses particularly on the relationship between posttraumatic growth and gender and examines it within the wider frames of colonialism and traditional cultural practices Offering a striking alternative to dominant paradigms on trauma the book reveals that notwithstanding the

countless tales of horror pain and loss in Rwanda there are also stories of strength recovery and growth

Britain's Hidden Role in the Rwandan Genocide Hazel Cameron, 2013-08-27

Britain's Hidden Role in the Rwandan Genocide examines the role of the United Kingdom as a global elite bystander to the crime of genocide and its complicity in violation of international criminal laws in the Rwandan genocide of 1994. As prevailing accounts confine themselves to the role and actions of the United States and the United Nations, the full picture of Rwanda's genocide has yet to be revealed. Hazel Cameron demonstrates that it is the unravelling of the criminal role and actions of the British that illuminates a more detailed answer to the question of why the genocide in Rwanda occurred. In this book, she provides a systematic and detailed analysis of the policies of the British Government towards civil unrest in Rwanda throughout the 1990s that culminated in genocide. Utilising documentary evidence obtained as a result of Freedom of Information requests to the Foreign and Commonwealth Office as well as material obtained through extensive interviews with British government cabinet members, diplomats, Ambassadors to the United Nations Security Council, prisoners in Rwanda convicted of being leaders and organisers of genocide, and victims and survivors of genocide in Rwanda, she finds that the actions of the British and French governments both before and during the Rwandan genocide of 1994 were disassociated from human rights norms. It is suggested herein that the decision making of the Major government during the period of 1990 to 1994 was for the advancement of the interrelated goals of maintaining power status and ensuring economic interests in key areas of Africa, inferring a substantial degree of complicity in genocide by omission. That international politics is a strategic game has evidenced itself in the roles played by both the government of the United Kingdom and France in seeking to maximise their respective political and economic interests out with the existing international criminal constraints during the genocide in Rwanda. A micro study of the actions of the French Operation Turquoise reveals their actions to be clearly definable as complicity in genocide by commission. This account of the legal culpability of the powerful within the corridors of government in both London and Paris evidences that these behaviours cannot be conceptualised under existing notions of state crime and this research serves to illuminate the inadequacies and limitations of a concept of state crime in international law as it currently stands and will be of interest to anyone concerned with the misuse of state power.

Mwambari,2023 A friend of mine asked me to accompany him to visit a young woman in her twenties named Kayitesi At the time in April 2007 Kayitesi lived in rural Kigali with two siblings Kayitesi s parents and many of her relatives were killed during the genocide perpetrated against the Tutsi in Rwanda in 1994 The genocide took place in the central and eastern African country of Rwanda when radical Hutu youth militias and Hutu political elites targeted and killed the Tutsi for about three months between April and July The Hutus and some foreigners who protected the Tutsi or opposed the genocidal violence were also killed **Africa's World War** Gerard Prunier,2008-12-31 The Rwandan genocide sparked a horrific bloodbath that swept across sub Saharan Africa ultimately leading to the deaths of some four million people In this extraordinary history of the recent wars in Central Africa Gerard Prunier offers a gripping account of how one grisly episode laid the groundwork for a sweeping and disastrous upheaval Prunier vividly describes the grisly aftermath of the Rwandan genocide when some two million refugees a third of Rwanda s population fled to exile in Zaire in 1996 The new Rwandan regime then crossed into Zaire and attacked the refugees slaughtering upwards of 400 000 people The Rwandan forces then turned on Zaire s despotic President Mobutu and with the help of a number of allied African countries overthrew him But as Prunier shows the collapse of the Mobutu regime and the ascension of the corrupt and erratic Laurent D sir Kabila created a power vacuum that drew Rwanda Uganda Angola Zimbabwe Sudan and other African nations into an extended and chaotic war The heart of the book documents how the whole core of the African continent became engulfed in an intractable and bloody conflict after 1998 a devastating war that only wound down following the assassination of Kabila in 2001 Prunier not only captures all this in his riveting narrative but he also indicts the international community for its utter lack of interest in what was then the largest conflict in the world Praise for the hardcover The most ambitious of several remarkable new books that reexamine the extraordinary tragedy of Congo and Central Africa since the Rwandan genocide of 1994 New York Review of Books One of the first books to lay bare the complex dynamic between Rwanda and Congo that has been driving this disaster Jeffrey Gettleman New York Times Book Review Lucid meticulously researched and incisive Prunier s will likely become the standard account of this under reported tragedy Publishers Weekly **The Crime of Destruction and the Law of Genocide** Caroline Fournet,2016-03-16 This highly original work provides a thought provoking and valuable resource for researchers and academics with an interest in genocide criminology international organizations and law and society In her book Caroline Fournet examines the law relating to genocide and explores the apparent failure of society to

provide an adequate response to incidences of mass atrocity The work casts a legal perspective on this social phenomenon to show that genocide fails to be appropriately remembered due to inherent defects in the law of genocide itself The book thus connects the social response to the legal theory and practice and trials in particular Fournet s study illustrates the shortcomings of the Genocide Convention as a means of preventing and punishing genocide as well as its consequent failure to ensure the memory of this heinous crime *Democracies at War against Terrorism* S. Cohen,2016-03-28 Numerous democratic nations have been singled out by NGOs for brutality in their modus operandi for paying inadequate attention to civilian protection or for torture of prisoners This book deals with the difficulties faced when conducting asymmetric warfare in populated areas without violating humanitarian law **The Genocide in Rwanda in Comparative Perspective** Klaus Bachmann,2025-03-31 This book combines social science concepts history and transitional justice studies to examine the social dynamics specific actors and ideologies involved in the genocide in Rwanda and examines what makes this genocide a unique case of mass violence and political transition compared with other cases of mass violence It analyzes the conditions necessary for people to engage in intimate violence against their neighbors and family members asking what inclines ordinary men and women to join gangs of killers and what role policies authorities ideologies emotions negotiations and material incentives play in the mobilization for mass atrocities Comparing genocidal events elsewhere in time and location the book provides an up to date overview of the 1994 events in Rwanda and offers new and surprising insights from previously inaccessible archival records explaining how to facilitate foreign intervention in the future This book is of key interest to scholars and students of African politics genocide studies and more broadly to security studies conflicts and conflict resolution studies decolonization studies and contemporary and comparative history *Mediating Violence from Africa* George MacLeod,2023-10 Mediating Violence from Africa explores how African and non African Francophone authors filmmakers editors and scholars have packaged interpreted and filmed the violent histories of post Cold War Francophone Africa This violence much of which unfolded in front of Western television cameras included the use of child soldiers facilitated by the Soviet Union s castoff Kalashnikov rifles the rise of Islamist terrorism in West Africa and the horrific genocide against the Tutsi in Rwanda Through close readings of fictionalized child soldier narratives cinematic representations of Islamist militants genocide survivor testimony and Western scholarship George S MacLeod analyzes the ways Francophone African authors and filmmakers as well as their editors and scholarly critics negotiate the aesthetic political cultural and ethical implications of making these traumatic stories visible MacLeod argues for the need to periodize these productions within a post Cold War framework to emphasize how shifts in post 1989 political discourse are echoed contested or subverted by contemporary Francophone authors filmmakers and Western scholars The questions raised in Mediating Violence from Africa are of vital importance today How the world engages with and responds to stories of recent violence and loss from Africa has profound implications for the affected communities and individuals More broadly in an era

in which stories and images of violence from terror attacks to school shootings to police brutality are disseminated almost instantly and with minimal context these theoretical questions have implications for debates surrounding the ethics of representing trauma the politicization of memory and Africa's place in a global as opposed to a postcolonial or Euro African economic and political landscape

French Interventions in Africa Stefano Recchia, Thierry Tardy, 2020-12-17 This book explores France's African intervention policy and related legitimization strategies through the United Nations the European Union and various ad hoc multilateral frameworks France's enduring ability to project military power on the African continent and influence political events there has been central to its self perception as a major power However since the end of the cold war France's paternalistic interference has been increasingly questioned not least by African audiences This has produced a gradual and somewhat reluctant turn to multilateralism on the part of French leaders Drawing on in depth case studies of recent French intervention policy this edited volume critically assesses France's efforts to reassure critics by securing multilateral endorsements share burdens and liabilities through collective implementation and re-affirm its status as a major power by spearheading complex missions The chapters in this book were originally published as a special issue of the Journal of Strategic Studies

Genocide and the Europeans Karen E. Smith, 2010-10-07 Genocide is one of the most heinous abuses of human rights imaginable yet reaction to it by European governments in the post Cold War world has been criticised for not matching the severity of the crime European governments rarely agree on whether to call a situation genocide and their responses to purported genocides have often been limited to delivering humanitarian aid to victims and supporting prosecution of perpetrators in international criminal tribunals More coercive measures including sanctions or military

intervention are usually rejected as infeasible or unnecessary This book explores the European approach to genocide reviewing government attitudes towards the negotiation and ratification of the 1948 Genocide Convention and analysing responses to purported genocides since the end of the Second World War Karen E Smith considers why some European governments were hostile to the Genocide Convention and why European governments have been reluctant to use the term genocide to describe atrocities ever since
