Four hours address vehicle operations factors; students will learn the concepts of vehicle dynamics, vehicle control techniques, braking, and roadway position. Three hours cover emergency driving factors; students will be instructed in the legal and liability issues pertinent to emergency response, driving, pursuit, driving, and pursuit guidelines. Twenty-four hours are spent on practical application exercises; students will develop proficiency and techniques required to complete selected driving exercises, including steering, reverse driving, vehicle control, braking in a turn, skid recovery, and various pursuit driving exercises. Two hours are devoted to course management components; students learn the process of training site selection, safety considerations, obtaining equipment, scheduling training, and instructors planning for contingencies and ensuring proper student to instructor ratios.
