## **Emotions And Fieldwork:**

**Emotions and Fieldwork** Sherryl Kleinman, Martha A. Copp, 1993 What is the place of emotions in fieldwork Do emotions hinder research or do they help the researcher to understand better those they are studying Qualitative researchers have mixed feelings about emotions and the effects on their research Consequently many fieldworkers allow themselves to have particular feelings such as closeness with participants and try to deny or get rid of emotions deemed inappropriate within the fieldwork community The significant costs associated with ignoring feelings are taken up in this volume as Kleinman and Copp explore links between emotions and analysis The authors examine how fieldworkers feelings about their professional identity their work and the people they study inform analyses The conclusion offers an extended example from one of the author s field studies to highlight how fieldworkers emotions can add power to qualitative analyses An appendix demonstrates how to weave emotions into fieldnotes and into preliminary analyses Of the many recent methodological contributions Sherryl Kleinman and Martha Copp s *Emotions and Fieldwork* offers a unique and important perspective one that should be taken seriously by quantitative and qualitative researchers alike No matter what variety of research one conducts Kleinman and Copp s methodological critique provides an important way of thinking about the research process Theory and Methods Kleinman and Copp move qualitative research into a new domain of discussion by focusing on the role of emotion in fieldwork Well written and tightly organized *Emotions and Fieldwork* is a groundbreaking contribution to the literature on ethnography and fieldwork New Ethnographies This is a valuable research monograph for practitioners and students of qualitative methods and stands in bold contrast to books that advocate leaving emotions at home when one goes to the field Kleinman and Copp understand the emotional complexities of fieldwork and the empowerment that may result from exploring feelings thoroughly Reading this book might ameliorate some of the culture shock that can occur for the novice who expects it all to work like following recipes in a cookbook Qualitative Sociology

**Emotions in Fieldwork** James Peter Davies, Thomas Stodulka, 2020 The history of anthropological and sociological engagement with researchers emotions in fieldwork can be broadly divided into two substreams of enquiry the first being classified as traditional empiricism and the second as radical empiricism Each of these traditions has approached the researcher s emotions and subjectivity in the field in distinct ways which are elaborated through the two sections of this entry The first section defines traditional empiricism and how its guiding principles have sought to approximate fieldwork as closely as possible to the more positivistic position on the researcher s subjectivity broadly seeing the researcher s emotional reactions to the conditions of fieldwork as a potential threat to the data gathering process and thus as something to be controlled and restrained The entry then covers the methodological impact of *Emotions in the Field* James Davies, Dimitrina Spencer, 2010-03-08 This book investigates how anthropologists can make use of the emotions fieldwork generates within them to deepen their understanding of the communities they study **Affective Dimensions of**

**Fieldwork and Ethnography** Thomas Stodulka, Samia Dinkelaker, Ferdiansyah Thajib, 2019-08-20 This book illustrates the role of researchers affects and emotions in understanding and making sense of the phenomena they study during ethnographic fieldwork Whatever methods ethnographers apply during field research however close they get to their informants and no matter how involved or detached they feel fieldwork pushes them to constantly negotiate and reflect their subjectivities and positionalities in relation to the persons communities spaces and phenomena they study The book highlights the idea that ethnographic fieldwork is based on the attempt of communication mutual understanding and perspective taking on behalf of and together with those studied With regard to the institutionally silenced yet informally emphasized necessity of ethnographers emotional immersion into the local worlds they research defined as emic perspective narrating through the eyes of the Other seeing the world from the informants point of view etc this book pursues the disentanglement of affect related disciplinary conventions by means of transparent vivid and systematic case studies and their methodological discussion The book provides nineteen case studies on the relationship between methodology intersubjectivity and emotion in qualitative and ethnographic research and includes six section introductions to the pivotal issues of role conflict reciprocity intimacy and care illness and dying failing and attuning and emotion regimes in fieldwork and ethnography **Affective Dimensions of Fieldwork and Ethnography** is a must have resource for post graduate students and researchers across the disciplines of social and cultural anthropology medical anthropology psychological anthropology cultural psychology critical theory cultural phenomenology and cultural sociology

**Emotion and the Researcher** Tracey Loughran, Dawn Mannay, 2018-08-28 Contributors to this edited collection argue for an emotional rebellion in the academic world arguing that the presentation of research as objective conceals the subject positions of researchers and the emotional imperatives that often drive research

**Fieldnotes in Qualitative Education and Social Science Research** Casey Burkholder, Jennifer Thompson, 2020-04-08 Building upon the incorporation of fieldnotes into anthropological research this edited collection explores fieldnote practices from within education and the social sciences Framed by social justice concerns about power in knowledge production this insightful collection explores methodological questions about the production use sharing and dissemination of fieldnotes Particular attention is given to the role of context and author positionality in shaping fieldnotes practices Why do researchers take fieldnotes What do their fieldnotes look like What ethical concerns do different types of fieldnotes practices provoke By drawing on case studies from numerous international contexts including Argentina Cameroon Canada Ghana Hong Kong Hungary Kenya Lebanon Malawi the Netherlands South Africa and the US the text provides comprehensive and nuanced answers to these questions This text will be of interest to academics and scholars conducting research across the social sciences and in particular in the fields of anthropology and education

**The Routledge Companion to Anthropology and Business** Raza Mir, Anne-Laure Fayard, 2020-06-11 Interest in anthropology and ethnography has been an ongoing feature of organizational research and pedagogy this book provides a key reference

text that pulls together the different ways in which anthropology infuses the study of organizations both epistemologically and methodologically The volume hosts key scholars and experts within the fields of Organizational Anthropology Organizational Ethnography Organizational Studies and Qualitative Research The book provides a combination of methodological guidelines exemplars and epistemological reflection It includes methodological viewpoints ethnographic journeys within organizations as well as beyond organizations and individual reflections on challenges faced by organizational ethnographers This book is aimed at PhD master and advanced undergraduate students and researchers across disciplines especially those who are engaged with general management organizational behaviour strategy and anthropological ethnographic issues      *Knowledges, Practices and Activism from Feminist Epistemologies* Eulalia Pérez-Sedeño, Lola S. Almendros, S. García Dauder, Esther (Mayoko) Ortega Arjonilla, 2019-03-27 Science Technology and Gender studies STG include the different approaches to feminist epistemologies their current debates and also the theoretical analysis of different scientific controversies around cases that involve women s bodies and health sex gender and techno scientific practices These studies are linked to the demand for another type of hybrid knowledge that revalorizes the practices the embodied experience and care as well as the subject positions traditionally excluded from the scientific community The diversity of voices has allowed a plural knowledge in techno scientific practices to emerge as well as the identification of gender class sexuality race functional diversity inequalities for example This has made possible a bioethical reflection which is not understood as abstract normative principles but linked to the practices and lived experience Divided into three parts this edited volume presents original and insightful research on STG from feminist epistemologies The first part addresses fundamental theoretical questions that feminist epistemologies raise and how they confront complex social problems such as gender based violence The second part deals with research practices or processes explicitly showing the relationship between science and policy Finally the third part presents some case studies that show the multidimensionality of the problems and the depth and richness of these analyses The contributions included in the volume present original and in depth research on local case studies within Spain Not only challenging the hegemonic and global perspectives on different issues this volume also opens up and enables discussion of these global narratives This edited volume is a useful tool for researchers and university students in multiple fields such as gender studies feminist epistemologies STS cultural history or transgender studies      *Portals* Lynne Hume, 2020-06-29 As Alice in Wonderland discovered cave entrances tunnels spirals and mirrors can transport people to strange worlds where anything is possible *Portals* investigates how we move beyond the conscious and physical world using our senses into other realities of the spiritual and the divine *Portals* looks at the techniques used to alter consciousness practised by shamans monks and other religious specialists These include the use of drugs as well as drumming chanting and meditation The book provides a new anthropologically grounded perspective on the wide ranging questions about the realities of human consciousness and mystical spiritual and religious experience

**Environmental and Geographical Education for Sustainability** Zijian Li, Michael Williams, 2006 Geography environment sustainability culture and education standing alone or in any combination provide the ingredients for a variety of stews They are all difficult to define and they generate endless debates for theoreticians and practitioners about their meaning and significance The editors have divided the chapters that follow into two parts in an effort to unit these diverse disciplines Part 1 is concerned with cultural foundations and curriculum issues related to geographical and environmental education for sustainability Part 2 comprises a series of chapters presenting education for sustainability in the contexts of national cultures

Emotions, Senses, Spaces: Susan R. Hemer, Alison Dundon, 2016-09-15 This volume draws together three core concerns for the social sciences the senses and embodiment emotions and space and place In so doing these collected essays consider the ways in which these core concerns are mutually constitutive This includes how spaces evoke constrain or are composed by the senses and emotions the ways in which emotions are generated or transformed in certain spaces and through sensual engagement and the processes by which embodied senses create spaces and emotions

*The Emotions* Helena Wulff, 2024-11-01 Emotions are a loaded topic From love and hate to grief fear and envy emotions are increasingly understood as driving forces in social life The Emotions A Cultural Reader applies a cross cultural perspective on emotions It examines the fact that emotions are socially and culturally constructed while highlighting problems of comparison and translation of local terms and emotional experiences Are emotions cultural or universal To what extent are there culturally distinct emotions The Emotions closes the traditional Western gap where emotions are separated from rationality and thought the heart versus mind debate By presenting both classic essays and new cutting edge chapters from anthropology sociology and psychology with important contributions from philosophy and neuroscience the volume connects a rich range of cross cultural studies to form a thriving interdisciplinary debate on emotions

**Researching with Feeling** Caroline Clarke, Mike Broussine, Linda Watts, 2014-10-10 Why should researchers be interested in their feelings and emotions as they carry out research Emotion is what it is to exist to be human and is present in every sphere of our lives All activities are infused with emotion even those that are constructed as rational because rationality and emotionality are interpenetrated and entwined because all thinking is tinged with feeling and all feeling is tinged with thinking This book illuminates the

emotional processes of doing social and organizational research and the implications of this for the outcomes of research. With contributions from leading academics and research practitioners it addresses the significant issue of the sometimes intense emotional experiences involved in doing research and the implications it has for the theory and practice of social research. By examining the nature of feelings and emotions it explores how we might understand researchers' emotions and experiences and considers the often powerful feelings encountered in a variety of research contexts. Topics discussed include power relations, psycho-social explanations of researcher emotions, paradoxical relations with research participants and the sometimes disturbing data that is gained, research supervision, the politics of research, gender, publishing, undergoing vivas and presenting at conferences. This book will therefore be a valuable companion to researchers and research students from the start of their career onwards.

**Researching Marginalized Groups** Kalwant Bhopal, Ross Deuchar, 2015-07-16 This edited collection explores issues that arise when researching hard to reach groups and those who remain socially excluded and marginalized in society such as access to the use of gatekeepers, ethical dilemmas, voice and how such research contributes to issues of inclusion and social justice. The book uses a wide range of empirical and theoretical approaches to examine the difficulties, dilemmas and complexities surrounding research methodologies with particular groups. It emphasizes the importance of national and international perspectives in such discussions and suggests innovative methodological procedures.

*Our Studies, Ourselves* Barry Glassner, Rosanna Hertz, 2003-08-21 What motivates a lifelong scholarly pursuit and how do one's studies inform life outside the academy? Sociologists who live in families but also study families who go to work but also study work who participate in communities but also try to understand communities have an especially intimate relation to their research. Growing up poor, struggling as a woman in a male-dominated profession, participating in protests against the Vietnam War, facts of life influence research agendas, individual understandings of the world and ultimately the shape of the discipline as a whole. Barry Glassner and Rosanna Hertz asked twenty-two of America's most prominent sociologists to reflect upon how their personal lives influenced their research and vice versa how their research has influenced their lives. In this volume the authors reveal with candor and discernment how world events, political commitments and unanticipated constraints influenced the course of their careers. They disclose how race, class and gender proved to be pivotal elements in the course of their individual lives and in how they carry out their research. Faced with academic institutions that did not hire or promote persons of their gender, race, sexual orientation or physical disability they invented new routes to success within their fields. Faced with disappointments in political organizations to which they were devoted they found ways to integrate their disillusionment into their research agendas. While some of the contributors radically changed their political commitments and others saw more stability, none stood still. An intimate look at biography and craft, these snapshots provide a fascinating glimpse of the sociological life for colleagues, other academics and aspiring young sociologists. The collection demonstrates how inequalities and injustices can be made into motors for scholarly research which in turn have the power to

change individual life courses and entire societies

**Handbook of Ethnography** Paul Atkinson, Sara Delamont, Amanda Coffey, John Lofland, Lyn Lofland, 2007-04-25 I wish the Handbook of Ethnography had been available to me as a fledgling ethnographer I would recommend it for any graduate student who contemplates a career in the field Likewise for experienced ethnographers who would like the equivalent of a world atlas to help pinpoint their own locations in the field

**Journal of Contemporary Ethnography** No self respecting qualitative researcher should be without Paul Atkinson's handbook on ethnography This really is encyclopaedic in concept and scope Many big names in the field have contributed so this has to be the starting point for anyone looking to understand the field in substantive topic theoretical tradition and methodology

**SRA News** Ethnography is one of the chief research methods in sociology anthropology and other cognate disciplines in the social sciences This Handbook provides an unparalleled critical guide to its principles and practice The volume is organized into three sections The first systematically locates ethnography firmly in its relevant historical and intellectual contexts The roots of ethnography are pinpointed and the pattern of its development is demonstrated The second section examines the contribution of ethnography to major fields of substantive research The impact and strengths and weaknesses of ethnographic method are dealt with authoritatively and accessibly The third section moves on to examine key debates and issues in ethnography from the conduct of research through to contemporary arguments The result is a landmark work in the field which draws on the expertise of an internationally renowned group of interdisciplinary scholars The Handbook of Ethnography provides readers with a one stop critical guide to the past present and future of ethnography It will quickly establish itself as the ethnographer's bible

**Methods of Exploring Emotions** Helena Flam, Jochen Kleres, 2015-03-24 Gathering scholars from different disciplines this book is the first on how to study emotions using sociological historical linguistic anthropological psychological cultural and mixed approaches Bringing together the emerging lines of inquiry it lays foundations for an overdue methodological debate The volume offers entrancing short essays richly illustrated with examples and anecdotes that provide basic knowledge about how to pursue emotions in texts interviews observations spoken language visuals historical documents and surveys The contributors are respectful of those being researched and are mindful of the effects of their own feelings on the conclusions The book thus touches upon the ethics of research in vivid first person accounts Methods are notoriously difficult to teach this collection fills the gap between dry methods books and students need to know more about the actual research practice

**Negotiating Group Identity in the Research Process** Anastacia Kurylo, 2016-10-28 Negotiating Group Identity in the Research Process Are You In or Are You Out focuses on researcher identity and the role it plays in conducting research whether as a member of the culture being studied i.e. an insider or as an outsider to that culture Contributors address the problems researchers face as insiders and outsiders the practical strategies used to overcome related obstacles the implications of insider outsider status for the design of the study the value of insider and outsider perspectives the impact of this on the findings of a study the implications for advocating on behalf of a group

being studied and other important topics These scholars are from within and outside the field of communication and include well known and emerging scholars who have studied a multitude of groups using various methodological strategies

Gender, Feminism, and Queer Theory in the Self-Study of Teacher Education Practices Monica Taylor, Lesley

Coia, 2014-08-07 This edited volume gives explicit attention to the influence of gender feminism and queer theory in self study of teacher education practices It builds on the self study community's interest in social justice that has mostly been focused on race ethnicity gender disability and power as well as broad conceptions that include multiculturalism and ways of knowing This is the time to examine gender both because our community is growing and because of the reconceptualization of issues of gender feminism and queer theory in teacher education This collection of papers provides a space for members of the self study field from founders to welcomed new members along with the general community of teacher educators to problematize these issues through a variety of theoretical lenses As always with self study the impetus of the research is on the improvement of individual practice Readers will find innovative approaches and insights into their own work as teacher educators
