Clawson, Zoe M. Oxley, 2010-12-14 Conducting Empirical Analysis is an ideal way to marry substance with skills getting students to experience the joy of discovery firsthand Through straightforward instruction and guided examples Clawson and Oxley show students how to conduct web based data analysis using UC Berkeley s Survey Documentation and Analysis available online for free to answer questions about party identification or attitude stability and to measure racial prejudice and political knowledge Exercises cover a range of data collection techniques survey research and statistical analyses ramping up from multiple choice and open ended questions to mini research projects An instructor s guide with solutions is available for adopters      Methods and Models Rebecca B. Morton, 1999-08-28 At present much of political science consists of a large body of formal mathematical work that remains largely unexplored empirically and an expanding use of sophisticated statistical techniques While there are examples of noteworthy efforts to bridge the gap between these there is still a need for much more cooperative work between formal theorists and empirical researchers in the discipline This book explores how empirical analysis has can and should be used to evaluate formal models in political science The book is intended to be a guide for active and future political scientists who are confronting the issues of empirical analysis with formal models in their work and as a basis for a needed dialogue between empirical and formal theoretical researchers in political science These developments if combined are potentially a basis for a new revolution in political science
