**Falling Star** John P. Eaton, Charles A. Haas, 1989-01-01      **Falling Star** John P. Eaton, Charles A. Haas, 1989 Om  
selskabet White Star Line s skibssulykker 1864 1941      *Perils Of The Atlantic* William Flayhart, 2003-05-27 Perils of the  
Atlantic captures the stories of a number of vessels that experienced adventure on the high seas from the tragic loss of the  
liner Arctic in 1854 to the swift sinking of the Italian Andrea Doria in 1956      **The Titanic** Eugene L. Rasor, 2001-09-30  
Promoted as virtually unsinkable the ultimate luxury liner the largest ship in the world the RMS Titanic sank on its maiden  
voyage in April 1912 taking some 1 500 people to their death Aboard the ship were the wealthy and famous as well as  
hundreds of immigrants seeking a new life in America The most dramatic marine disaster of modern times the Titanic  
tragedy captured the interest and imagination of the entire world The intensity of interest in the catastrophe has increased  
particularly after discovery of the wreck off the coast of Newfoundland in the mid 1980s The resulting literature is vast  
including both scholarly and popular sources Covering more than the published literature the book also surveys memorabilia  
artifacts cultural icons music film and exhibitions Divided into three sections the work opens with a historiographical survey  
of the literature then includes descriptive lists of more peripheral material and concludes with a bibliography of 674 entries  
All items covered in the historiographical survey are included in the bibliography This useful guide will appeal to researchers  
both laymen and scholars interested in the Titanic      *Disaster At Sea* William Flayhart, 2005-03-22 Flayhart delivers a  
gripping chronicle of mishap and mayhem filled with danger and heroism and rich with detail Sea Power A colorful and  
deadly history of ocean liner disasters from the mid nineteenth century to the present Disaster at Sea is a chronicle of the  
most frightening episodes in the maritime history of the North Atlantic From 1850 to the present day the Atlantic has been  
home to hundreds of ocean liners and cruise ships each more lavish than the last all of them symbols of wealth and luxury  
Perhaps this is why readers have always been fascinated by the lives of these ships and their deaths Many of us know the  
stories of the Titanic and the Lusitania Both tragedies caused tremendous loss of life even as they made the ships immortal  
But there are many little known accounts of extraordinary survivals at sea such as the Inman and International liner City of  
Chicago that jammed her bow into an Irish peninsula in 1892 but stayed afloat long enough for all to be rescued or the City  
of Richmond that survived a dangerous fire in 1891 and a year earlier the City of Paris whose starboard engine exploded at  
full speed in the mid Atlantic and yet miraculously still made port Often such tales are forgotten even if the ship sank In 1898  
the Holland America liner Veendam hit a submerged wreck and sank at sea but all lives were saved so this vessel s dramatic  
story seemed less important in maritime history than incidents involving human loss As recently as 2000 the Sea Breeze I  
sank off the East Coast of the United States while on a positioning voyage but all her crew members were rescued in a heroic  
effort by U S Coast Guard helicopters These stories and many others are dramatic and acclaimed maritime scholar William  
Flayhart has spent much of the last forty years in search of material from which to create colorful narratives Author of The

American Line 1871 1902 and coauthor of *Majesty at Sea* and the first edition of *QE2* Flayhart retells classic ocean liner disaster stories while bringing to light never before published but compelling episodes in man's ongoing battle with the sea. Originally published in hardcover under the title *Perils of the Atlantic*      **The Titanic in Print and on Screen** D. Brian Anderson, 2014-12-09 Titanic scholars contend that the demise of the unsinkable ship left more behind than a memory of April 15 1912 as an important point in history. Through books films stories and songs the archetypal shipwreck has endured as a metaphor for the perils of mankind's hubris and the fallibility of technology. In 1985 the discovery of the long missing wreckage two miles below the surface of the Atlantic revitalized interest in the Titanic and spawned a new generation of books films and for the first time websites and computer games. James Cameron's blockbuster *Titanic* became the biggest movie of all time and engendered still greater popular interest in the tragic event. This bibliography is a survey of the immense volume of literary dramatic and commercial endeavors that came out of history's most compelling shipwreck. Organized by genre in accessible categories and short entries the book includes Titanic inspired documentaries narrative films children's books histories short stories novels plays articles essays software websites poems and songs. Each entry includes a brief review bibliographic information and the technical details of the specific source. The reviews include subjective analysis designed to reflect the usefulness of the source and to be of benefit to researchers and scholars. Five appendices include lists of the actors appearing in more than one Titanic film brief film and television appearances of the Titanic films never or not yet released books that survived the wreck and books written by passengers      **Eighty Days** Matthew Goodman, 2013-02-26 NATIONAL BESTSELLER On November 14 1889 Nellie Bly the crusading young female reporter for Joseph Pulitzer's *World* newspaper left New York City by steamship on a quest to break the record for the fastest trip around the world. Also departing from New York that day and heading in the opposite direction by train was a young journalist from *The Cosmopolitan* magazine Elizabeth Bisland. Each woman was determined to outdo Jules Verne's fictional hero Phileas Fogg and circle the globe in less than eighty days. The dramatic race that ensued would span twenty-eight thousand miles captivate the nation and change both competitors' lives forever. The two women were a study in contrasts. Nellie Bly was a scrappy hard-driving ambitious reporter from Pennsylvania coal country who sought out the most sensational news stories often going undercover to expose social injustice. Genteel and elegant Elizabeth Bisland had been born into an aristocratic Southern family preferred novels and poetry to newspapers and was widely referred to as the most beautiful woman in metropolitan journalism. Both women though were talented writers who had carved out successful careers in the hypercompetitive male-dominated world of big city newspapers. *Eighty Days* brings these trailblazing women to life as they race against time and each other unaided and alone ever aware that the slightest delay could mean the difference between victory and defeat. A vivid real-life re-creation of the race and its aftermath from its frenzied start to the nail-biting dash at its finish *Eighty Days* is history with the heart of a great adventure novel. Here's the journey that takes us behind the

walls of Jules Verne's Amiens estate into the back alleys of Hong Kong onto the grounds of a Ceylon tea plantation through storm tossed ocean crossings and mountains blocked by snowdrifts twenty feet deep and to many more unexpected and exotic locales from London to Yokohama Along the way we are treated to fascinating glimpses of everyday life in the late nineteenth century an era of unprecedented technological advances newly remade in the image of the steamship the railroad and the telegraph For Nellie Bly and Elizabeth Bisland two women ahead of their time in every sense of the word were not only racing around the world They were also racing through the very heart of the Victorian age Look for special features inside Join the Random House Reader's Circle for author chats and more What a story What an extraordinary historical adventure Amanda Foreman author of *A World on Fire* A fun fast page turning action adventure the exhilarating journey of two pioneering women Nellie Bly and Elizabeth Bisland as they race around the globe Karen Abbott author of *American Rose* A marvelous tale of adventure The story of these two pioneering women unfolds amid the excitement setbacks crises missed opportunities and a global trek unlike any other in its time Why would you want to miss out on the incredible journey that takes you to the finish line page after nail biting page Chicago Sun Times Best Books of the Year In a stunning feat of narrative nonfiction Matthew Goodman brings the nineteenth century to life tracing the history of two intrepid journalists as they tackled two male dominated fields world travel and journalism in an era of incredible momentum Minneapolis Star Tribune [Fatherlands](#) Abigail Green,2001-09-06 An exploration of the nature of identity in nineteenth century Germany

*RMS Olympic* Mark Chirnside,2015-09-07 Launched as the pride of British shipbuilding and the largest vessel in the world Olympic was more than 40 per cent larger than her nearest rivals almost 900ft long and the first ship to exceed 40 000 tons She was built for comfort rather than speed and equipped with an array of facilities including Turkish and electric baths one of the first ships to have them a swimming pool gymnasium squash court la carte restaurant large first class staterooms and plush public rooms Surviving from 1911 until 1935 she was a firm favourite with the travelling public carrying hundreds of thousands of fare paying passengers and retained a style and opulence even into her twilight years During the First World War she carried more troops than any other comparable steamship and was the only passenger liner ever to sink an enemy submarine by ramming it Overshadowed frequently by her sister ships Titanic and Britannic Olympic's history deserves more attention than it has received She was evolutionary in design rather than revolutionary but marked an ambition for the White Star Line to dominate the North Atlantic express route Rivals immediately began trying to match her in size and luxury The optimism that led to her conception was rewarded whereas her doomed sisters never fulfilled their creators dreams This revised and expanded edition of the critically acclaimed *RMS Olympic Titanic's Sister* uses new images and further original research to tell the story of this remarkable ship 80 years after her career ended **The Universe Below** William J Broad,1998-06-16 Explores the depths of Earth's oceans to discover a long hidden world of alien creatures vanished civilizations and lost ships and describes the new technologies that make such expeditions possible *Identity, Community*

*and Australian Artists, 1890-1914* Kate R. Robertson, 2019-09-19 An irresistible call lured Australian artists abroad between 1890 and 1914 a transitional period immediately pre and post federation Travelling enabled an extension of artistic frontiers and Paris the centre of art and London the heart of the Empire promised wondrous opportunities These expatriate artists formed communities based on their common bond to Australia enacting their Australian ness in private and public settings Yet they also interacted with the broader creative community fashioning a network of social and professional relationships They joined ateliers in Paris such as the Acad mie Julian clubs like the Chelsea Arts Club in London and visited artist colonies including St Ives in England and taples in France Australian artists persistently sought a sense of belonging negotiating their identity through activities such as plays balls tableaux parties dressing up and of course the creation of art While individual biographies are integral to this study it is through exploring the connections between them that it offers new insights Through utilising extensive archival material much of which has limited or no publication history this book fills a gap in existing scholarship It offers a vital exploration re consideration of the fluidity of identity place and belonging in the lives and work of Australian artists in this juncture in British Australian history

**Titanic Captain** G. J. Cooper, 2011-10-31 Commander Edward John Smith s career had been a remarkable example of how a man from a humble background could get far in the world Born to a working class family in the landlocked Staffordshire Potteries

he went to sea at the age of 17 and rose rapidly through the ranks of the merchant navy serving first in sailing vessels and later in the new steamships of the White Star Line By 1912 he as White Star s senior commander and regarded by many in the shipping world as the millionaire s captain In 1912 Smith was given command of the new RMS Titanic for her maiden voyage but what should have been among the crowning moments of his long career at sea turned rapidly into a nightmare following Titanic s collision with an iceberg In a matter of hours the supposedly unsinkable ship sank taking over 1 500 people with her including Captain Smith

Transports of Delight Peter Hancock,2017-05-11 This inspiring book shows how the spiritual side of life with its thoughts feelings and aspirations is intimately bound up with our material technologies From the wonder of Gothic Cathedrals to the quiet majesty of lighter than air flight to the ultimate in luxury of the north Atlantic steamers Peter Hancock explores how these sequential heights of technology have enabled our dreams of being transported to new and uncharted realms to become reality Sometimes literally sometimes figuratively technology has always been there to make material the visions of our imagination This book shows how this has essentially been true for all technologies from Stonehenge to space station But technology is far from perfect Indeed the author argues here that some of the most public and tragic of its failures still remain instructive emblematic and even inspiring He reports on examples such as a Cathedral of the Earth Beauvais a Cathedral of the Seas Titanic and a Cathedral of the Air Hindenburg and tells their stories from the viewpoint of material transcendence By interweaving their stories he reveals how technologies can succeed in elevating human beings and in taking them to whole new realms of being he explores and explains why these experiences are

**Maiden Voyages** Siân Evans,2021-08-10 In an engaging and anecdotal social history Si n Evans s Maiden Voyages explores how women s lives were transformed by the Golden Age of ocean liner travel between Europe and North America During the early twentieth century transatlantic travel

was the province of the great ocean liners. It was an extraordinary undertaking made by many women whose lives were changed forever by their journeys between the Old World and the New. Some traveled for leisure, some for work, others to reinvent themselves or find new opportunities. They were celebrities, migrants, and millionaires, refugees, aristocrats, and crew members whose stories have mostly remained untold until now. *Maiden Voyages* is a fascinating portrait of the era, the ships themselves, and these women as they crossed the Atlantic. The ocean liner was a microcosm of contemporary society, divided by class from the luxury of the upper deck playground for the rich and famous to the cramped conditions of steerage or third class travel. In first class you'll meet Aristocrats like Marlene Dietrich, Wallis Simpson, and Josephine Baker; the second class carried a new generation of professional and independent women like pioneering interior designer Sibyl Colefax. Down in steerage you'll follow the journey of migrant Maria Riffelmacher as she escapes poverty in Europe. Bustling between decks is a crew of female workers, including Violet, the Unsinkable Stewardess Jessop, who survived the Titanic disaster. Entertaining and informative, *Maiden Voyages* captures the golden age of ocean liners through the stories of the women whose transatlantic journeys changed the shape of society on both sides of the globe.

**The Mariner's Mirror** Leonard George Carr, Laughton, Roger Charles Anderson, William Gordon Perrin, 1997

**Titanic** John P. Eaton, Charles A. Haas, 1999. An illustrated chronology of the Titanic providing details about the people and events related to the ship from its conception, construction, and testing through the exploration and exhibition of the wreckage.

**The Olympic-class Ships** Mark Chirnside, 2004. Sitting around a dining room table in 1907, the owners of the White Star Line discussed their competition to the newly built Cunard liners *Lusitania* and *Mauretania*. From that smoke-filled room came the first designs of three White Star superliners: *Olympic*, *Titanic*, and *Britannic*. Each ship was subtly different. Lessons learned from the service of *Olympic* were put into practice for *Titanic*. With the loss on her maiden voyage of *Titanic*, the hull design was radically changed for the third sister ship. The new double hull, however, did not prevent *Britannic* from sinking in less than an hour in the Aegean after she hit a German mine in 1916. Illustrated with many rare images of all three vessels, only one of which survived in regular service, this is the definitive history of the most famous sister ships of all time.
