Family With A Handicapped Child Understanding And Treatment:

The Family with a Handicapped Child Milton Seligman, 1983 *The Family with a Handicapped Child* Milton Seligman, 1991 This work focuses on families trying to cope with their chronically disabled children It examines the many variables affecting the family from internal family issues to external social pressures The book aims to highlight the complexities of working with such families Childhood Disability and Family Systems Michael Ferrari, Marvin B. Sussman, 2016-01-08 First published in 1987 this book focuses on childhood disability within the family It examines the very nature of disability itself as well as many of the fundamental elements of families The book was written at a time when the meaning level of disability and its effect on family and society were rapidly changing and people with disabilities were starting to benefit from opportunities to compensate for whatever disabilities they may have had Modern technology and an affluent society afforded advantages to support many of its disabled members Contributors examine the contemporary context of disability the cost of disability to families ethical philosophical and social issues underlying the treatment and rehabilitation of children with severe disabilities and the role of professionals amongst other topics This book will be of interest to those involved in teaching research and direct care with families who have children with disabilities Although written in the late 80s the work discusses subjects that are still vital today Ordinary Families, Special Children Milton Seligman, Rosalyn Benjamin Darling, 2017-02-13 This popular clinical reference and text provides a multisystems perspective on childhood disability and its effects on family life The volume examines how child family ecological and sociocultural variables intertwine to shape the ways families respond to disability and how professionals can promote coping adaptation and empowerment Accessible and engaging the book integrates theory and research with vignettes and firsthand reflections from family members **Working with Families of Children with Special Needs** Naomi Dale, 2008-03-07 The importance of partnerships between professionals and the parents of children with special needs disability is well established in childcare legislation But is it reflected in practice Written for practitioners and those in training this book recognises that forming partnerships can be a fraught process involving dissent as well as cooperation Naomi Dale draws on case histories from her own experience to examine key partnership issues such as consent confidentiality and diagnosis delivery She combines up to date theory and research with practice to provide a wealth of suggestions and ideas for effective family work Working with Families of Children with Special Needs features useful exercises with each chapter making it an excellent resource book and practice manual for multidisciplinary professionals **Families and Mental Retardation** Diane Marsh, 1992-05-27 Traditional pathology models do not provide a satisfactory framework for professional practice with families of people with mental retardation Families and Mental Retardation is written from the perspective of a competence paradigm for professional practice which offers a constructive alternative to the more prevalent pathology models of the past The goal of professional practice is to empower families in coping with the catastrophic stressor of mental retardation Such

an approach recognizes the strengths and resources of families which have often been minimized in the past and fosters new collaborative modes of family professional relationships Unique features include a consideration of life span and family system and subsystem perspectives as well as the inclusion of powerful personal accounts of family members The volume is likely to be of special value to mental health and health care professionals who often receive little training in mental retardation or family professional relations and who tend to apply a pathology model In contrast a competence paradigm is more prevalent in education

Ordinary Families, Special Children, Third Edition Milton Seligman, Rosalyn Benjamin Darling, 2009-02-23 This popular clinical reference and text provides a multisystems perspective on childhood disability and its effects on family life The volume examines how child family ecological and sociocultural variables intertwine to shape the ways families respond to disability and how professionals can promote coping adaptation and empowerment Accessible and engaging the book integrates theory and research with vignettes and firsthand reflections from family members
