narratives These are stories of characters who were neither distinctly good nor noticeably bad neither malicious nor noble In Search of Ancient North Africa is a journey into the ruins of a landscape to make sense of these stories through the multilayered lives of six individuals Rogerson digs into the lives of Queen Dido who was a sacrificial refugee King Juba II a prisoner of war who became a compliant tool of the Roman Empire Septimius Severus an unpromising provincial who as its leader brought his empire to its dazzling apogee St Augustine an intellectual careerist who became a bishop and a saint Hannibal the greatest general the world has ever known and Masinissa the man who eventually defeated him Together these six lives clouded with as much myth as fact are characters that represent classical North Africa Among these life stories we explore ruins and monuments tell of their lives and see the multiple connections that bind the culture of this region with the wider world particularly the spiritual traditions of the ancient Near East In Search of Ancient North Africa sheds new light on a time and place at the crossroads of numerous histories and cultures It offers the first history of ancient North Africa told through the lives of North Africans themselves In Search of Foundations for African Catholicism Mika

Vähäkangas,2016-05-18 This study deals with the interaction between neo Thomism and African traditional thinking in Charles Nyamiti s theological methodology The approach of the study is groundbreaking as it is the first monograph published on the theological method of any African theologian The question about the position and relevance of Western philosophical theological systems in a non Western context also has a wider relevance concerning contextual theologies in general Nyamiti s theology is a germane and a fruitful choice for the study of this issue because of his programmatic attempt to build a coherent African Roman Catholic theological system His theology is also well known for its strong African flavor in elaborating theological questions within the framework of orthodox Roman Catholic doctrine Western Sahara Pablo San Martín,2010-10-15 The Western Sahara is the last colony in Africa and the only Spanish speaking territory in the Arab World When in 1975 the agonising Francoist Spain abandoned hastily its colony Morocco and Mauritania occupied the territory despite the protest of the UN and the resistance of a nascent Saharawi liberation movement the Frente Polisario During the first months the conflict displaced thousands of Saharawis to the neighbouring Algerian region of Tindouf where almost 200 000 Saharawis still live today in four large refugee camps But these camps are more than refugee settlements They became the centre of a state founded by the Saharawi nationalists the Saharawi Arab Democratic Republic now recognised by over 60 states worldwide and full member of the African Union The camps provided the opportunity to develop a process of nation building and identity construction based on the principles of the revolutionary nationalism of the 1970s This book explores the dynamic process of construction of the new Saharawi identity culture and society developed in the refugee camps over the three last decades of conflict and analyses the complex articulation of elements from the Hispanic Arab and African worlds that shapes the contours of the Saharawi Refugee Nation *Armed Conflict and International Law: In Search of the Human Face* Mariëlle Matthee,Brigit Toebes,Marcel Brus,2013-06-26 This book is written in memory of Avril McDonald who

passed away in April 2010 Avril was an inspired and passionate scholar in the fields of international humanitarian law international criminal law human rights law and law in the field of arms control and disarmament What in particular made Avril s work special was her strong commitment with the human aspects throughout Fourteen scholars and practitioners have contributed to this *liber amicorum* which has led to a rich variety of topics within the disciplines of Avril s expertise They all have in common that they deal with the human perspectives of the discipline of law at hand They concentrate on the impact of the developments in international law on humans whether they are civilians victims of war or soldiers This human perspective of law makes this book an appropriate tribute to Avril McDonald and at the same time a unique and valuable contribution to international legal research in the present society A society that becomes more and more characterized by detailed legal systems defined by institutions that may frequently lack sufficient contact with the people concerned

Historical Dictionary of Morocco Aomar Boum, Thomas K. Park, 2016-06-02 A historical reference work on Morocco must take as its subject *al maghrib al aqsa* the far west as the Arabic scholars have generally referred to the approximate region of present day Morocco roughly the north west corner of Africa but at times including much of the Iberian peninsula because the modern nation state is a relatively recent creation owing much to events in the late 19th and early 20th centuries External influences on Morocco tend to come across the narrow straits of Gibraltar to the north from the east along the Mediterranean litoral or up from the Sahara In each case access is constrained by geography and continued control from outside the region has been difficult to manage over the long term Although many of the dynasties that came to power in Morocco conquered much broader regions history and topology have so conspired that there is still more coherence to an historical focus on *al maghrib al aqsa* than is the case for most modern nation states This third edition of *Historical Dictionary of Morocco* contains a chronology an introduction a glossary and an extensive bibliography The dictionary section has over 600 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Morocco [In Search of Sparrows](#) Denis Summers-Smith, 2010-10-30 The humble House Sparrow common everywhere was surprisingly poorly researched and Summers Smith s work soon provided interesting insights into this successful and adaptable little bird Denis Summers Smith first took up the study of the House Sparrow in 1947 thinking that the difficulties of travel in post war Britain would best suit the study of a species always close at hand As new opportunities to travel opened up his interest blossomed to take in the genus *Passer* as a whole His travels would ultimately lead to his study of all but one group found only in the deepest Turkestan and to the publication of his authoritative monograph on sparrows in 1988 While that book presented his knowledge of sparrow biology this volume tells the other human side of the tale His wry descriptions of the tribulations and unexpected pleasures of a traveller on four continents from the Himalayas and Thailand to Africa and the Americas with a good few islands in between are interspersed with observations and speculations on the biology of sparrows

in a wide variety of habitats Everywhere local officials and birdwatchers warmed to the eccentric Scot in pursuit of the little birds that nobody notices but which so often make their homes beside us The author s own photographs and delightful cartoons by Euan Dunn further paint the picture of this lifelong search
