Perry, Andrew B. Tullo, 2013-11-11 Whilst this book is primarily compiled for nurses who care for patients with eye disease it will be useful to other health professionals who are also interested in the holistic care of such patients e.g. opticians orthoptists social workers and junior medical staff The care is presented as a systematic approach to the more common actual and potential problems Typically a problem is identified with a desired outcome and the nursing interventions possible to achieve this Evaluation has not been included as this is dependent on an identified time limit for outcomes to be achieved which is individual to each patient Part One covers the general aspects of ophthalmic care in the various situations where patients are nursed e.g. casualty theatre wards Part Two is based on a medical model where each section of the eye is studied separately the applied physiology of that part of the eye the more common conditions affecting it the possible medical management of the condition and the nursing care of the patient taking into account the medical prescription The list of medical conditions is not exhaustive and only a general guideline of medical management is given as far as it influences nursing care A list of widely available books for further reference to ocular pathology and medical management is given in the Appendix

Blindness and Visual Handicap John Hatherley Dobree, Eric Boulter, 1982 This book describes the action that can be taken for the enrichment of life for those with little or no sight and to bring new hope to the visually impaired The information in this book about the cause and effects of eye ailments and ways of alleviating their social and economic effects

should help to make more effective the activities of social workers community leaders employers and all who in their work or daily lives come into contact with blind or partially sighted people **Blindness, Visual Impairment, Deaf-blindness** ,1976 Consists of abstracts of literature not indexed in Index medicus **The New Beacon** ,1997 Rehabilitation of the Visually Impaired Frank W. DiChiara O.D. F.A.A.O.,2021-06-16 This book is about the visually impaired It describes the usual elements of low vision the low vision examination the corrective devices microscopes telescopes hand and stand magnifiers and nonoptical aids There is so much more and the book can be a great reference for the social worker the physical therapist the occupational therapist the optometrist and ophthalmologist and anyone who works with visually impaired individuals There is a wealth of information that our authors have made available to the reader The optics are simple to understand Anyone who works with visually impaired will comprehend the pathology as most will have been exposed to them Contributions have been made by prominent men and women such as Dr Paul Ajamian Dr Wayne Hoeft Dr Lawrence Kline Dr William Padula Dr Bruce Rosenthal Dr Tracy Williams and Dr Norman Weiss They are some icons in the field of low vision
