In Search of the Common Good Dennis McCann, Patrick D. Miller, 2005-02-04 Biblical scholars and theologians search for the meaning of the common good for our time *In Search of the Common Good* Jake Meador, 2019-06-25 Common life in our society is in decline our communities are disintegrating our public discourse is hateful and economic inequalities are widening In this book Jake Meador reclaims a vision of common life for our fractured times a vision that doesn't depend on the destinies of our economies or our political institutions but on our citizenship in a heavenly city Only through that vision can we truly work together for the common good Thomas Paine Joyce Chumbley, Leo Zonneveld, 2009 In Search of Elegance Michel Lincourt, 1999 What is architecture How is it made How is it judged These fundamental questions have intrigued architects for centuries While the questions are philosophical the answers have important ramifications for architectural practice In Search of Elegance provides answers to these complex questions and in so doing develops a new theory for the practice of architecture and urban design In Search of Good Energy Policy Marc Ozawa, Jonathan Chaplin, Michael Pollitt, David Reiner, Paul Warde, 2019-06-20 Offers an innovative look at why science and technology cannot alone meet the needs of energy policy making in the future **In Search of the Nonprofit Sector** Jonathan B. knowing where it is going and without trying to plan the itinerary And everything important in our lives livelihood human bonds partnerships neighbourhood goals worth pursuing and dangers to avoid feels transient precarious vulnerable insecure uncertain risky Is there a connection between the shape of the world we inhabit and the way we live our lives Exploring that connection and finding out just how close it is is the main concern of this book What is at stake in this inquiry is the possibility of re building the private public space where private troubles and public issues meet and where citizens engage in dialogue in order to govern themselves Individual liberty can only be a product of collective work it can only be collectively secured and guaranteed And yet today we are moving towards a privatization of the means to secure individual liberty If seen as a therapy for the present ills this is bound to produce effects of a most sinister kind The act of translating private troubles into public issues is in danger of falling into disuse and being forgotten The argument of this book is that making the translation possible again is an urgent and vital imperative for the renewal of politics today This new book by Zygmunt Bauman one of the most original and creative thinkers of our time will be of particular interest to students of sociology politics and social and political theory In Search of a New Humanism M.R. Egidi, 2013-04-17 This collection of essays presents a systematic and up to date survey of the main aspects of Georg Henrik von Wright s philosophy tracing the general humanistic leitmotiv to be found in his vast varied output The analysis covers the developments in Von Wright s thought up to the end of the 1990s The essays are arranged thematically to focus on the chief areas of Von Wright s interests practical rationality human action and determinism philosophical logic and theories of norms research in the analytical tradition and Wittgenstein studies Readership Scholars and students of moral philosophy logic psychology sociology cognitive science and the history of contemporary philosophy **In Search of the Good** Daniel Callahan, 2012-10-19 One of the founding fathers of bioethics describes the development of the field and his thinking on some of the crucial issues of our time Daniel Callahan helped invent the field of bioethics more than forty years ago when he decided to use his training in philosophy to grapple with ethical problems in biology and medicine Disenchanted with academic philosophy because of its analytical bent and distance from the concerns of real life Callahan found the ethical issues raised by the rapid medical advances of the 1960s which included the birth control pill heart transplants and new capacities to keep very sick people alive to be philosophical questions with immediate real world relevance In this memoir Callahan describes his part in the founding of bioethics and traces his thinking on critical issues including embryonic stem cell research market driven health care and medical rationing He identifies the major challenges facing bioethics today and ruminates on its future Callahan writes about founding the Hastings Center the first bioethics research institution with the author and psychiatrist Willard Gaylin in 1969 and recounts the challenges of running a think tank while keeping up a prolific flow of influential books and articles Editor of the famous liberal Catholic magazine Commonweal in the 1960s Callahan describes his now secular approach to issues of illness and mortality He questions the idea of endless medical progress and interventionist end of life care that seems to blur the

boundary between living and dying It is the role of bioethics he argues to be a loyal dissenter in the onward march of medical progress The most important challenge for bioethics now is to help rethink the very goals of medicine

In Search of the Good Life Fred Dallmayr, 2007-08-31 The great German novelist Thomas Mann implored readers to resist the persistent and growing militarism of the mid twentieth century To whom should we turn for guidance during this current era of global violence political corruption economic inequality and environmental degradation For more than two millennia the world's great thinkers have held that the ethically good life is the highest purpose of human existence Renowned political philosopher Fred Dallmayr traces the development of this notion finding surprising connections among Aristotelian ethics Abrahamic and Eastern religious traditions German idealism and postindustrial social criticism In Search of the Good Life does not offer a blueprint but rather invites readers on a cross cultural quest Along the way the author discusses the teachings of Aristotle Confucius Nicolaus of Cusa Leibniz and Schiller in addition invoking more recent writings of Gadamer and Ricoeur as guideposts and sources of hope during our troubled times Among contemporary themes Dallmayr discusses are the role of the classics in education proper and improper ways of spreading democracy globally the possibility of transnational

citizenship the problem of politicized evil and the role of religion in our predominantly secular culture Dallmayr restores the notion of the good life as a hallmark of personal conduct civic virtue and political engagement and as the road map to enduring peace In Search of the Good Life seeks to arouse complacent and dispirited citizens guiding them out of the distractions of shallow amusements and perilous resentments in the direction of mutual learning and civic pedagogy a direction that will enable them to impose accountability on political leaders who stray from fundamental ethical standards

Cordella, 2022-04-15 One of the differentiating factors of our present is the increased environmental awareness. However, this has not yet been converted into social, economic, and law systems that reveal the multiple challenges that are imposed on us. The destructive impulse of the dominant ideologies in the twentieth century maintains the hegemony of their spaces barely trying to adapt itself into a new reality that surpasses them. Meanwhile, in 1972 we believed there was a marked environmental degradation; in 2022 we recognize that we are in the middle of the sixth mass extinction of the species; the earth's temperature has already increased by more than one degree Celsius, and a significant percent of the planet's sweet water is contaminated. If the Constitution that Chile is planning to write and set in force in the years to come wants to capture the logic of our times, it is essential that it sets as something basic the environmental conditions where the legal political communities constituted by the Chilean communities are going to develop. This book explores the details of the Ecological Constitution concept that refers to the provisions that have to be contained in a Constitution in a transversal way and that setting the environmental protection as a central axis of the social organization attempts to harmonize the social and nature activities. The new Constitution of Chile won't change everything, but it can constitute a first fundamental base on that change. This book is an invitation to dream with that possibility and reflect on the different ways that the Constitution can take us in that direction. The systematic changes are urgent, and we are in the position to begin with them. Ezio Costa Cordella

In Search of Goodness Ruth W. Grant, 2011-03-15 The recent spate of books and articles reflecting on the question of evil might make one forget that the question of just what constitutes goodness is no less urgent or perplexing. Everyone wants to think of him or herself as good. But what does a good life look like? And how do people become good? Are there multiple competing possibilities for what counts as a good life, all equally worthy? Or is there a unified and transcendent conception of the good that should guide our judgment of the possibilities? What does a good life look like when it is guided by God? How is a good life involved with the lives of others? And finally, how good is good enough? These questions are the focus of *In Search of Goodness*, the product of a year-long conversation about goodness. The eight essays in this volume challenge the dichotomies that usually govern how goodness has been discussed in the past: altruism versus egoism, reason versus emotion, or moral choice versus moral character. Instead, the contributors seek to expand the terms of the discussion by coming at goodness from a variety of perspectives: psychological, philosophic, literary, religious, and political. In each case, they emphasize the lived realities and particulars of moral phenomena, taking up examples and illustrations from life, literature, and film. From Achilles and Billy Budd to Oskar Schindler and Shel Silverstein's *The Giving Tree* to Iris Murdoch and the citizens of Flagstaff, Arizona, readers will find a wealth of thought-provoking insights to help them better understand this most basic but complex element of human life and happiness. In Search of Understanding Clinton Bennett, 2019-10-04 Clinton Bennett reflects on four

decades of engagement with Muslims and Christian Muslim relations as a missionary scholar and interfaith activist Set in the context of his personal story chapters discuss a series of critical questions to the Christian Muslim relationship reprising earlier writing Bennett asks can Christians appreciate the prophet Muhammad as a genuine messenger from God or is this theological treason How might Christians respond to the Muslim claim that Jesus was a prophet and is not God incarnate Can Christians with integrity regard the Qur n as a word from God and is there any possibility of rapprochement on the issue of whether Jesus died on the cross Focusing on the United States Bennett also describes church sponsored Christian Muslim initiatives and offers suggestions on how Christians can rethink their ideas about Muslims and cooperate with them in peace and justice advocacy and social and community development Exploring some of the causes of Islamophobia Bennett set out to challenge Christians to keep the commandment not to bear false witness against their Muslim neighbors In Search of Humanity Andrea Radasanu, 2015-03-18 This collection of essays offered in honor of the distinguished career of prominent political philosophy professor Clifford Orwin provides a wide context in which to consider the rise of humanity as one of the chief modern virtues A relative of and also a replacement for formerly more prominent other regarding virtues like justice and generosity humanity and later compassion become the true north of the modern moral compass Contributors to this volume consider various aspects of this virtue by comparison with what came before and with attention to its development from early to late modernity and up to the present
