A Century of Revolution John Foran, 1994 Provides insight into the political currents that led to the Iranian revolution Before late 1978 Iran did not occupy a large place in the public mind mass media or academic pursuits With the massive upheaval of the next few months all this changed and the world is still trying to catch up with the dramatic events that brought Iran to its attention This volume offers a much needed look into the historical social and political developments leading up to the Iranian revolution Bringing together a group of scholars historians and social scientists most of them Iranian in origin the book documents an extraordinary revolutionary heritage that predates this century Each contributor examines a critical moment in Iranian social history on its own terms as well as within a larger theoretical and comparative context The topics they take up include the Tobacco Rebellion of 1890-91 the Constitutional Revolution of 1905-11 the rise of Reza Khan between 1921 and 1925 the autonomy movement in Azerbaijan and Kurdistan after World War II the oil nationalization movement under Musaddiq between 1951 and 1953 the unrest of the 1960-63 period the Iranian revolution of 1977-79 the state of Iran since the revolution Throughout common themes emerge especially the heterogeneous bases of Iranian social movements with respect to class gender and ethnicity as well as the diverse discourses nationalist Islamic socialist populist and radical that have animated these movements Representing a wide variety of perspectives and approaches this volume provides crucial insight into the widely watched but poorly understood phenomenon of present day Iran Contributors Janet Afary Purdue University John Foran University of California Santa Barbara Amir Hassanpour Uppsala University Mansoor Moaddel Eastern Michigan University Val Moghadam United Nations University Misgah Parsa Dartmouth College Sussan Siavoshi Trinity University Michael Zirinsky Boise State University

egalitarian gender and sexual relations **In the Eye of the Storm** Mahnaz Afkhami, Erika Friedl, 1994 *The Birth of a Celestial Light* Tina Eftekhari, 2015-01-12 It is interesting that women who campaign for women's rights and interests in Iran have not considered engaging with women who are neither conventional Muslims nor strongly secular but instead explore other aspects of religion and spirituality. The women examined in this study identify themselves as believers in God but have different views of religion; some wish to be called religious but do not follow the official Islamic Shia and have their own interpretation of what it means to be a good Muslim while some think of spirituality as their religion and refer to themselves as spiritual. Scholarship on women in Iran has not yet taken such an approach and has not considered women's interests in spirituality with regard to religion. As such, this book differs greatly from existing work on Iranian women's lives after the Islamic revolution. It examines the potential feminist implications of women's involvement in one of the most popular spiritual movements, Inter-universal Mysticism, and its emancipatory potential for women. The central argument here is that feminist spirituality is an expression of women's power to identify, explore, and assess their own spiritual experiences in order to construct their own sense of self and transform their lives. As such, this book broadens discourses about women in Iran by examining the link between spirituality, coping, and meaning-making in the lives of women involved with Inter-universal Mysticism. The study's unique contribution is not simply that it extends the range of contexts in which gender can be analysed but rather that it, through the lens of feminism, demonstrates the significance of women's choice of spirituality as an investigative issue which can elucidate women's wider social, cultural, and political processes in contemporary Iran.

Muslim Women Reclaim their Gender Legacy Moin Qazi, 2024-06-21 In this book, the author Moin Qazi delineates the trajectory of Islamic feminism, which scholars are now actively researching because of the transformative advances made by Muslim women. These women have escaped the subjugation and oppression they endured for centuries. The continuing grim portrayals of these women hit the author's nerve. He believed it was imperative to highlight modern Muslim women's true breadth of experience. The Islamic feminist landscape is already undergoing a profound transformation. Historically, Islam was incredibly advanced in providing revolutionary rights for women and uplifting their status. Scholarship on Islamic women has expanded exponentially over the past few decades, and there has been cross-pollination between other fields and disciplines. Islamic doctrine has enabled women to participate in battlefields, independently carry on trade and business, and when circumstances demand it. The most outstanding achievement of early Islam concerning women was its strict prohibition of female infanticide. A preference for male babies was evidence of deep-seated bias against girls. Many of the revelations in the Qur'an were by nature reform-oriented, transforming critical aspects of pre-Islamic customary laws and practices in progressive ways and eliminating injustice for women. The book is a prism from which to view the Muslim feminist revolution. The author analyses how the patriarchal-oriented rulers and clerics have obliquely tried to roll back these reforms. But of late, women have finally been able to morph from their pathetic condition and redefine the contours of their gender space.

Identity Politics And Women Valentine M. Moghadam, 2019-04-09 Identity politics refers to discourses and movements organized around questions of religious ethnic and national identity This volume focuses on political cultural movements that are making a bid for state power for fundamental juridical change or for cultural hegemony In particular the contributors explore the relations of culture identity and women providing vivid illustrations from around the world of the compelling nature of Woman as cultural symbol and Woman as political pawn in male directed power struggles The discussions also provide evidence of women as active participants and as active opponents of such movements Taken together the chapters provide answers to some pressing questions about these political cultural movements What are their causes Who are the participants and social groups that support them What are their objectives Why are they preoccupied with gender and the control of women The first section of the book offers theoretical comparative and historical approaches to the study of identity politics A second section consists of thirteen case studies spanning Muslim Christian Jewish and Hindu countries and communities In the final section contributors discuss dilemmas posed by identity politics and the strategies designed in response

Rethinking Muslim Women and the Veil Katherine Bullock, 2007-01-01 Until now the bulk of the literature about the veil has been written by outsiders who do not themselves veil This literature often assumes a condescending tone about veiled women assuming that they are making uninformed decisions choices about veiling makes them subservient to a patriarchal culture and religion Rethinking Muslim Women and the Veil offers an alternative viewpoint based on the thoughts and experiences of Muslim women themselves This is the first time a clear and concise book length argument has been made for the compatibility between veiling and modernity Katherine Bullock uncovers positive aspects of the veil that are frequently not perceived by outsiders Rethinking Muslim Women and the Veil looks at the colonial roots of the negative Western stereotype of the veil It presents interviews with Muslim women to discover their thoughts and experiences with the veil in Canada The book also offers a positive theory of veiling The author argues that in consumer capitalist cultures women can find wearing the veil a liberation from the stifling beauty game that promotes unsafe and unhealthy ideal body images for women This book also includes an extensive bibliography on topics related to Muslim women and the veil
