## **In Twee Werelden:**

**Twee Werelden. [Poems.].** Lambertus Hendrikus VOETEN, 1947      **Life Time Entirety** Helena Maria Keizer, 2010-04-15 Some of the theses developed in this book In the meanings of the ancient Greek word *Aion* lifetime life lot generation all time eternity three notions play a part in variable combinations and with a variable centre of gravity These notions are **LIFE TIME ENTIRETY** The meaning of the words *aion* and *aionios* in the Greek Bible Septuagint and New Testament is primarily that of the Hebrew word *olam* The Hebrew word *olam* indicates time as it constitutes for us humans the horizon within which we live and which delimits the scope of the knowledge given us This horizon can be limited as a human lifetime but can also be the widest conceivable encompassing all time that is concomitant with the created world and its future When Plato pronounces his famous dictum that time *chronos* is an *aionic* image which proceeds according to number of *aion* which remains at one *Timaeus* 37d the term eternity as the classic translation of *aion* does not give expression to the fact that the word here stands for time as a whole a completeness of time comparable to a lifetime Infinity is not an intrinsic or necessary connotation of *aion* either in the Greek or in the Biblical usage The Greek word *aion* refers to all time seen from outside as a whole the Hebrew word *olam* refers to all time seen from within as a horizon      **Immigrant Nations** Paul Scheffer, 2011-06-20 A defence of the meaning and function of borders and their necessity in the face of authoritarian attitudes to multiculturalism      *The History of the Jews in the Netherlands* Hans Blom, R.G. Fuks-Mansfeld, I. Schöffer, 2001-12-01 This acclaimed history of the Jewish role in Dutch society through the ages now available in English considers the internal evolution of the Jewish community as well as the social cultural and economic interaction with the wider population This general survey should appeal to a wide public interested in the history of the Jews of the Netherlands Het Parool      **Defending French in Flanders, 1873-1974** David J. Hensley, 2023-12-28 This book examines the efforts of the French speaking minority in Flanders Belgium to maintain a legal and social presence of the French language in Flemish public life Chronologically the study is bookended by two developments almost exactly a century apart In 1873 the first laws were passed which required the use of Dutch in some aspects of public administration in Flanders challenging the *de facto* use of French among the Flemish ruling class One hundred and one years later the last French daily newspaper in Flanders collapsed marking the end of a once vibrant French language public sphere in Flanders The author contends that the methods and arguments by which French speakers defended the role of French in Flemish public life changed along with the social and political situation of this minority As the Flemish movement grew over the course of the twentieth century French speakers appeals to the free choice of language lost traction and they put forward claims that they represented an ethnolinguistic minority who deserved protection for their mother tongue Providing new insights for scholars of European history and in conversation with the literature on liberalism national identity and Francophonie this book demonstrates how the debate over the role of French in Flanders was at the center of Belgium's ethnolinguistic conflict the repercussions of

which continue to be felt to this day     Reappraising the History of the Jews in the Netherlands Hans Blom, David J. Wertheim, Hetty Berg, Bart T. Wallet, 2021-09-15 The two decades since the last authoritative general history of Dutch Jews was published have seen such substantial developments in historical understanding that new assessment has become an imperative This volume offers an indispensable survey from a contemporary viewpoint that reflects the new preoccupations of European historiography and allows the history of Dutch Jewry to be more integrated with that of other European Jewish histories Historians from both older and newer generations shed significant light on all eras providing fresh detail that reflects changed emphases and perspectives In addition to such traditional subjects as the Jewish community's relationship with the wider society and its internal structure its leaders and its international affiliations new topics explored include the socio economic aspects of Dutch Jewish life seen in the context of the integration of minorities more widely a reassessment of the Holocaust years and consideration of the place of Holocaust memorialization in community life and the impact of multiculturalist currents on Jews and Jewish politics Memory studies diaspora studies postcolonial studies and digital humanities all play their part in providing the fullest possible picture This wide ranging scholarship is complemented by a generous plate section with eighty fully captioned colour illustrations Translated by David McKay     Industrial Collaboration in Nazi-Occupied Europe Hans Otto Frøland, Mats Ingulstad, Jonas Scherner, 2016-09-22 This book brings together leading experts to assess how and whether the Nazis were successful in fostering collaboration to secure the resources they required during World War II These studies of the occupation regimes in Norway and Western Europe reveal that the Nazis developed highly sophisticated instruments of exploitation beyond oppression and looting The authors highlight that in comparison to the heavy manufacturing industries of Western Europe Norway could provide many raw materials that the German war machine desperately needed such as aluminium nickel molybdenum and fish These chapters demonstrate that the Nazis provided incentives to foster economic collaboration hoping that these would make every mine factory and smelter produce at its highest level of capacity All readers will learn about the unique part of Norwegian economic collaboration during this period and discover the rich context of economic collaboration across Europe during World War II     **Literature, Language, and Multiculturalism in Scandinavia and the Low Countries** Wolfgang Behschnitt, Sarah De Mul, Liesbeth Minnaard, 2013-11-05 Literature Language and Multiculturalism in Scandinavia and the Low Countries presents a ground breaking comparative approach to the study of multicultural literature Focusing on the development of migration literature in Sweden Denmark Flanders and the Netherlands the volume argues that the political and institutional preconditions for the development of multicultural literatures are still given within the frame of the nation state As a consequence both the field of migration literature and the multi lingual quality of literary texts are shaped differently in each state and in each language area The volume delineates the development of multicultural literature in Scandinavia and the Low Countries as a function of the specific language situations in these countries as well as the various political institutional and discursive contexts This

book not only offers a comprehensive theoretical and methodological analysis of multilingualism and multicultural literature but also provides overviews sketching the discourse on multiculturalism language and the development of the literary field in Sweden Denmark the Netherlands and Flanders Besides it presents a broad range of in depth analyses of selected literary texts from each of these countries

**Elegant Anatomy** Marieke M.A. Hendriksen,2015-01-27 In *Elegant Anatomy* Marieke Hendriksen offers an account of the material culture of the eighteenth century Leiden anatomical collections which have not been studied in detail before The author introduces the novel analytical concept of aesthesis as these historical medical collections may seem strange and undeniably have a morbid aesthetic yet are neither curiosities nor art As this book deals with issues related to the keeping and displaying of historical human remains it is highly relevant for material culture and museum studies cultural history the history of scientific collections and the history of medicine alike Unlike existing literature on historical anatomical collections this book takes the objects in the collections as its starting point instead of the people that created them

**History in Dutch Studies** Robert B. Howell,Jolanda Vanderwal Taylor,2003 *History in Dutch Studies* re considers the central role of history within the discipline of Dutch Studies as viewed from a range of specializations within the field Contributions by scholars of Dutch history art history literature and linguistics all illustrate how the past and one s theories and views of history affect the practice of each part of the discipline One reflection of the history of the Low Countries in Dutch Studies is the range of the field it is interpreted broadly in this volume to include studies of Afrikaans as well as Dutch literature poetry as well as prose in light of their histories the history of Flanders and that of the Netherlands approaches within Dutch linguistics as well as a history of language contact and its influence on Dutch This breadth continues in the range of institutions and nationalities that are represented The volume presents work from major scholars from the Netherlands Belgium and South Africa as well as from the United States of America These articles therefore provide a good cross section of ongoing research in the Netherlandic Studies the world over

*The Kuyper Center Review, Volume 4* Gordon Graham,John Bowlin,2014-04-20 This volume of essays is a new step by the Abraham Kuyper Center for Public Theology at Princeton Theological Seminary to stimulate new work in the broad area of Reformed theology and public life The contributions here deal largely with political themes some contemporary some historical

Controlling Time and Shaping the Self J. Arianne Baggerman,Rudolf M. Dekker,Michael James Mascuch,2011-06-22 This book gives answers to questions surrounding the rise of autobiographical writing from the sixteenth to the twentieth century by analyzing texts varying from the time of the Spanish Inquisition to post war Japan

**Literature of the Low Countries** Reinder Meijer,2012-12-06 In any definition of terms Dutch literature must be taken to mean all literature written in Dutch thus excluding literature in Frisian even though Friesland is part of the Kingdom of the Netherlands in the same way as literature in Welsh would be excluded from a history of English literature Similarly literature in Afrikaans South African Dutch falls outside the scope of this book as Afrikaans from the moment of its birth out

of seventeenth century Dutch grew up independently and must be regarded as a language in its own right Dutch literature then is the literature written in Dutch as spoken in the Kingdom of the Netherlands and the so called Flemish part of the Kingdom of Belgium that is the area north of the linguistic frontier which runs east west through Belgium passing slightly south of Brussels For the modern period this definition is clear enough but for former times it needs some explanation What do we mean for example when we use the term Dutch for the medieval period In the Middle Ages there was no standard Dutch language and when the term Dutch is used in a medieval context it is a kind of collective word indicating a number of different but closely related Frankish dialects The most important of those were the dialects of the duchies of Limburg and Brabant and of the counties of Flanders and Holland

*De glazen kooi* Nicholas Carr,2014-12-09 In Het ondiepe liet Nicholas Carr ons zien wat internet met onze hersenen doet In *De glazen kooi* opent hij ons de ogen voor een van de belangrijkste trends van het moment de automatisering van onze samenleving De voordelen liggen voor de hand denk aan zelfrijdende auto's medische robots en gespecialiseerde apps We geven taken uit handen aan machines die het vaak sneller en beter kunnen en vervolgens hebben wij de vrijheid om onze tijd aan andere zaken te besteden Volgens Nicholas Carr staat er echter veel op het spel onze creativiteit en individuele talenten blijken op onverwachte manieren vervlochten met de taken die we uitbesteden Wie alleen nog maar op zijn rekenmachine vertrouwt zal wiskunde nooit echt goed begrijpen wie alleen nog navigatiesoftware gebruikt zal zijn richtingsgevoel kwijtraken En het gaat nog veel verder dan rekenmachines en TomToms alleen De talenten en vaardigheden van onze piloten artsen managers docenten en politici veranderen op ingrijpende wijze als gevolg van automatisering Technologie brengt ons veel goeds maar het creëert ook een glazen kooi die ons beperkt Dit najaar maakt Nicholas Carr deze kooi zichtbaar , 10 Jaar Architectonisch Ontwerp Aan de Gerrit Rietveld Academie Gert Staal,Gerrit Rietveld Academie,2004

**'The Eurasian Question'** Liesbeth Rosen Jacobson,2018 Within the borders of these isles shall remain a race one calls Indo Neither white nor brown This Indo was part of the Indo Europeans a group of mixed indigenous and European ancestry from the former Dutch East Indies In almost all other Asian colonies including British India and French Indochina which are also covered in this study such a group of mixed ancestry came into being The future of these Eurasians after decolonisation was quite insecure The European rulers on which their status was based were gone The new indigenous rulers perceived them suspiciously as colonial remnants and often even as traitors In this chaotic situation they were forced to make a choice between staying in the former colony or leaving for the European mother country Did they belong in the country of their European fathers or the former colony the country of their Asian mothers

**Liability for Damage to Public Natural Resources:Standing, Damage and Damage Assessment** Edward Brans,2001-10-17 This book focuses on liability for damage to those natural resources that are of interest to the public and are protected by national European or international law It provides an overview of the law of the United States and of certain EU Member States on the recovery of damages for injury to natural resources The international civil liability

conventions that cover environmental harm and the recently published European Commission's White Paper on environmental liability are also discussed. The ongoing development in various international forums of treaties or protocols dealing with liability for environmental damage are analyzed as are the principles developed by the UNEP Working Group established in response to the 1990 Gulf War to advise the UNCC on claims for damage to natural resources. The book addresses assessment and valuation issues, the issue of standing in cases of injury to unowned natural resources and the determination of ways to repair, restore and compensate for natural resource injuries and the associated loss of ecological and human services. It also explains why such a difference exists between the US and most European jurisdictions and international liability conventions as to the recovery of damages for injury to natural resources. [Finding List of the Chicago Public Library](#) Chicago Public Library, 1884      **Framing a Vision of the World** André Cloots, 1999. Since for Jan Van der Veken our vision of the world and especially the placing of God and religion in it has been the basic concern in all his work and thought, this problem is also at the core of this volume.
