Animal Myths and Metaphors in South America Gary Urton, 1985 What similarities and differences do humans see between themselves and animals Why do people commonly make metaphorical comparisons between human beings or social groups and animals and to what degree are people's attitudes and beliefs about animals parallel to or contingent upon their attitudes and beliefs about human beings and human society This collection of articles considers these issues The issues are basic in any study of totemism or human and animal relationships and they have been discussed in anthropological literature since the time of Lewis Henry Morgan's work on Iroquois social organization The contributors to this anthology have not limited themselves to the notion that clans and moieties are the only sources and objects of metaphorical comparisons between humans and animals They suggest a shift in perspective that has metaphorical comparisons generated by conceived similarities and differences between animals and particular types of human beings Some examples of this include macaw fledglings as adolescents pumas as fully initiated men and foxes as young married men With this shift of emphasis a significantly different analytic focus in the study of human animal relations is produced

**From Viracocha to the Virgin of Copacabana** Verónica Salles-Reese, 2010-07-05. Surrounded by the peaks of the Andean cordillera, the deep blue waters of Lake Titicaca have long provided refreshment and nourishment to the people who live along its shores. From prehistoric times, the Andean peoples have held Titicaca to be a sacred place, the source from which all life originated and the site where the divine manifests its presence. In this interdisciplinary study, Verónica Salles-Reese explores how Andean myths of cosmic and ethnic origins centered on Lake Titicaca evolved from pre-Inca times to the enthronement of the Virgin of Copacabana in 1583. She begins by describing the myths of the Kolla pre-Inca people and shows how their Inca conquerors attempted to establish legitimacy by reconciling their myths of cosmic and ethnic origin with the Kolla myths. She also shows how a similar pattern occurred when the Inca were conquered in turn by the Spanish. This research explains why Lake Titicaca continues to occupy a central place in Andean thought despite the major cultural disruptions that have characterized the region's history. This book will be a touchstone in the field of Colonial literature and an important reference for Andean religious and intellectual history.

Contents: Creation, male and female relationships, natural disaster, survival, death, and the afterlife.
