open research on sensitive topics and further dispels the prejudiced idea of a society closed to any kind of external influence Saudi Arabia's granting of hospitality to refugees reinforces historic tribal and universal norms in contrast to misplaced notions of hostility toward Western standards which in the case of migrants and refugees has seen the application of confused and alarming standards of behaviour by a plethora of Western states Published in conjunction with the King Faisal Center for Research and Islamic Studies KFCRIS *Refugees Worldwide* Doreen Elliott, Uma A. **Mechanisms of Immigration Control** Grete Brochmann, Tomas Hammar, 2020-06-03 Perhaps the most vexing question facing Europe today is what to do about asylum seekers and people in search of work who arrive daily some escaping nations where poverty and persecution are for them facts of life Given its costs both human and economic immigration policy has understandably become a highly politicized issue With the abolition of internal borders within the EU new controls are needed to stop immigration and to prevent non citizens from working illegally New external policies are being used such as early warning systems and visa controls with the long term aim of reducing emigration from poor and war ridden nations Europe has also intensified its control of internal aliens But there are limits to how tight a control can be made

without violating the norms and values of the democratic state where human rights should be valid for citizens and non citizens alike However free immigration is not in the interests of the European states It might undermine labour and housing markets make planning impossible and alter the preconditions for welfare states This timely book addresses the politics and mechanisms of immigration control in Europe in an effort to unravel its complexities and propose sensible solutions It covers recent events including racist and populist party politics as well as changes in the international setting such as the development within the European Union and Schengen and the recent refugee crisis in the former Yugoslavia It will be essential reading for anyone interested in immigration studies European politics international relations anthropology and sociology
