International Conflict For Beginners:

International Conflict for Beginners Roger Fisher, 1984
Fisher, 1969 *Basic Negotiating Strategy* Roger Fisher, 1971
Martin Rochester, 2018-04-17 This book distills the essential elements of world politics both the enduring characteristics as well as the revolutionary changes that may be altering the very fabric of the centuries old state system Author J Martin Rochester explores all the important topics that one would expect to find in an IR text war diplomacy foreign policy international law and organization the international economy and more but injects fresh perspectives on how globalization and other contemporary trends are affecting these issues In addition the author does so through a highly engaging lively writing style that will appeal to today s students **Fundamental Principles of International Relations** is a tightly woven treatment of international politics past and present drawing on the latest academic scholarship while avoiding excessive jargon and utilizing pedagogical aids while avoiding clutter Rochester ultimately challenges the reader to think critically about the future of a post Cold War and post 9 11 world that is arguably more complex if not more dangerous than some previous eras with the potential for promise as well as peril **The Conflict Helix** R. J. Rummel, This is a book on conflict and consensus aimed at the general reader In active plain and direct language it makes the seemingly abstract and complex issues simple Its view of peace is well rounded tough minded one that well understands the difficult world of social and personal violence and conflict At its heart is a simple finding to wage peace we need to foster freedom The human race can best achieve that simple aim by leaving people alone to form their own communities The Conflict Helix avoids the ambiguous in favor of the categorical the hedged qualified statement for the direct Rummel presents a series of basic principles each concerning an aspect of conflict and peace psychological interpersonal societal international and each aspect having its own master principle These principles are not mere organizational props but are deeply theoretical and empirically fundamental The volume expresses the core ideas results and conclusions of Rummel s major five volume work on Understanding Conflict and War In discarding technical material and focusing on principles and meaning The Conflict Helix presents an executive summary of a lifetime of work in a digestible form In light of recent events in Europe Asia and Latin American this work takes on a special poignancy for the developing no less than the industrialized worlds Hence this book should be of value to the general reader as well as professionals and advanced students of international politics **Conflict Regulation** Paul Wehr, 2019-03-01 This volume examines conflict and conflict regulation processes The author reviews theories of conflict and techniques of conflict management and then presents case studies of self limiting conflict in Gandhi s India Nazioccupied Norway and at a nuclear weapons plant in Colorado to illustrate unconventional approaches to conflict regulation He The Structure and Process of International Law Ronald St. John Macdonald, Douglas M. Center for Area and Country Studies,1970 Force and accommodation in world politics ,1991 The Social Psychology of Intergroup Conflict Wolfgang Stroebe,Arie W. Kruglanski,Daniel Bar-Tal,Miles Hewstone,2012-12-06 The area of intergroup relations and social conflict has once again become a major focus of social psychological theorizing and research One of the consequences of this advance in knowledge is that social psychologists have increasingly been called upon to apply their ideas in order to advise on existing conflicts The significant contribution of this book is the way it builds on the research and theory of intergroup conflict and then applies this knowledge to the field The areas discussed include industrial conflicts interethnic conflicts and intergroup conflicts The chapters range from reports of experimental laboratory research through field studies to theoretical conceptual contributions The new advances offered by this broad spectrum of topics will be of interest not only to social psychologists but also to sociologists and political scientists Sanctions for Nuclear Disarmament and Non-Proliferation Armend Bekaj,Peter Wallensteen,2024-09-02 This book examines the interplay between sanctions and nuclear disarmament and non proliferation The volume aims to tackle three separate but closely intertwined issues It aims to revisit the debate on and deconstruct the concept of sanctions to provide a working theoretical framework to differentiate between positive sanctions or incentives or carrots and negative sanctions to identify the actors who may initiate sanctions i e states regional and or international organizations to ascertain the legality and legitimacy of such sanctions taking place to problematize and discuss the utility of sanctions and so on It aims to disentangle the concepts of nuclear disarmament and non proliferation particularly in light of the most recent geopolitical global shifts on nuclear powers interplay taking place in the background of the war in Ukraine

and rising tensions in Southeast Asia and so on Finally it aims to conjoin the cause and effect cases between the application of sanctions on the one hand and the decision by states to pursue nuclear disarmament and non proliferation on the other By doing so the volume helps to update and stimulate the academic and policy debate on the inter relation between sanctions and nuclear disarmament and non proliferation This book will be of much interest to students of nuclear non proliferation economic sanctions security studies and International Relations
