International Documents On Palestine 1978:

International Documents on Palestine, 1979, 1981 Homelands Nadav G. Shelef, 2020-07-15 Why are some territorial partitions accepted as the appropriate borders of a nation's homeland whereas in other places conflict continues despite or even because of division of territory In Homelands Nadav G. Shelef develops a theory of what homelands are that acknowledges both their importance in domestic and international politics and their change over time These changes he argues driven by domestic political competition and help explain the variation in whether partitions resolve conflict Homelands also provides systematic comparable data about the homeland status of lost territory over time that allow it to bridge the persistent gap between constructivist theories of nationalism and positivist empirical analyses of international relations *The Palestinian National Movement* Amal Jamal, 2005-06-08 A comprehensive up to date account of the dynamics in the Palestinian political arena Ann M. Lesch Villanova University This innovative study examines the internal dynamics of the Palestinian political elite and their impact on the struggle to establish a Palestinian state The PLO leadership has sought to prevent the rise of any alternative in the West Bank and Gaza Strip that can challenge its authority to represent Palestinian aspirations for self-determination Drawing on Palestinian sources and interviews with Palestinian political leaders Jamal argues that the Fatah leadership has attempted to mobilize new social forces local secular nationalist and Islamist movements while undermining their ability to develop independent power structures This policy has served to radicalize the younger local elites contributing to the tensions that precipitated the first and second intifadas Israel's policies have undermined the legitimacy of the national elite while enhancing the Islamist opposition's ideological legitimacy In this way internal elite disunity and growing political differentiation have worked against development of a common Palestinian strategy of state building *Arab-Israeli Diplomacy under Carter* Jørgen Jensenhaugen, 2018-06-07 The history of U.S. diplomacy in the Middle East is marked by numerous stark failures and a few ephemeral successes Jimmy Carter's short-lived Middle East diplomatic strategy constitutes an exception in vision and approach In this extensive and long overdue analysis of Carter's Middle East policy Jørgen Jensenhaugen sheds light on this important and unprecedented chapter in U.S. regional diplomacy Against all odds including the rise of Menachem Begin's right-wing government in Israel Carter broke new ground by demanding the involvement of the Palestinians in Arab-Israeli diplomatic negotiations This book assesses the president's comprehensive peace doctrine which aimed to encompass all parties of the conflict and reveals the reasons why his vision ultimately failed Largely based on analysis of newly declassified diplomatic files and American British Palestinian and Israeli archival sources this book is the first comprehensive examination of Jimmy Carter's engagement with the Palestinian-Israeli conflict At a time when U.S. involvement in the region threatens to exacerbate tensions further *Arab-Israeli Diplomacy under Carter* provides important new insights into the historical roots of the ongoing unrest The book will be of value to Middle East and International Relations scholars and those researching U.S. diplomacy and the Carter Administration *Jimmy*

Carter and the Middle East Daniel Strieff, 2015-08-05 Based on newly declassified documents this book offers a provocative new analysis of President Jimmy Carter's political role in Arab Israeli diplomacy It analyzes the reflexive relationship between domestic politics and foreign policy especially the roles played by the media public opinion and pro Israel lobby groups

The Israeli-Palestinian Conflict Yehuda Lukacs, 1992 A collection of documents and statements of the position of the parties involved in attempts to resolve the Israeli Palestinian conflict

The Middle East Since 1945 C. H.

Bleaney, Richard I. Lawless, 1989 A battleground of ideologies and competing Nationalisms the politics of oil the influence of the Superpowers the post war history of the Middle East is entangled in prejudice and myth The Middle East Since 1945 begins with a careful examination of earlier history in particular Jewish settlement in Palestine and the emergence of Arab Nationalism From here the authors discuss the creation of the State of Israel Nasser's rise to power in Egypt Suez the Arab Israeli wars and the violent upheavals in the Lebanon and Iran

Israel, Jordan, and the Peace Process Yehuda

Lukacs, 1997 Israel and Jordan even though self proclaimed enemies of one another practiced a relationship of interdependence based on corresponding interests In the years following the 1967 war these two countries fates were delicately intertwined because of many factors like mutual reliance on natural resources especially water and parallel interests in the subordination of the Palestinian national movement These conditions of commonality led to extensive ties between the two countries and approximated a state of de facto peace that ironically made an official peace treaty almost impossible to sign A formal peace treaty would have required not only Israel's withdrawal from the West Bank but also Jordan's acknowledgment of the clandestine contacts between the two formal enemies Yehuda Lukacs gives us an account of how this relationship changed in 1988 when Jordan disengaged from the West Bank This event combined with the Palestinian uprising and the Gulf War paved the way for Israel and Jordan in 1994 to sign the Israeli Jordanian peace treaty By systematically examining the impact of functional cooperation between two official enemies Lukacs makes an important contribution to Middle East studies and international conflict resolution

Regional Organisations and the

Development of Collective Security Ademola Abass, 2004-11-30 This book examines the development of collective security by regional organisations particularly after the Cold War It analyses the various constitutional developments that have occurred within regional arrangements such as ECOWAS African Union SADC OAS and NATO and critically analyses how these developments have propelled regional organisations to depart from the normative framework of regional arrangement contained in Chapter VIII of the UN Charter Through a comprehensive examination of practice the book evaluates the impact of regional organisations newly asserted powers to authorise enforcement action and determine when situations within member states warrant their intervention It inquires into the legal justifications for these developments both from within the UN Charter and regional treaties and practice and asks whether consensual intervention that is the use of force by regional organisations on the basis of their members consent contravenes or constitutes an exception to the prohibition of the use or

threat of force under Article 2 4 of the Charter The book also analyses the regime of complementarity between the UN and regional organisations

Arab-Israeli Peace Process Aftab Kamal Pasha,2000 The Arab Israeli Peace Process Is As Old As The Conflict Itself Which Can Be Traced To The Balfour Declaration If Not To The Basle Conference Numerous Attempts Have Been Made To Find Solutions To The Conflict This Volume Presents A Comprehensive Review And Critical Assessment Of The Us Attempts To Sideline The Palestinian Issue Under Israeli Jewish Pressure And Factors Leading To The Camp David Accords The Book Focuses On Some Of The Contentious Issues Like The Involvement Of Gulf States In The Peace Process Israeli Settlements In West Bank And Plo Peace Strategies Since Its Creation In 1964 Furthermore It Discusses The Fahd Fez Reagan Plans And The Saudi Role In The Peace Process Factional Fights Within The Plo And Outside Interference Especially Israeli And Syrian To Influence Developments In The Palestinian Movement Impact Of Palestinian Presence In Lebanon Factors Which Propelled Israel To Invade Lebanon And Plo Strategy To Push Israel Out Of That Country

Israel's Quest for Recognition and Acceptance in Asia Jacob Abadi,2004-03-01 This title represents a comprehensive study of Israel s attempts to build diplomatic relations with countries on the Asian continent The author argues that despite the persistence of the Arab Israeli conflict the Israeli Foreign Ministry was remarkably successful in gaining recognition in most Asian countries He provides an overview of Israel s relations with Asian countries from 1948 until the present and analyses the political social and economic factors in each country and the role that each played in the process of rapprochement with Israel He explores the reasons for Israel s successes as well as its failures and analyses the flaws in Israeli diplomacy

The Struggle for Lebanon Nasser M. Kalawoun,2000

The Publishers' Trade List Annual ,1985

Shared Land/Conflicting Identity Robert C. Rowland,David A. Frank,2002-12-31 Shared Land Conflicting Identity Trajectories of Israeli and Palestinian Symbol Use argues that rhetoric ideology and myth have played key roles in influencing the development of the 100 year conflict between first the Zionist settlers and the current Israeli people and the Palestinian residents in what is now Israel The Israeli Palestinian conflict is usually treated as an issue of land and water While these elements are the core of the conflict they are heavily influenced by the symbols used by both peoples to describe understand and persuade each other The authors argue that symbolic practices deeply influenced the Oslo Accords and that the breakthrough in the peace process that led to Oslo could not have occurred without a breakthrough in communication styles Rowland and Frank develop four crucial ideas on social development the roles of rhetoric ideology and myth the influence of symbolic factors specific symbolic factors that played a key role in peace negotiations and the identification and value of criteria for evaluating symbolic practices in any society

Jordan in the 1967 War Samir A. Mutawi,2002-07-18 This study considers the war from the Jordanian perspective

The Origins of Alliance Stephen M. Walt,2013-08-09 How are alliances made In this book Stephen M Walt makes a significant contribution to this topic surveying theories of the origins of international alliances and identifying the most important causes of security cooperation between states In addition he

proposes a fundamental change in the present conceptions of alliance systems. Contrary to traditional balance of power theories, Walt shows that states form alliances not simply to balance power but in order to balance threats. Walt begins by outlining five general hypotheses about the causes of alliances. Drawing upon diplomatic history and a detailed study of alliance formation in the Middle East between 1955 and 1979, he demonstrates that states are more likely to join together against threats than they are to ally themselves with threatening powers. Walt also examines the impact of ideology on alliance preferences and the role of foreign aid and transnational penetration. His analysis shows, however, that these motives for alignment are relatively less important. In his conclusion, he examines the implications of balance of threat for U.S. foreign policy.

Sanctuary And Survival Rex Brynen, 2019-07-11. Palestinian History and Politics Gregory S. Mahler, Mahdi F. Abdul Hadi, 2025-06-10. This textbook brings together a collection of the most important primary sources in the study of Palestinian nationalism from the late 19th century through to the present day. Drawing from the eight-volume 3,500-page collection published by the Palestinian Academic Society for the Study of International Affairs, this volume contains over 170 of the most important documents in Palestinian political history. Each document has been carefully edited so that extraneous material is removed, making it easier for the student to understand the historical threads that connect the documents. The collection here includes private memoranda and correspondence, political speeches, official treaties, formal letters of understanding, multinational agreements, and international communiqués, and will provide the student with an excellent foundation to understand why Palestinian nationalism has not been as successful in the region as other nationalist movements. In addition, an introductory chapter provides key context for the study of Palestinian history, illustrating the history of successes and challenges faced by proponents of Palestinian nationalism.

Palestinian History and Politics: An Introduction and Documentary Reader is a single volume that will interest students focused on Palestine's quest for national status as well as instructors teaching courses on Palestinian political history.

Beliefs and Policymaking in the Middle East: Analysis of the Israeli-Palestinian Conflict Linda Marie Saghi Aidan, PhD, 2005-09-13. Click here to read an excerpt from the book. I have long tried to understand why the Arab-Israeli Conflict has not been resolved. Despite many attempts at regional and international negotiations since the time of the Mandate, the Conflict has persisted, and the Palestinians still do not have a state. The continuation of the Palestinian question within the more general context of this issue places it at the heart of the Conflict, and this is the reason why I centered my analysis on the Israelis and just the Palestinians instead of all the Arab states in the region. Lack of a solution to the Arab-Israeli Conflict may thus be associated with the absence of a state for the Palestinians. My case study begins with a brief introduction to trends in negotiations, after which I come to my central research question: Why, despite all these attempts at negotiation, had the Arab-Israeli Conflict not been resolved? I

had a feeling the problem might have to do with beliefs That is both sides to the Conflict held and some still hold maximalist beliefs about having the whole of what was mandated Palestine for themselves Both sides have made advances toward peace but the Conflict continues and the Palestinians still do not have a state I assumed that unless both sides changed their beliefs regarding territory there would be no resolution to the Conflict In my view change was not a matter of eliminating a belief but changing the priority of one belief over another i e to believe in peace instead of believing in having all the land of Palestine Before developing some ideas about beliefs in the next section I reviewed some of the literature in international relations that dealt with conflict analysis Two of the more popular ones are the realist approach and organizational theory Realist theorists Hans Morgenthau and Kenneth Waltz examine conflict in terms of maximizing interests in particular power See Introduction Their approaches can explain situations where interests are clear cut but power cannot always impose itself as is seen by international attempts at negotiation or even Israel s efforts to impose a solution on the Palestinians Organizational theory does not necessarily explain situations where state or government bureaucracies don t exist e g with the Palestinians during the time of the Mandate I then decided to go ahead and see what beliefs had to offer to conflict analysis In the section following the realist and organization discussion I looked at beliefs from the standpoint of belief system theorists in international relations and from the psychological approaches that influenced them In order to better examine beliefs and be able to use them to explain this Conflict and perhaps others later I formulated four questions and then looked at what belief system theorists and psychologists had to say about them How were beliefs formed were they consistent with behavior could they change and if so how Two of the major theories in psychology were looked at Attribution and learning See Introduction for more on these approaches From these two approaches we can learn much about how beliefs are formed and in so doing how they can change For example in interpreting incoming information individuals tend to attribute causes to explaining event This causation process implies some reasoning ability and facilitates learning One problem with attribution theory is that it indicates what an individual should do but the person is not always so careful in causal analysis Still the approach is valuable to understanding beliefs These theories also highlight the importance of experience as the past is so often the source of recurrent behavior For any successful negotiation communicat Four Arab-Israeli Wars and the Peace Process Sydney D. Bailey, 2016-07-27 In focusing on four major wars in the Arab Israeli conflict from 1947 to 1979 all of them ending in agreed ceasefires truces or armistices this book concentrates on the external efforts after each war to help resolve the conflict
