Robert M. Price,2025-02-25 In a shrinking world in which religion has become as much a motivation for war and terror as an inspiration for saintliness and benevolence it is more important than ever that we understand faiths other than our own Where did they come from How did they begin Were their legended founders real historical individuals How do their beliefs shape their actions Which faiths are mutations of older ones Many otherwise helpful introductory volumes cover only the most populous religions and fearing most readers will shy away from going deeply into important detail they wind up grossly oversimplifying By contrast Robert M Price s Houses of the Holy fills in these blanks comprehensively and does so in clear straightforward language without cheating the necessary complexity Here you will find fascinating coverage of a full dozen religious faiths including several you have likely never even heard of **The Life of the Skies**

Jonathan Rosen,2008-02-19 Aerial delights A history of America as seen through the eyes of a bird watcher John James Audubon arrived in America in 1803 when Thomas Jefferson was president and lived long enough to see his friend Samuel Morse send a telegraphic message from his house in New York City in the 1840s As a boy Teddy Roosevelt learned taxidermy from a man who had sailed up the Missouri River with Audubon and yet as president presided over America s entry into the twentieth century in which our ability to destroy ourselves and the natural world was no longer metaphorical Roosevelt an avid birder was born a hunter and died a conservationist Today forty six million Americans are bird watchers The Life of the Skies is a genre bending journey into the meaning of a pursuit born out of the tangled history of industrialization and nature longing Jonathan Rosen set out on a quest not merely to see birds but to fathom their centrality historical and literary spiritual and scientific to a culture torn between the desire both to conquer and to conserve Rosen argues that bird watching is nothing less than the

real national pastime indeed it is more than that because the field of play is the earth itself We are the players and the spectators and the outcome since bird and watcher are intimately connected is literally a matter of life and death

Your Word is Fire , 2017-09-05 A fully updated and revised edition of a classic text on Jewish prayer The power of prayer for spiritual renewal and personal transformation is at the core of all religious traditions Because Hasidic literature contains no systematic manual of contemplative prayer the texts included in this volume have been culled from many sources From the teachings of the Hasidic Masters the Ba'al Shem Tov the Maggid Dov Baer of Meidzyrzec and their immediate disciples the editors have gleaned hints as to the various rungs of inner prayer

and how they are attained Hasidism the Jewish revivalist movement that began in the late eighteenth century saw prayer as being at the heart of religious experience and was particularly concerned with the nature of a person's relationship with God The obstacles to prayer discussed by the Hasidic masters distraction loss of spirituality and inconstancy of purpose feel very close to concerns of our own age Through advice parables and explanations the Hasidic masters of the past speak to our own attempts to find meaning in prayer
