Lightning In The Blood:

Time and the Highland Maya Barbara Tedlock, 1992-03 Described as a landmark in the ethnographic study of the Maya this study of ritual and cosmology among the contemporary Quich Indians of highland Guatemala has now been updated to address changes that have occurred in the last decade

Maya Sacred Geography and the Creator Deities Karen Bassie-Sweet, 2014-10-22 The K'iche' Maya creation story preserved in the sixteenth century manuscript Popol Vuh describes the origin of the world and its people in a setting long assumed to be the Guatemalan central highlands Now a scholar with a deep knowledge of Maya history shows that all of these mythological events occurred at specific locations and that this landscape was the template for the Maya worldview Examining the primary Maya deities Karen Bassie Sweet links geographic features to gods and beliefs She reconstructs key elements of the Popol Vuh to argue that the three volcanoes around Lake Atitlan were the three thunderbolt gods and that the lake was the center of the world She also shows that the Maya view of the creation of humans is centered on corn and examines core beliefs about the corn cycle to propose that the creation myth was established much earlier in Maya history than previously supposed Generously illustrated Maya Sacred Geography and the Creator Deities is a detailed ethnohistorical analysis of Maya religion cosmology and ritual practice that convincingly links mythology to the land A comprehensive treatment of Maya religion it provides an essential resource for scholars and will fascinate any reader captivated by these ancient beliefs

Blood Sacrifice Dong FangBuBai, 2020-06-04 I can cover the sun and the moon with my heart The color of the mountains and rivers changed The Heavens had no eyes but they were able to defy the heavens and turn into a demon The heaven and earth were moved Blood flowed like a river washing away the muddy water The universe was turned upside down Close

Blood and Voice Maureen Trudelle Schwarz, 2016-12-15 Adulthood in the Navajo world is marked by the onset of menstruation in females and by the deepening of the voice in males Accordingly young adults must accept responsibility over the powers manifest in blood and voice for women the forces that control reproduction and growth for men the powers of protection and restoration of order that come through maintaining Navajo oral tradition The maintenance of the latter tradition has long been held to be the function of the Navajo singer a role usually viewed as male But despite this longstanding assumption women can and do fill this role Drawing on interviews with seventeen Navajo women practitioners and five apprentices Maureen Trudelle Schwarz explicates women's role as ceremonial practitioners and shows that it is more complex than has previously been thought She examines gender differences dictated by the Navajo origin story details how women came to be practitioners and reveals their experiences and the strategies they use to negotiate being both woman and singer Women who choose careers as singers face complex challenges since some rules prohibit menstruating women from conducting ceremonies and others regarding sexual continence can strain marital relationships Additionally oral history places men in charge of all ceremonial matters Schwarz focuses on how the reproductive life courses of Navajo women influence their apprenticeships and practices

to demonstrate how they navigate these issues to preserve time honored traditions Through the words of actual practitioners she shows how each woman brings her own unique life experience to the role While differing among individuals these experiences represent a commitment to shared cultural symbols and result in a consensus that sustains social cohesion By showing the differences and similarities between the apprenticeship initiation and practice of men and women singers *Blood and Voice* offers a better understanding of the role of Navajo women in a profession usually viewed as a male activity and of the symbolic construction of the self in Navajo culture It also addresses classic questions concerning the sexual division of labor menstrual taboos gender stereotypes and the tension between tradition and change that will enlighten students of other cultures

Blood of Ambrose James Enge, 2009-09-18 In a remote city on the edge of two worlds where blood has power and water is more precious than freedom three far flung friends unite on a quest to save their families Sal Hrvati s estranged father has brought more into the world than the woman he loved Instead of saving her from the Void Beneath he has summoned an unknown creature a creature with a mission of its own and a past that stretches back to the beginning of the world The quest to find both of them entangles Sal and his companions in a hunt for magical treasure on the floor of the Divide a mighty crack in the earth inhabited by creatures that are not remotely human Desert landscapes and dirigibles feature in a fast paced fantasy that combines romance adventure and humor with an original take on magic The Books of the Cataclysm take inspiration from many arcane and mythological sources In positing

that this world is just one of many realms three of which are inhabited by humans during various stages of their lives it begins in the present world but soon propels the reader to a landscape that is simultaneously familiar and fantastic
