Numerical Discourses are usually known as A guttara Nik ya in Pali abbreviated AN However the Pali tradition also knows the form Ekottara one up or incremental and this is the form usually found in the northern collections These collections organize texts in numbered sets from one to eleven Compared to the other nik yas they are more oriented to the lay community The Ekottarik gama EA in Chinese is a highly unusual text which features a range of variations within itself when it comes even to basic doctrines It shares considerably less in common with the Pali A guttara than the other collections do with their counterparts In addition there is a partial Ekottarik gama in Chinese as well as a variety of individual discourses and fragments in Chinese and Sanskrit This translation of A guttara Nik ya was updated on March 6th 2023 **Dr. J. Fire Burning Within Dan Jason, 2020-06-01 Life is hard and full of tremendous challenges We can either go through it or we can grow through it It s time for you to claim your crown and find the best version of yourself which is embedded deep within You have what it takes It won t be easy but through hard work determination faith in God and great trust you can and will uncover the beauty from the ashes You were made for greatness and must not settle for less Today is the day for you to light that match and set your life ablaze We all get our shot so dig deep because you have limitless potential It s time to reignite your passion and zeal If you want it bad enough you will do whatever it takes Go out there and unleash the beast You have so much to live for There is no time like the present moment Now is the time to be fully alive Feel and fuel the fire that burns within and blaze a new trail in order to live out your truth Be the best version of yourself and hold nothing back You were made to thrive Come along and journey with me it is time for you to reach your full potential

I Died a Million Times Robert Miklitsch, 2021-01-11 In the 1950s the gangster movie and film noir crisscrossed to create gangster noir Robert Miklitsch takes readers into this fascinating subgenre of films focused on crime syndicates crooked cops and capers With the Senate s organized crime hearings and the brighter than bright myth of the American Dream as a backdrop Miklitsch examines the style and history and the production and cultural politics of classic pictures from *The Big Heat* and *The Asphalt Jungle* to lesser known gems like *711 Ocean Drive* and post Fifties movies like *Ocean s Eleven* Miklitsch pays particular attention to trademark leitmotifs including the individual versus the collective the family as a locus of dissension and rapport the real world roots of the heist picture and the syndicate as an octopus with its tentacles deep into law enforcement corporate America and government If the memes of gangster noir remain prototypically dark the look of the films becomes lighter and flatter reflecting the influence of television and the realization that under the cover of respectability crime had moved from the underworld into the mainstream of contemporary everyday life
