Wrobel,Michael C. Steiner,1997 What does it mean to live in the West today Do people tend to identify with states with regions or with the larger West This book examines the development of regional identity in

the American West demonstrating that it is a regionally diverse entity made up of many different wests Great Plains Southwest Rocky Mountains and more in which American regionalism finds its fullest expression These fourteen original essays tell how a sense of place emerged among residents of various regions and how a sense of those places was developed by people outside of them Wrobel and Steiner first offer a compelling overview of the West s regional nature then thirteen other rising or renowned scholars from history American Studies geography and literature tell how regional consciousness formed among inhabitants of particular regions All of the essays address the larger issue of the centrality of place in determining social and cultural forms and individual and collective identities Some focus on race and culture as the primary influences on regional consciousness while others emphasize environmental and economic factors or the influence of literature Some even examine western regionalism in areas that lie beyond the West as it has traditionally been conceived Each of the contributors believes that where a people live helps determine what they are and they write not only about the many wests within the larger West but also about the constant state of flux in which regionalism exists Many books speak of the West as a place but few others deal with the West s different places Many Wests presents a vision of the West that reflects both the common heritage and unique character of each major subregion building on the revisionist impulse of the last decade to help redirect New Western History toward an appreciation of regional diversity and integrate scholarship in the regional subfields It is a book for everyone who lives in studies or loves the West for it confirms that it is home to very different peoples economies histories and regions World Authors 1990-1995 Clifford Thompson,1999 Representing a broad range of ethnic diversity these in depth profiles present fascinating accounts of lives and careers the circumstances under which works were produced and their literary significance Each profile also includes critical evaluation a list of the author s principal works with date first published a list of major critical works and a portrait or photograph where available

The Boom Femenino in Mexico Nuala Finnegan,Jane Elizabeth Lavery,2010 The Boom Femenino in Mexico Reading Contemporary Women TM s Writing is a collection of essays that focuses on literary production by women in Mexico over the last three decades In its exploration of the boom femenino phenomenon the book traces the history of the earlier boom in Latin American culture and investigates the implications of the use of the same term in the context of contemporary women TM s writing from Mexico In this way it engages critically with the cultural historical and literary significance of the term illuminating the concept for a wide range of readers It is clear that the entry of so many women writers into an arena traditionally reserved for men has prompted discussion around concepts such as women TM s writing TM and the very definition of literature TM itself Many of the contributors grapple with the theoretical tensions that such debates provoke offering an important opportunity to think critically about the texts produced during this period and the ways in which they have impacted on the Mexican and international cultural spheres The project is comprehensive in its scope and for the first time brings together scholars from Mexico the U S and Europe in a transnational forum The book posits that despite certain

aesthetic and thematic commonalities the increased output by women writers in Mexico cannot be appraised as a unified literary movement. Instead, it embraces a wide range of different generic forms and the subjects under study in the essays in the book include the best-selling work of Angeles Mastretta, Elena Poniatowska and Laura Esquivel as well as the social and political preoccupations of journalists Rosanna Reguillo and Cristina Pacheco. Contributors offer readings of the aesthetic visions of writers as diverse as Carmen Boullosa, Ana García Bergua and Eve Gil while other essays examine the nuances of contemporary gender identity in the work of Ana Clavel, Sabina Berman, Brianda Domecq and Mar a Luisa Puga. There are essays devoted to poetry by indigenous Mayan women and an analysis of the complex place of poetry within the broader framework of literary production. The problems that emerge as a result of literary cataloguing based on gender politics are also considered at length in a number of essays that take a panoramic view of literary production over the period. Various critical approaches are employed throughout and the collection as a whole demonstrates that academic interest in Mexican women's writing of the boom/feminist period is thriving. Above all, the essays here provide a space in which the location of women within prevailing cultural paradigms in Mexico and their role in the mapping of power in evolving textual canons may be interrogated. It is clear from the collection that interest in such issues is still alive and that the debate is far from over.
